**FIRST AID**

**IF INHALED:**
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.

Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so.

**Cleaner Wipes**
- **Sporicidal Disinfectant**
  - Effective in 4 minutes against *Clostridium difficile* spores
  - Sodium hypochlorite: 1.312%
  - Hypochlorous acid: 100.000%

**Avert**
- **Effective in 4 minutes against *Clostridium difficile* spores**
- *Viruses*: Norovirus
- *Bacteria*: Staphylococcus aureus
- Laboratory Practices, in the presence of soil and 4 minute contact time, this product is sporidial against *Clostridium difficile* spores
- Cleans • Deodorizes • Disinfects • *Virucidal • Fungicidal

**DIRECTIONS FOR USE:**
1. Pre-clean heavily soiled areas.
2. For Use as a One-Step Cleaner/Disinfectant:
   - Let air dry.
   - Wipe hard, nonporous, inanimate, environmental surfaces with towelette until thoroughly wet. Surfaces must remain wet for 4 minutes. Wipe surfaces and let air dry.
   - Vigorous wiping and/or scrubbing, until all visible soil is removed. Special attention is to be given to vertical surfaces, to minimize spreading of the spores. Restrooms are to be wiped from top to bottom, on vertical surfaces, to minimize spreading of the spores.
   - **Fecal matter/waste must be thoroughly cleaned from surfaces/objects before disinfection by application with this product. Cleaning is to include special instructions for cleaning prior to disinfection against *Clostridium difficile* spores, allow to remain wet for 4 minutes.**
   - **Disposal of Infectious Materials:**
     - **FLUIDS.**
     - **Eye covering.**
     - **Wear appropriate barrier protection such as gloves, gowns, masks or eye covering.**
     - **Note:**
       - Not recommended for use on or avoid contact with: aluminum, brass, chipped enamel, clear plastic, copper, finished floors, natural marble, painted surfaces, and silver.

**PRECAUTIONARY STATEMENTS:**
- Personal Protection
  - Specific barrier protection items to be used when handling FLUIDS.

**Storage and Disposal:**
- EPA Reg. No. 70627-75
- Not to be used near electrical devices.
- Do not use on or around food.
- Do not use on or around food and water systems.
- Not for use on or about food.
- Do not use in or on food processing equipment.
- Not for use on or around food, food products, or food equipment, or in or on food processing equipment.
- **Container Disposal:**
  - Refill this container only with this product. Do not reuse this container for any other purpose.
  - Do not store this product in a container with any other disinfectant.
  - Do not mix with any other product.
  - Keep away from clothing and other combustible materials. Do not mix with any other product.
  - Remove and wash contaminated clothing before reuse.
  - In case of inadequate ventilation wear respiratory protection. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
  - Dispose of wipe in trash after use. DO NOT FLUSH. Refillable container.

spore

mattresses and pillows, diagnostics equipment, exterior surfaces of medical

control.

spore

This product has been developed to aid in the reduction of cross-contamination

This product can be used in the following areas: assisted living facilities, 

Cleans, disinfects, and deodorizes in one labor saving step.

Let air dry.

Wipe hard, nonporous, inanimate, environmental surfaces with towelette.

2. Wipe hard, non-porous inanimate environmental surfaces with towelette.

3. All surfaces must remain visibly wet for 1 minute.

4. Wipe surfaces and let air dry.

Materials used in the cleaning process that may contain 

Blood and other body fluids, cleaning materials

Contact Time:

Surfaces/objects before disinfection by application with this product.

Cleaning is to include 

Fecal matter/waste must be thoroughly cleaned from 

eye covering.

Personal Protection:

Clostridium difficile

Type 1 (HIV-1).

be soiled with blood or body fluids can be associated with the potential for

surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to 

previously soiled with blood/body fluids 

*Kills HBV, HCV and HIV-1 on pre-cleaned environmental surfaces/objects

*Virucidal • Fungicidal

Sporicidal Disinfectant Cleaner Wipes

Using approved Standard Quantitative Disk Carrier Test Method under Good Laboratory Practices, in the presence of 5% serum load and 1 minute contact time, this product kills and inactivates spores of Clostridium difficile (ATCC 43598) on hard, non-porous surfaces. Using approved Standard Quantitative Disk Carrier Test Method under Good Laboratory Practices, in the presence of soil and 4 minute contact time, this product kills the following on hard, non-porous, inanimate, environmental surfaces:

**Bacteria:**
- Pseudomonas aeruginosa, (ATCC 15442)
- Staphylococcus aureus, (ATCC 25923)
- Escherichia coli, (ATCC 11775)
- Listeria monocytogenes, (ATCC 19117)
- Streptococcus pyogenes, (ATCC 19615)

**Antibiotic-Resistant Bacteria:**
- Acinetobacter baumannii, Multi-Drug Resistant (MRD) (ATCC 19606)
- Escherichia coli, Multi-Drug Resistant (ATCC 20710)
- Klebsiella pneumoniae, Carbapenem Resistant (CRKP) (ATCC 19615)
- Enterococcus faecalis, Multi-Drug Resistant (MDRO) (ATCC BAA-196)

**Viruses:**
- Adenovirus Type 4, (ATCC VR-4, Strain RI-67)
- Human Coronavirus, (ATCC VR-740, Strain 229E)
- Poliovirus Type 1, (ATCC VR-1093)
- Norovirus, Feline Calicivirus as a Surrogate for Viruses:
- Staphylococcus aureus, (ATCC 10708)
- Salmonella enterica, (ATCC 14028)
- Hepatitis B Virus (HBV)
- Influenza A Virus, 2009-H1N1 (Novel H1N1)
- Rhinovirus Type 37, (ATCC VR-1147, Strain 151-1)
- Hepatitis C Virus (HCV) Strain A/Mexico/4108/2009 CDC# 2009712192
- Rotavirus, Strain WA, (ATCC 15442)

**Animal Housing Facilities Including Veterinary Clinics, Farms, Livestock, Swine and Poultry Houses:** For cleaning and disinfecting the following hard, non-porous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

DIRECTIONS FOR USE:

**NOTE:** Read and check carefully all information, including the specifications in this box. The job will not be sent to print until final okay is received. All information contained on the label and in this box are the responsibility of the final approver.

1. Remove all animals and feeds from premises, animal transportation vehicles, crates, etc.
2. Empty all troughs, racks, and other feeding or watering appliances.
3. Thoroughly clean all surfaces with soap or detergent and rinse with potable water. Wipe hard, non-porous inanimate environmental surfaces with a towel.
4. All surfaces must remain visibly wet for 1 minute.
5. Allow to air dry or rinse with potable water if necessary.
6. Allow air or rinse with potable water if necessary.
7. Ventilate buildings and other closed spaces.
8. Do not house animals or employ equipment until treatment has been absorbed, set or dried.

For use as a Cleaner and/or Disinfectant: For cleaning and disinfecting the following hard, non-porous environmental surfaces. Allow to air dry or rinse with potable water if necessary.

See the container label for use directions and additional required information for First Aid, Precautionary Statements, and Storage and Disposal.
