Total: 100.0%

KEEP OUT OF REACH OF CHILDREN.

CAUTION

EPA Reg. No. 100-1434

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. Before using Medallion® WDG as permitted according to this Supplemental Labeling, read and follow all applicable directions, restrictions, and precautions on the EPA-registered label on or attached to the pesticide product container. This Supplemental Labeling contains revised use instructions and/or restrictions that may be different from those that appear on the container label. This Supplemental Labeling must be in the possession of the user at the time of pesticide application. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
DIRECTIONS FOR USE

For Commercial Use in Ornamental Bulb and Corm Dips: Use Medallion WDG for control of basal rot (*Fusarium* spp.) on ornamental bulbs and corms.

Dip clean bulbs or corms into tanks containing 8 oz Medallion WDG per 100 gallons of water. Place bulbs in a dipping tray or nylon bag for dipping. Tanks should be agitated to suspend Medallion WDG in water and ensure uniform coverage. Soak bulbs or corms at least 20 minutes and air dry prior to storage. Replace liquid in tanks at rate of 0.8 oz Medallion WDG per 10 gallons of water.

Post-harvest dipping of bulbs from freshly dug plant material: Clean and treat bulbs within 24-48 hours of digging. Follow instructions above for preparing dip mixture, dipping and drying of bulbs.

Pre-plant dipping of bulbs prior to planting into fields or bulbs used in containers: Start with clean, dry bulbs. Follow instructions above for preparing dip mixture, dipping and drying of bulbs.
