EVERGREEN® 100
SYNERGIZED ULV CONCENTRATE

- Synergized Pyrethrum Concentrate
- Kills and Repels Flies
- Quick Knockdown
- For Use in Livestock & Poultry Houses
- For Use Outdoors

ACTIVE INGREDIENTS:
Pyrethrins ........................................ 1.00%
* Piperonyl butoxide ................................ 5.00%
** Other Ingredients ................................ 94.00%
* (butylcarbityl) (6-propylpiperonyl) ether and related compounds
** Contains petroleum distillates

EVERGREEN® and MGK® are registered trademarks of McLaughlin Gormley King Company.

KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID
IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
NOTE TO PHYSICIAN: Contains petroleum distillate – vomiting may cause aspiration pneumonia. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Harmful if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS
This product is toxic to aquatic organisms, including fish and invertebrates. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. This product may contaminate water through runoff. This product has a potential for runoff for several weeks after application. Poorly draining soils and soils with shallow water tables are more prone to produce runoff that contains this product.

Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash-waters or rinsate.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS
Combustible. Do not use or store near heat or open flame.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

See booklet for directions for use and additional precautionary statements.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS:

Do not make applications during rain. Do not remain in treated area. Exit area immediately and remain outside the treated area until aerosols, vapors, and/or mists have dispersed.

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

Do not water the treated area to the point of runoff.

Do not use in aircraft cabins.

When used in dairy barns or facilities: Close milk bulk tank lids to prevent contamination from spray and from dead or falling insects. Remove or cover milking utensils before application. Wash teats of animals before milking.

Do not make space spray applications when facility is in operation.

Prior to space spray applications, cover or remove food.

Prior to space spray applications, cover food processing surfaces or clean after treatment and before use.

For space spray use, do not enter or allow others to enter treated area until sprays have dried.

For space spray use do not enter or allow others to enter until vapors, mists, and aerosols have dispersed, and the treated area has been thoroughly ventilated. Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

Only protected handlers may be in the area during application.

Do not apply directly to animals.

Do not apply more than 1 time per day.

For all indoor crack and crevice applications:

Remove or cover exposed food and drinking water before application.

Remove or cover dishes, utensils, food processing equipment and food preparation surfaces or wash them before use.

When used in food handling and processing facilities:

- Do not make space spray applications when facility is in operation.
- During space spray applications, cover or remove food.
- During space spray applications, cover food processing surfaces or clean after treatment with a suitable detergent and rinse with potable water before use.

Not for use in outdoor residential misting systems.
Stable Flies and Black Flies
Contact Spray: Apply as a direct spray to control stable flies or black flies. Dilute 3.5 fl. oz. of concentrate in 1 gallon of mineral oil to cover 1,000 sq. ft. of surface.

Mosquitoes (including but not limited to: Southern House, Common Malaria and Yellow Fever Mosquitoes)
Space Spray: Apply at the rate of 0.5 fl. oz. of undiluted product per 1,000 cubic feet. Direct spray toward the upper portions of the enclosure, above the animals, filling the room with mist or fog.
Contact Spray: Apply as a direct spray to control the southern house mosquito. Dilute 1.5 fl. oz. of concentrate in 1 gallon of mineral oil to treat 1,000 sq. ft. of surface.

Poultry Lice and Northern Fowl Mites
Space Spray: Apply spray as a fine mist using a conventional ULV cold aerosol generator, automatic ULV misting system and equipment, thermal fogger, or fogger adjusted to deliver aerosol size droplets. Apply undiluted at the rate of 1.25 fl. oz. per 1,000 cu. ft. of space. Direct spray toward the upper portions of the enclosure above the animals, filling the room with mist or fog.

Bed Bugs in Poultry Houses
Surface Spray: Apply as a surface spray in a handheld or backpack sprayer. Apply surface spray applications as a coarse spray applying uniform amounts of solution on substrates. Dilute 3.5 fl. oz. of concentrate in 1 gallon of mineral oil to treat 1,000 sq. ft. of surface.
Contact Spray: Apply as a direct spray to control bed bugs. Dilute 3.5 fl. oz. of concentrate in 1 gallon of mineral oil to cover 1,000 sq. ft. of surface.
Crack and Crevice Spray: Apply spray into cracks and crevices of roost poles, walls, nests and other bed bug harborage areas. Dilute 3.5 fl. oz. of concentrate in 1 gallon of mineral oil per 1,000 sq. ft. of surface.
Space Spray: Apply spray as a fine mist using a conventional ULV cold aerosol generator, automatic ULV misting system and equipment, thermal fogger, or fogger adjusted to deliver aerosol size droplets. Apply undiluted at the rate of 1.25 fl. oz. per 1,000 cu. ft. of space. Direct spray toward the upper portions of the enclosure above the animals, filling the room with mist or fog.

