CAUTION: Must be washed or soaked through before use. Causes moderate eye irritation. Avoid contact with eyes, also, in clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

CAUTION: Cholinesterase inhibitor. Cholinergic symptoms may include salivation, miosis, lacrimation, and excessive perspiration. Avoid contact with eyes, skin, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

ACTIVATION: As the collar begins to work, a fine white powder will appear on the surface. Remove collar from package, unroll and stretch to activate.

REMOVAL: Remove the collar from the dog and launder or dispose of collar immediately.

DIRECTIONS FOR USE: Put the product around the collar, just under the neck strap. If the collar is too tight, remove the collar and wait 24-48 hours before putting it back on.

CAUTION: This collar is intended for use only as an insecticide generator. It is not a pesticide product. Do not contaminate water, food or feed by storage and disposal. Do not contaminate water, food or feed by storage and disposal.

HARMFUL IF SWALLOWED: Call a Poison Control Center or doctor immediately for emergency medical treatment information.

WATER RESISTANT: In the event of the collar being wet, the collar will be effective. The collar's effectiveness will not be impaired by swimming, bathing, or rain. The collar can be washed, dried, and replaced for use.

STORAGE AND DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Store in a cool, dry place that is inaccessible to children.

DO NOT CONTAMinate WATer, food or feed by storage and disposal. Pesticide DRugs, pesticides, or chemicals. However, flea and tick collars may be immediately refilled if used before the collar's expiration date.

Note to Physicians and Veterinarians:

For emergency medical treatment information, call 800-234-2269 or 219-936-0699, or go to the nearest hospital. If possible, remove any collar and wash your pet with a mild detergent and water. If irritation or skin damage continues, call your veterinarian.

See Back Panel for Additional Precautionary Statements.
