Keep Out of Reach of Children

CAUTION

Precautionary Statements

Hazard to Humans and Domestic Animals

Causes Eye Irritation • Harmful If Inhaled

Avoid contact with eyes or clothing. Avoid breathing dust thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Profuse breathing of dust can cause serious lung damage. Inhale dry air, move to fresh air or administer oxygen, if indicated. Call a physician or poison control center for treatment information.

First Aid

If Inhaled: Hold open eyes and dry for 15 minutes. Remove contact lenses if present, after the first 5 minutes, continue rinsing eyes. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. Do not breathe. Call a physician or an ambulance. Do not give artificial respiration, particularly mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Hot Line Number: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-929-8994 day or night, for emergency treatment information.

Environmental Hazards

This product is toxic to fish and highly toxic to other aquatic organisms including crayfish and shrimp. Use with care when applying to or affecting water or silt. Do not apply. Do not contaminate water when disposing of equipment washwater.

Instructions: Read the entire label. Use only according to label directions. Before using this product, read and follow all directions in this leaflet. Use as directed. Read all directions for use. Do not use on or near water supplies or drainage ditches.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Storage and Disposal

- Do not contaminate water, foodstuffs, feed or seed with storage or disposal.

- Pesticide Storage: Store this product only in its original container in a dry, cool, secure storage area.

- Pesticide Disposal: This pesticide results from the use of one of this product that cannot be reused. This pesticide should not be disposed of in a landfill or for use in any manner other than as directed.

- Container Handling: Nonrefillable container. Do not reuse or refill this container. Offer for recycling. Do not contaminate by water, sediment, or other material. Do not apply directly to water, Channels, or ditches or in a manner that will contact surface water before it is dispersed. Contaminated containers may remain hazardous after treatment. Clean empty containers after use and dispose of properly.

- Use with care. For best results, apply this product within 14 days after planting. Use as directed. Use all directions for use. Use within the labeled number of days after planting, atau waktu yang diperbolehkan.

- Use according to directions for use. Do not contaminate water, foodstuffs, feed or seed with storage or disposal. Do not use on or near water supplies or drainage ditches. Do not use water before crops are to be harvested. Do not contaminate water when disposing of equipment washwater.

- Apply this product only to turfgrass species listed on this label. All turfgrass species are tolerant to this product when applied as directed.

- Use of this product can cause injury to humans, pets, and livestock. Do not use on or near grass, hay, or other forage crops, grass seed stands, lawns, or ornamental plants. Do not use on or near lawns where milk is produced or other livestock is fed. Do not contaminate water when disposing of equipment washwater. Do not contaminate water when disposing of equipment washwater.

- Use this product only on turfgrass species listed on this label. All turfgrass species are tolerant to this product when applied as directed.

- Use of this product can cause injury to humans, pets, and livestock. Do not use on or near grass, hay, or other forage crops, grass seed stands, lawns, or ornamental plants. Do not use on or near lawns where milk is produced or other livestock is fed. Do not contaminate water when disposing of equipment washwater. Do not contaminate water when disposing of equipment washwater.
Control of Crabgrass
Preemergence and Early Postemergence Control

This product provides "preemergence" control of crabgrass in established turfgrasses (including the large,-flowered and little crabgrass species) and "early postemergence" control of crabgrass and certain other grasses such as St. Augustine grass and bermudagrass in the first few weeks of growth. crabgrass and certain other grasses such as St. Augustine grass and bermudagrass at the three-leaf stage in the first few weeks of growth. Crabgrass and certain other grasses such as St. Augustine grass and bermudagrass at the three-leaf stage in the first few weeks of growth. Crabgrass and certain other grasses such as St. Augustine grass and bermudagrass at the three-leaf stage in the first few weeks of growth. Crabgrass and certain other grasses such as St. Augustine grass and bermudagrass at the three-leaf stage in the first few weeks of growth.

Application Frequency and Timing

This product may be applied as a single application, as a split application, or as a sequential application for crabgrass control in the spring, summer, or both as described in the following use programs.

