DANGER/PELIGRO
Read all precautionary and first aid statements on back and side panels before use.

Net Wt. 3.655 lbs. (1.657 kg)
HOW TO ADD THIS PRODUCT TO YOUR POOL:
1. Turn on the circulation pump.
2. Add the correct dose of this product slowly to the skimmer.
3. Leave the circulation pump running and do not backwash for at least 48 hours.

HOW TO MAINTAIN THE CORRECT STABILIZER CONCENTRATION:
1. Check the stabilizer level at least twice each swimming season.
2. Add this product as needed.

PRECAUTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION: Eye irritant. Avoid contact with the skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Do not mix this product with any other chemicals.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for immediate treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

WHY YOU SHOULD USE THIS PRODUCT: This is an effective, multi-purpose product that sanitizes, clarifies, helps prevent algae and shock treats your pool. It is convenient, easy to use, and won't over-stabilize your pool.

WATER BALANCE:
Download the FREE Test to Swim™ app from your smartphone for expert water analysis, product recommendations, and dosage instructions. Adjust and maintain pool water to recommended ranges:

<table>
<thead>
<tr>
<th>Acceptable Range for Balance</th>
<th>Total Alkalinity 60-100 ppm</th>
<th>pH 7.2-7.6</th>
<th>Calcium Hardness Above 200 ppm</th>
<th>Available Chlorine 1-4 ppm</th>
</tr>
</thead>
</table>

Note: Follow label directions for each product and allow each product to dissolve and disperse before adding additional products to the pool. Always check and adjust total alkalinity before adjusting pH levels. Use an hth® test kit or test strips that measure all these ranges.

HOW TO USE: DO NOT USE in floater or feeder.

METHOD FOR DOING DIRECTLY INTO POOL:
Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use brush to disperse until completely dissolved. Undissolved granules may cause bleaching or other damage to pool surfaces. Test free available chlorine residual with a test kit or test strips. Do not enter pool until the free available chlorine residual is 1-4 ppm. Re-entry into treated swimming pools is prohibited above levels of 4 ppm chlorine for risk of bodily injury.

OPENING YOUR POOL:
Balance pool water per levels in WATER BALANCE section. Add a shock dosage of this product. Repeat dosage, as needed, until the free available chlorine residual is 1-4 ppm. Follow label directions for each of these products.

SHOCK TREATMENT / SUPERCHLORINATION:
As a preventative treatment, shock treat your pool once per week with hth® shock treatment. Additional shock treatments may be necessary to remedy problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odor or eye irritation occur, after heavy wind and rainstorms, or if algae begins to develop with resulting green color and slimy feeling. Use the following dosage recommendations based upon pool size:

<table>
<thead>
<tr>
<th>Pool size, gallons</th>
<th>Dosage, ounces</th>
</tr>
</thead>
<tbody>
<tr>
<td>500</td>
<td>0.7</td>
</tr>
<tr>
<td>1,000</td>
<td>1.3</td>
</tr>
<tr>
<td>2,500</td>
<td>3.3</td>
</tr>
<tr>
<td>5,000</td>
<td>8.7</td>
</tr>
</tbody>
</table>

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, absorbed through skin, or inhaled.

- Open in a well-ventilated area. Avoid breathing dust and fumes. Do not get in eyes, skin, or on clothing. Do not handle with bare hands. Wear protective eyewear and use rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove and wash contaminated clothing before reuse.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Remove person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

In case of emergency call: 1-800-654-9011

Physical and Chemical Hazards:
If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not pre-mix or add water to this product. Only add this product directly to your swimming pool or skimmer. Do not allow to become wet or damp before use. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. Keep all foreign matter, including other water treatment products, away from this product. Use only clean, dry utensils to dispense this product. Do not use this product in a feeder or filter. Do not allow this product to contact other water treatment products. Before placing this product in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases. Store in a cool, dry, well-ventilated area. Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flammable and burning material, including lighted cigarettes.

Environmental Hazards:
This pesticide is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat, flammable and burning material, including lighted cigarettes.