Darkling Beetles (Lesser Mealworm) in Poultry Houses
Surface Spray: Apply as a surface spray in a handheld or backpack sprayer. Apply surface spray applications as a coarse spray applying uniform amounts of solution on substrates. Dilute 3.5 fl. oz. of concentrate in 1 gallon of mineral oil to treat 1,000 sq. ft. of surface.
Space Spray: Apply spray as a fine mist using a conventional ULV cold aerosol generator, automatic ULV misting system and equipment, thermal fogger, or fogger adjusted to deliver aerosol size droplets. Apply undiluted at the rate of 1.25 fl. oz. per 1,000 cu. ft. of space. Whenever possible, space spray application should be made in the late evening when insects are at rest. Direct spray toward the upper portions of the enclosure above the animals, filling the room with mist or fog.

German Cockroaches
Space Spray: Apply spray as a fine mist using a conventional ULV cold aerosol generator, automatic ULV misting system and equipment, thermal fogger, or fogger adjusted to deliver aerosol size droplets. Apply undiluted at the rate of 1.0 fl. oz. per 1,000 cu. ft. of space. Direct spray toward the upper portions of the enclosure above the animals, filling the room with mist or fog.
Surface Spray: Apply spray (only when pests are present) as a surface spray in a handheld or backpack sprayer. Apply surface spray applications as a coarse spray applying uniform amounts of solution on substrates. Apply between 3.5 and 106 fl. oz. of concentrate as required to cover 1,000 sq. ft. of surface.
Contact Spray: Apply as a direct spray to control German cockroaches. Apply between 1.5 and 106 fl. oz. of concentrate as required to cover 1,000 sq. ft. of surface.

American Cockroaches
Surface Spray: Apply spray (only when pests are present) as a surface spray in a handheld or backpack sprayer. Apply surface spray applications as a coarse spray applying uniform amounts of solution on substrates. Apply between 3.5 and 106 fl. oz. of concentrate as required to cover 1,000 sq. ft. of surface.
Contact Spray: Apply as a direct spray to control American cockroaches. Apply between 3.5 and 106 fl. oz. of concentrate as required to cover 1,000 sq. ft. of surface.
USE IN AUTOMATIC MISTING SYSTEMS: In areas such as animal quarters, horse barns, dairy and beef barns, poultry houses, swine housing, warehouses, zoos and other listed livestock or animal housing areas.

Directions For Use In Commercial Animal Premise Automatic Misting Systems:
Not for use in outdoor residential misting systems.
Do not apply this product in barns or stables where animals intended for slaughter or human consumption will be maintained.
Do not apply when food, feed, and/or water is present.
When using this product, installers and service technicians must comply with the license, certification, or registration requirements of the state(s), tribe(s), or local authority(ies) where they are installed.
When applying via a remote activation device, do not apply when people and pets are present. If possible, when applying via automatic timer, set the timing for application when people and pets are unlikely to be present.
Direct nozzles to spray towards the target area and away from areas where people are typically present.
Do not use in an evaporative cooling system.
Do not use in misters located within 3 feet of air vents, air conditioner units, or windows.
Do not apply directly to animals.
If used in a system with a reservoir tank for the end use dilution, the system reservoir tank must be locked. Securely attach the end use pesticide label and a dilution statement to the system reservoir tank in a weather protected area or plastic sleeve. The dilution statement must be phrased as follows: this container holds ___ parts of EverGreen® 100 Synergized ULV Concentrate to ___ parts oil.
If used in a direct injection system, the pesticide container must be locked. Securely attach the end use label to the pesticide container in a weather protected area or plastic sleeve.
This product must only be used in systems that have been calibrated to apply no more than the maximum application rate of 0.0008 lbs. pyrethrins/1,000 ft³ and 0.0033 lbs. piperonyl butoxide / 1,000 ft³ or 0.25-1.25 fluid ounces of EverGreen® 100 Synergized ULV Concentrate per 1,000 cubic feet of space above the animals.

OUTDOOR USE:
Mosquitoes:
SPACE SPRAY: If possible, space spray application should be made in the evening or early morning when mosquitoes are most active. With a ULV spray device, spray at a rate of five (5) fluid ounces of undiluted concentrate per minute up-wind of the area to be controlled. If the equipment is truck mounted, keep the speed to approximately 10 mph with a swath width of 300 feet.
HANDHELD EQUIPMENT: Apply at the rate of 5.0 fl oz. per acre (296 ml/ha). Figure application travel path for coverage of a swath fifty (50) feet (15.24 m) wide. Allow spray drift to penetrate dense foliage. Repeat application as required for control.

House Flies:
OUTDOOR GROUND FOGGING APPLICATION: Use to kill house flies, in open areas near buildings and in campgrounds. Use preferably at a time when temperature is cool 75°F (24°C) or less and the wind velocity is approximately five (5) MPH or less.

Clover Mites, Flies, Mosquitoes, Small Flying Moths and other listed insects
TEMPORARY REDUCTION OF ANNOYANCE from, Clover Mites, Flies, Mosquitoes, Small Flying Moths and other listed insects outdoors. The aforementioned application for outdoor ground application will afford temporary reduction of annoyance from these pests in listed outdoor areas. Direct application into tall grass, shrubbery and around lawns where these pests may hover or rest, apply while air is still. In areas such as zoos, cover water, drinking fountains and animal feed before use. Avoid exposure of reptiles to this product.
