See back panel for additional precautionary statements and First Aid.

One Aquatabs tablet will produce a 2.5ppm available chlorine solution when dissolved in two quarts of water.

Active Ingredient:
Sodium Dichloroisocyanurate 16.88%
Other Ingredients: 83.12%
Total: 100.00%

Net contents: 30, 49mg Tablets

Effective against Giardia Cysts, Bacteria and Viruses.
FIRST AID

If in eyes
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If swallowed
- Call a poison control center or doctor immediately for treatment advice.
- Have a person sip on a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If inhaled
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

If on skin or clothing
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

YOU MAY ALSO CONTACT 1-800-222-1222 FOR EMERGENCY MEDICAL TREATMENT INFORMATION.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read the entire label and use strictly in accordance with precautionary statements and directions.

TREATING WATER FROM RIVERS, LAKES, WELLS, CISTERNs OR SIMILAR SYSTEMs (≤ 4°C (40°F)):

Prior to use, remove all suspended material by filtration or allow to settle to the bottom of an initial container. Afterwards, move contaminated water to a new, clean container for treatment.

To Use: Remove one Aquatabs tablet from its packaging and quickly insert into 1.5 liters (0.75 quart) of contaminated water (2.5ppm [2.5mg/L]) available chlorine). Mix well for at least 10 minutes, then allow to stand for 30 minutes before drinking. The treated water is now safe for drinking.

TREATING INDIVIDUAL WATER SYSTEMS AT ROOM TEMPERATURE

To Use: Remove one Aquatabs tablet from its packaging and quickly insert into 2 quarts (0.5 gallon) of contaminated water (2.6ppm [2.6mg/L] available chlorine). Mix well for at least 10 minutes, then allow to stand for 30 minutes before drinking. The treated water is now safe for drinking.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store in a cool, dry area away from sunlight and heat and in an area inaccessible to children.

Pesticide Disposal: Product or containers that cannot be used must be dried with water before disposal in a sanitary sewer.

Container Handling - Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

Emergency Handling

In case of contamination or decomposition do nontreat container. If possible isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes substantial but temporary eye injury. Harmful if swallowed. Do not get in eyes or on clothing. Wear protective eyewear (goggles with side shields, safety glasses, or face shield). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

Environmental Hazards

This pesticide is toxic to fish and aquatic organisms.

Physical or Chemical Hazards

Contains strong oxidizing agent. Use only clean, dry utensils. Mix only into water. Contamination with moisture, dirt, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flame or burning material such as a lit cigarette. Do not use the product in any chlorinating device which has been used with any inorganic or unstable chlorinating compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.