In case of contamination or decomposition: Do not use or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed storage or disposal or cleaning of equipment. FOR DISPOSAL OF A TRASHED, CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING.

EMERGENCY HANDLING:
In case of contamination or decomposition: Do not reuse container. Place the container in an open and well-ventilated area by itself (if possible). Flood with large amounts of water until the material is dissolves. Dispose of container and any remaining contaminated material in an approved landfill area.

Other Ingredients ................................. 44%
**TOTAL** ........................................... 100%
Minimum Available Chlorine ........... 52.5%

**KEEPC OUT OF REACH OF CHILDREN MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS**

**DANGER/PELIGRO**

Contamination or improper use may cause fire, explosion, or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Only add this product directly to your swimming pool.

**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

**ROUTINE CHLORINATION:**

For Kiddie Pools: Throughout the pool season, add 0.14 oz. (3/4 teaspoon) of this product per 200 gallons of pool water daily or as often as needed to maintain chlorine residual at 1-4 ppm. For small pools less than 5,000 gallons:

FOR UNSTABILIZED POOLS: Add 0.35 oz (1 teaspoon) of this product per 500 gallons of pool water daily as oft as needed to maintain the free available chlorine residual at 1-4 ppm.

FOR STABILIZED POOLS: Add 0.2 oz (1 1/4 tsp) per 500 gallons every other day or as often as needed to maintain the free available chlorine residual at 1-4 ppm.

**PRECAUTIONARY STATEMENTS:**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, absorbed through skin, or inhaled.

- Open in a well-ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear protective eyewear and use rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove and wash contaminated clothing before reuse.

**FIRST AID:**

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:** Probable mucosal damage may corroborate the use of gastric lavage.

**IN CASE OF EMERGENCY CALL:** 1-800-564-9011

**PHYSICAL AND CHEMICAL HAZARDS:**

If product is exposed to small amounts of water, it can react violently to produce heat, toxic gases and spatter. Do not pre-mix or add water to this product. Only add this product directly to your swimming pool.

**DO NOT allow to become wet or damp before use.**

**REACT WITH OTHER MATERIALS, INCLUDING OTHER WATER TREATMENT PRODUCTS, TO MAKE INTENSE FIRE, EXPLOSION, AND THE RELEASE OF TOXIC GASES.** Keep all foreign matter, including other water treatment products, away from this product.

**USE ONLY clean, dry utensils to dispense this product.** Do not use this product in a float or feeder. Do not allow this product to contact other water treatment products. Before placing this product in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products.

**EXPOSURE TO HEAT CAN CAUSE THIS PRODUCT TO RAPIDLY DECOMPONE, LEADING TO FIRE, EXPLOSION, AND THE RELEASE OF TOXIC GASES.** Store in a cool, dry, well-ventilated area. Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flame and burning material, including ignited cigarettes.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish and aquatic organisms.

**STORAGE & DISPOSAL:**

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE “EMERGENCY HANDLING”. EMERGENCY HANDLING: In case of contamination or decomosition – Do not re-use container. Empty the container and dispose of the container and any remaining contaminated material in an approved landfill area.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

**WHY SHOULD YOU USE THIS PRODUCT:**

This product helps to protect and extend the life of chlorine in swimming pool water. It slows the loss of chlorine caused by sunlight. Use this product if sunlight makes it difficult to maintain the correct chlorine level.

**HOW TO USE:**

**BEFORE ADDING THIS PRODUCT TO YOUR POOL**

1. Clean and backwash the filter.
2. Adjust free available chlorine level to 1-4 parts per million (ppm) with an hth® chlorinating product. Follow label directions on that product.
3. Measure the stabilizer cyanuric acid concentration with an hth® test kit or test strips. The ideal range is 20-25 parts per million (ppm). Chlorine is not as effective if the stabilizer range is above 100 parts per million (ppm).
4. Use the table shown to determine the correct amount of this product.

<table>
<thead>
<tr>
<th>Gallons of pool water</th>

DANGER/PELIGRO
Contamination or improper use may cause fire, explosion, or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. This product is Supersaturated, use in Lot No.

