DIRECTIONS FOR USE for Starbar® Fly Terminator® Pro Fly Trap, Starbar® Captivator® Fly Trap, Starbar® Trap 'N Toss™ Disposable Fly Trap, or other gallon/half-gallon reusable fly traps.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Bait and use trap outdoors.
2. Tear open packet containing fly attractant. (Diagram A)
3. Place (both-for Fly Terminator® Pro Fly Trap) water-soluble attractant pouch(es) into trap. Do not open the inside pouch, it will dissolve in water. (For Fly Terminator® Pro gallon-sized traps) - Add one-half gallon of clean water to fill line to activate the attractant. (for Captivator® Fly Trap half-gallon-sized traps) Add one quart of clean water to fill line to activate the attractant. (Diagram B)
4. Securely replace top of trap. Be sure center baffle assembly is snapped into the open position. (Diagram C)
5. Agitate lightly to disperse attractant. (Diagram D)
6. Hang trap outside from handle or tab on top of jug or place trap on ground in a sunlit area of high fly concentration when flies are active and where odors will not be a problem. (Diagram E) For best results, place trap within four feet of the ground. In hot weather (above 90° F), place trap in shade for better results, in cooler weather, place trap in sun.
7. Agitate trap contents occasionally to thoroughly wet trapped flies. Add water to the trap as necessary to maintain the fluid level. Rebait trap when full of flies, or when trap contents dry out.
8. Wash hands with soap and water after handling.
9. Trap may be rinsed and refilled with replacement Starbar® Fly Trap Attractant.

STORAGE AND DISPOSAL

**STORAGE:** Store in a cool, dry, well-ventilated location out of reach of pets and livestock. **DISPOSAL:** Deposit in trash.
FOR USE in Starbar® Trap ’N Toss™ Disposable Fly Traps

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Bait and use trap outdoors.
2. Remove attractant assembly from inside of trap cone. (Diagram A)
3. While holding trap upside down, tear open outside attractant packet. (Diagram B)
4. Drop water-soluble attractant pouch into trap. Handle with dry hands or use gloves. Do not open the inside pouch, it will dissolve in water. Add 16 fluid ounces of clean water up to fill line to activate attractant. (Diagram C)
5. Agitate lightly to disperse attractant. (Diagram D)
6. Slowly turn trap right side up, and hang or set on a flat surface outside in a sunlit area of high fly concentration when flies are active and where odors will not be a problem. (Diagram E) For best results, place trap within four feet of the ground. In hot weather (above 90° F), place trap in shade for better results, in cooler weather, place trap in full sun.
7. If placed on ground, be sure that at least ¼ inch of space is available between the trap body and ground so flies can enter.
8. Replace trap when full of flies, or when trap contents dry out.
9. Wash hands with soap and water after handling.

NOTE: Not for indoor use, nor for use against biting flies. Contents may give off bad odor; keep contents from coming in contact with hands or clothing.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry, well-ventilated location out of reach of pets and livestock. DISPOSAL: Deposit in trash.
