**FIRST AID**

IF ON SKIN OR CLOTHING: • Take off contaminated clothing.

• Rinse skin immediately with plenty of water for 15-20 minutes.

• Call a poison control center or doctor for treatment advice.

HAVE THE PRODUCT CONTAINER OR LABEL WITH YOU WHEN CALLING A POISON CONTROL CENTER OR DOCTOR.

**PRECAUTIONARY STATEMENTS**

Hazard to humans & domestic animals

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt and long pants, socks, shoes, and gloves. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not apply directly to water. Do not allow pesticide to enter or runoff into storm drains, irrigation ditches, gutters, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Do not apply to aquatic areas or drainage ditches near streets, sewers, sloughs, or ponds. Apply this product only to treated areas where it is needed. This product is highly toxic to birds. Do not use in or near areas where birds are known to be present.

**PHYSICAL OR CHEMICAL HAZARDS**

Contains strong pressure. Avoid exposure or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT RISTLES.

Use Restrictions

• Avoid contamination of food.

• Do not use in food areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in areas where food is prepared, kept, or sold, such as dining rooms, but excluding areas where foods may be prepared or held. Do not apply when food is present.

• Do not apply to windows, doors, or other areas where food may be contaminated. Do all food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use.

• Do not apply to food pet areas when food is present.

• Do not water the treated area to the point of runoff.

• Do not make applications during rain.

• Remove pets and birds and cover fish aquariums and ornamental fish ponds before spraying and turn aquarium systems off.

• Do not apply people or pets to treated areas until vapors, mists, and aerosols have dispersed and the treated area has been thoroughly ventilated.

• Do not enter or allow others to enter the treated area until the vapors have dissipated.

• Wait two (2) hours after application, then open windows, vents, and doors for two hours. If an odor is still detected, additional ventilation is required.

• Do not apply in a way that will contact adults, children, or pets, either directly or through drift.

• All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

  - Treatment to soil or vegetation around structures;

  - Applications to lawns, turf, and other vegetation;

  - Applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

**OUTDOORS**

Spray area infested with the below-listed flying insects. Hold container 18-24 inches from shrubs, bushes, and grasy areas. Spray these areas at a slow sweeping motion at a rate of 1.5-3 seconds per cubic yard of space while moving away from the treated area. To reduce annoyance from pests, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area.

**GENERAL**

When sprayed directly on insects, this spray will kill listed insects (Eastern Tent Caterpillars, Aphids, Cankerworms, Leahtoppers, White Flies, Spider Mites, Japanese Beetles, Meal Bugs, Ants, Caterpillars, and Box Elder Bugs) on Ornamental Cherries, Stinka, Rose, Crape Myrtle, Ornamental Crabapples, Azaleas, Chrysanthemum, Gardiner's Purple Passion Vines, Peonies, Shrubs, and Asters. Take care when spraying tender growth on young plants.

**WHEN SPRAYING, HOLD CAN 18-24 INCHES FROM PLANT**

For best results, stalk is on the evening or on a cloudy day with light mist the plants, using a slow sweeping motion. Avoid wetting foliage with spray. Spray runs at a rate of 1 foot per second. For heavy growth, spray both sides of row. Do not spray when temperature exceeds 90°F.

**INDOORS**

To kill flies, gnats, mosquitoes, and other small flying insects, spray all dime and windows and direct spray upward into center of room, using a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed to 15 minutes after spraying. Sweep up and discard fallen insects. Cover exposed food and utensils before spraying.

**TO KILL FLIES AND TICKS IN PET BEDDING AND PET AREAS**

Remove and destroy pet's old bedding. To reduce infestation, thoroughly spray the animal bedroom, sleeping quarters, area under bedsheets, window and door frames, wall cracks, local areas of room, and other resting places until the surface is slightly moist. Treat these areas at the rate of 2 seconds per linear foot at a distance of 12-18 inches. Also, spray the entire inside surface of cupboards. Put fresh bedding in pet's quarters after spray is dry. DO NOT SPRAY ANIMALS. Also treat dogs and cats with a registered flea and tick control product before allowing them to reenter treated area.

**TO TREAT FLEA AND TICK INFESTATION IN RUGS AND CARPETS**

Spray rugs and carpets where fleas tend to hide. If used on light-colored or delicate upholstery fabrics, test for potential staining. If not stained, thoroughly spray into hiding places such as in carpets and crevices in walls and floors, along baseboards, and windows and doors for fleas. Spray at the rate of 1 square foot per second.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling

Do Not Puncture or Incinerate Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.