COMPATIBLE WITH SALT SYSTEMS

MADE IN THE USA

Net Wt. 1 lb.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE. DO NOT use in floater or feeder. METHOD FOR DOING DIRECTLY INTO POOL:
Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use brush to disperse until completely dissolved. Undissolved granules may cause bleaching or other damage to pool surfaces. Test free available chlorine residual with an HTH® test kit or test kit. Do not add water until the free available chlorine residual is at 1-4 ppm. Re-enter into treated swimming pools is prohibited above levels of 4 ppm chlorine for risk of bodily injury.

ROUTINE CHLORINATION:
Throughout the pool season, add 0.14 oz (3.4 teaspoons) of this product per 200 gallons of pool water daily or as often as needed to maintain chlorine residual at 1-4 ppm. For small pools less than 5,000 gallons:
FOR INSTANTLY POOLS: Add 0.15 oz (2 teaspoons) of this product per 500 gallons of pool water daily or as often as needed to maintain free available chlorine residual at 1-4 ppm.
FOR STABILIZED POOLS: Add 0.2 oz (1.4 tablespoons) per 500 gallons every other day or as often as needed to maintain the free available chlorine residual at 1-4 ppm.

PRECAUTIONARY STATEMENTS:
HARMING TO HUMANS AND DOMESTIC ANIMALS:
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Normal pH swallowed, absorbed through skin, or inhaled.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF SMALLMOUTH: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucous damage may contraindicate the use of gastric lavage.

WATER BALANCE:
Download the FREE Test to Swim™ app from your smartphone for expert water analysis, product recommendations, and dosage instructions. Adjust and maintain pool water to recommended ranges.

14 OZ
Acidity Balance
Total Alkalinity 150-250 ppm
Calcium Hardness Above 200 ppm
Available Chlorine 1-4 ppm

Note: Follow label directions for each product and allow each product to disperse and disperse before adding additional products to the pool. Always check and adjust total alkalinity before adjusting pH levels. Use an hth® test kit or test strips that measure all these ranges.

HOW TO USE: DO NOT use in a Tracker or feeder.
METHODS FOR DOING DIRECTLY INTO POOL:
Add the recommended dosage of this product during evening hours while the filter pump is running. When adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use a brush to dispense until completely dissolved. Undissolved granules may cause bleeding or other damage to pool surfaces. Test free available chlorine residual with a test kit or test strip. Do not enter pool until free available chlorine residual is 1 to 4 ppm. Re-entry into treated swimming pool is prohibited above levels of 6 ppm chlorine for risk of bodily injury.

OPENING YOUR POOL:
Balance pool water per levels in WATER BALANCE section.
Add a shock dosage of this product. Repeat dosage, as needed, until free available chlorine-residual is 1-4 ppm. Follow label directions for each of these products.

SHOCK TREATMENT / SUPERCHLORINATION:
As a preventative treatment, shock treat your pool once per week with hth® shock treatment. Additional shock treatments may be necessary to remove problems which may occur when bathing loads are high, water appears hazy or dull, unpleasant odors or eye irritation occur, after heavy rain, wild weather, or algae above develops with resulting green color and slimy feeling.

Preecautionary Statements:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, absorbed through skin, or inhaled. ● Open in well-ventilated areas. Avoid breathing dust and fumes. ● Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear protective eyewear and use rubber gloves. For additional protection of skin, wear long sleeves and long pants. ● Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. ● Remove and wash contaminated clothing before reuse.

FIRST AID:
If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present after the first 5 minutes, and continue rinsing eyes. Call a poison control center or doctor for treatment advice.
If On Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. If Inhaled: Remove person to fresh air. If person is not breathing, call 911 and an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. NOTE TO PHYSICIAN: Probable internal damage may contraindicate the use of gastric lavage. IN CASE OF EMERGENCY CALL: 1-800-654-9111

PHYSICAL, AND CHEMICAL HAZARDS:
If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and splatter. Do not pre-mix or add water to this product. Only add this product directly to your swimming pool or skimmer.
● Do not allow below, over or near campfire. Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases. ● Keep all foreign matter, including other water treatment products, away from this product. ● Use only clean, dry, and dry ingredients to dispense this product. ● Do not use this product in a float or feeder. ● Do not allow this product to contact other water treatment products. Before placing this product in a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products. Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases. ● Store in a cool, dry, well-ventilated area. Strong oxidizing agent. This product can increase fire severity. ● Keep away from food and from flame and burning materials, including lighted cigarettes.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal of or cleaning of equipment for disposal of a container. Do not dispose of container or any remaining contaminated material in an approved landfill area.