Spring Applications.

For applications made in the spring or early summer, use appropriate application rates corresponding to one or more "zones" in the grass type or season, and then follow the steps outlined in Table 1 for "Program 3" to provide control of crabgrass throughout the early part of the next growing season. Split applications may be made with the rates in Table 1 being split between two applications made 8-10 weeks apart. Where larger periods of control are required, sequential applications may be made in late summer or fall following a spring application or in the fall following a sequential application, provided the minimum application rates per year are not exceeded. Refer to the "Minimum Use Rates" section above and separate rate restrictions for the state of New York.

Fall Applications.

This product can also be applied in late summer through early fall (late August through November) at use rates listed in Table 1 for Program 3 to provide control of crabgrass through the early part of the next growing season. Fall applications of this product may be followed by an appropriately timed application in the following spring for extended control of crabgrass.

Weeds Controlled or Suppressed

Sorrel Applications.

When applied properly (prior to or immediately after control of crabgrass in the spring), this product will also control or suppress the following weeds as rates listed in Table 1 for Program 3.

Full Applications

(b) Split applications may be used 8-10 weeks apart.

Application Instructions and Equipment

This product may be applied with drop or rotary-type sprayers designed to apply granular herbicides. For best results, apply this product evenly and uniformly avoiding streaking, slugs, or patches. Avoid the use of sprayers that tend to apply granules in narrow rows or concentrated bands. Calibrate the sprayer according to the manufacturer’s directions. Initial sprayer settings may require adjustment to deliver the recommended application rate under actual application conditions. The desired calibration setting may be marked or recorded for future reference. Apply this product within the treatment time zone. To ensure uniformity of application can usually be achieved by applying one-half of the required amount of product over the treatment area and then applying the remaining one-half in a different direction (e.g., a right angle to the previous direction). Avoid spraying, slugs, or patches during application. Check equipment frequently to verify calibration and proper functioning.

Tiers and Conditions of Use

If terms of the following Warranty Disclaimer, Inherent Risks of Use, and Limitations of Remedies are not acceptable, return unopened package to the seller for a full refund of purchase price paid. To the extent permitted by law, Seller MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use

The Seller warrants that this product conforms to the chemical description on the label in every respect. If for any reason this product fails to do so, it shall be at the sole risk of the buyer. To the extent permitted by law, Seller MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY. It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including condition noted on the label, such as unsuitable temperatures, soil conditions, etc.), adverse conditions (such as extreme drought, high temperatures, excessive pest pressure, or other natural causes), or the manner of application, or other factors, all of which are beyond the control of Seller. To the extent permitted by law, all such risks shall be assumed by Buyer.

Limitation of Remedies

To the extent permitted by law, the exclusive remedy for losses or damages resulting from the product (including claims based on contract, negligence, strict liability, or other legal theories) shall be limited to, at Seller’s election, one of the following:

1. Refund of purchase price paid by buyer or user for product bought, or
2. Replacement of amount of product used.

To the extent permitted by law, Seller shall not be liable for breach of warranty or damages resulting from handling or use of this product unless Seller is promptly notified of such damage or defect in writing. To the extent permitted by law, in no case shall Seller be liable for consequential or INCIDENTAL DAMAGES or LIABILITIES.

The Warranties of the Defendant, Risk of Use, and Limitations of Remedies cannot be waived by any written or verbal statements or agreements. No employees or agents of the Seller or its seller is authorized to vary or extend the terms of the Warranty Disclaimer or the Limitations of Remedies in any manner.

For purposes of this warranty, "defective product" is defined as an article, part, or component of the product which is not substantially equivalent to any article, part, or component of the product which was sold in the commercial market in the same manner (including, but not limited to, the same condition (including condition noted on the label, such as unsuitable temperatures, soil conditions, etc.), and the manner of application, or other factors, all of which are beyond the control of Seller. To the extent permitted by law, all such risks shall be assumed by Buyer.
