CONTAINS GLYPHOSATE

HDX

Weed and Grass Killer
Ready-to-Use

- Rainproof, won’t wash away
- Use in and around fences, driveways, walkways, shrubs, trees and mulch beds

ACTIVE INGREDIENTS:
Glyphosate, isopropylamine salt* ................ 0.95%
Pelargonic acid and related fatty acids .. 1.00%

OTHER INGREDIENTS .................................. 98.04%

TOTAL .................................................. 100.00%
*Contains 0.06 lbs. glyphosate acid equivalent per US gallon.

KEEP OUT OF REACH OF CHILDREN
CAUTION:
See back booklet for additional precautionary statements.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Rotate nozzle to closed position. Always store pesticides in the original container. Store in a safe place away from food and pet food. Keep from freezing. If frozen, allow to thaw and shake well before using.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. If Empty: Place in trash or offer for recycling, if available. If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
KEEP OUT OF REACH OF CHILDREN

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.

People and pets may enter treated areas after spray has dried.

FIRST AID

IF IN EYES

• Hold eye open and rinse slowly and gently with water for 15-20 minutes
• Remove contact lenses, if present, after first 5 minutes, then continue rinsing eyes
• Call a poison control center or doctor for treatment advice

EMERGENCY MEDICAL INFORMATION

• Have the product container or label with you when calling a poison control center or doctor, or going for treatment
• You may contact 1-866-324-9201 for emergency medical treatment information
• This product is identified as HDX Weed and Grass Killer Ready-to-Use, EPA Reg. No. 71995-8-73327

ENVIRONMENTAL HAZARDS
To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

HOW IT WORKS
This product is a fast-acting, ready-to-use weed killer and is pre-mixed and pre-measured. This product starts working in 24 hours. It will kill almost all annual and perennial weeds, grasses and other unwanted plants. Kills tough weeds in 1 to 2 weeks—roots and all. Use in and around flower beds, trees and shrubs, fences, walks, driveways, patios, sidewalks and mulch. Will not build up in the soil to hurt desirable plants growing nearby.

CONTROLS WEEDS AND GRASSES INCLUDING:
General Weed Control (Annuals)
- Annual Bluegrass
- Annual Ryegrass
- Barnyardgrass
- Beggartweed
- Black Medic
- Blue Mustard
- Blue Veldtgrass
- Bluegrass
- Bur Clover
- Buttercup
- Chickweed
- Common Groundsel
- Common Plantain
- Crabgrass
- Creeping Bentgrass
- Creeping Charlie
- Curly Dock
- Dallisgrass
- Dewberry
- Elderberry
- False Dandelion
- Feathertop
- Field Bindweed (Wild Morning Glory)
- Guineagrass
- Hairy Cats尾巴
- Horsetail
- Indian Grass
- Johnsonsgrass
- Kentucky Bluegrass
- Kikuyugrass
- Knotweed
- Kozi
- Lambsquarters
- Little Butter Grass
- London Rocket
- Maiden Cane
- Mallow

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Always read and follow label directions.

HOW TO USE:
1. Turn sprayer nozzle to open.
2. Adjust sprayer nozzle as desired.
3. Hold 8 to 10 inches from the surface to be sprayed.
4. Spray weeds until foliage is wet.

WHEN TO APPLY
Use any time weeds and grasses are actively growing. For best results, apply on a warm sunny day when daytime temperatures are above 60°F and no rainfall is forecasted for 24 hours. Apply only when the air is calm to prevent drift to desirable plants. Warm, sunny weather will speed up weed control. Reapply if it rains within 2 hours of application. Hard-to-control weeds may require a repeat application. Do not use for spot weed control in lawns since glyphosate kills all green plants, including lawn grasses.

IMPORTANT: This product is an all-purpose weed and grass killer, which will kill almost all plants contacted. Spray carefully when air is calm to prevent spray or drift onto desirable plants, lawn grasses, shrubs or trees. Spray to evenly wet the weeds. If necessary, use cardboard or plastic to shield desirable plants. If plants are accidentally sprayed, rinse off immediately with water.

WHERE TO APPLY
GENERAL WEED CONTROL: Use along fences, paths, patios, sidewalks and driveways, around trees, shrubs, and ornamental plantings and flower beds, around buildings, and in brick and gravel walkways. Use to trim and edge landscape areas. DO NOT use for spot weed control in lawns since glyphosate kills all green plants, including lawn grasses.

FLOWER BED AND GARDEN PLANT PREPARATION: Use this product to kill weeds, grasses and brush before planting flowers, fruits, vegetables or herbs. If soil is dry, water before application and 2 to 3 days after application. Apply evenly over treatment area. Wait 1 to 3 days after last application before planting flowers, trees and shrubs. See WHEN TO REAPPLY section for details.

SPOT SPRAYING: Use on actively growing weeds in and around flower beds, ornamental trees, fruit and nut trees, grapevines, shrubs, fences, driveways and walkways. Spray when air is calm. Make sure this product does not contact the leaves, green stems, or exposed roots of plants you don't want to kill. If necessary use cardboard or plastic to shield plants. This product will not move in or on to the soil to untreated plants.

LANDSCAPING: Use to prepare areas for planting of ornamentals, trees, shrubs, desert landscapes, rock gardens, flower beds or similar plantings. Treated areas can be replanted 1 day after treatment.