STOP!
Do Not Mix with Other Products or Dissolve or Dispose of Remaining Container Material in This Product.
DIRECTIONS FOR USE:
READ ALL PRECAUTIONARY STATEMENTS BEFORE USE. WHY YOU SHOULD USE THIS PRODUCT:
This product helps to protect and extend the life of chlorine in swimming pool water. It removes the loss of chlorine caused by sunlight. Use this product if sunlight makes it difficult to maintain the correct chlorine level. For crystal clear pool water, follow our hth® 4 step pool care program: Step 1: Test and adjust pool water balance. Step 2: Sanitize. Step 3: Shock treat your pool at least once a week. And Step 4: Add algicide regularly. Download the FREE Test to Swim™ app from your smartphone for expert water analysis, product recommendations, and dosage instructions.
Adjust and maintain pool water to recommended ranges:
Acceptable Range for Balance:

<table>
<thead>
<tr>
<th>Total Alkalinity</th>
<th>pH</th>
<th>Calcium Hardness</th>
<th>Available Chlorine</th>
</tr>
</thead>
<tbody>
<tr>
<td>60-120 ppm</td>
<td>7.2-7.8</td>
<td>Above 200 ppm</td>
<td>1-4 ppm</td>
</tr>
</tbody>
</table>

NOTE: Follow label directions for each product and allow each product to dissolve and dispense before adding additional products to the pool. Always check and adjust total alkalinity before adjusting pH levels. Use a test kit or test strips that measures all these ranges.

METHOD OF APPLICATION:
BEFORE ADJUSTING THIS PRODUCT TO YOUR POOL:
1. Clean and backwash the filter.
2. Adjust free available chlorine level to 1-4 parts per million (ppm) with an hth® chlorinating product. Follow label directions on that product.
3. Measure the total (cyanuric acid) concentration with an hth® test kit or test strips. The ideal range is 25-50 parts per million (ppm). Chlorine is not as effective if the stabilizer range is above 100 parts per million (ppm). 4. Use the table shown to determine the correct amount of this product.

<table>
<thead>
<tr>
<th>Gallons of pool water</th>
<th>0 parts per million (ppm)</th>
<th>10 parts per million (ppm)</th>
<th>30 parts per million (ppm)</th>
<th>40 parts per million (ppm)</th>
</tr>
</thead>

HOW TO ADD THIS PRODUCT TO YOUR POOL:
1. Turn on the circulation pump. 2. Add the correct dose of this product directly to the skimmer. 3. Leave the circulation pump running and do not backwash for 24 hours.

HOW TO MAINTAIN THE CORRECT STABILIZER CONCENTRATION:
1. Check the stabilizer level at least twice during each swimming season. 2. Add this product as needed. PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION: Eye irritant. Avoid contact with the skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Do not mix this product with any other chemicals.

FIRST AID:
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. IF ON SKIN OR CLOTHING: Take off contaminated clothing and wash before reuse. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

IN CASE OF EMERGENCY: 1-800-654-6911 Have the product container or label with you when calling a poison control center or doctor or going for treatment.

STORAGE AND DISPOSAL: Keep container tightly closed in a dry, cool location. Keep away from heat or open flame. Use entire contents, then triple rinse and offer for recycling, or dispose in accordance with state and local regulations. Do not reuse empty container.

EMERGENCY HANDLING: In case of contamination or decomposition:
1. DO NOT reuse container if the product gives off heat, gives off hazardous gases, or bubbles. 2. Locate container if possible. 3. Flood decontaminating product with large amounts of water to dissolve this product. 4. Throw away the container and any contaminated material in an approved landfill area.
