CHLORINATE

KEEP OUT OF REACH OF CHILDREN

Other Ingredients
Sodium Dichloro-s-Triazinetrione Hydrated: .... 99%
Active Ingredient:
Available Chlorine: .......... 55.5%

NET CONTENTS: 25 LBS.

SANITIZER
MULTI-FUNCTIONAL
WHY TO USE
• 3-in-1 sanitizer, algaecide and shock
• For use in all pool types
• Kills bacteria and controls algae
• Eliminates chlorine odor
• Not blended (no fillers)

DANGER
Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spray mist. Wear protective clothing, gloves and eye protection. Avoid any contact with flaming or burning material such as a lighted cigarette. Do not use this product in any manner not as labeled. Do not store near other chemicals. Use only as directed.

For WHITE PLASTER POOLS, broadcast this product around the pool ladder steps and around the skimmer and lights. For swimming pool algae: broadcast this product directly into the deep end of the pool with the pool ladder closed. For swimming pool shock: broadcast this product directly into the deep end of the pool as an initial treatment. Repeat additions until a residual of 1-3 ppm chlorine is established as determined by the pool’s test kit. Use two pounds per 10,000 gallons for medium to heavy algae growth and one pound per 10,000 gallons for light algae growth. To prevent possible damage to pool surface, use a pool brush to disperse any granules that may have settled to the pool with the pump running.

PESTICIDE HANDLING:
Store in a dry, cool and well-ventilated area. Avoid moisture getting into container. Keep off wet floors. In case of spillage, wash with large amounts of water. After each use, keep container tightly closed. Oxidizing material. Keep away from food, feed, and water sources. Keep away from children.

PESTICIDE DISPOSAL:
Do not contaminate water, food, or feed by storage and disposal. Do not contaminate water, food, or feed by storage and disposal. Do not contaminate water, food, or feed by storage and disposal. Do not contaminate water, food, or feed by storage and disposal. Do not contaminate water, food, or feed by storage and disposal.

DANGER
KEEP OUT OF REACH OF CHILDREN

Available Chlorine: 

Other Ingredients
Sodium Dichloro-s-Triazinetrione Hydrated

Total: ............................................... 100%

NET CONTENTS: 25 LBS.

MULTI-FUNCTIONAL
• 3-in-1 sanitizer, algaecide and shock
• For use in all pool types
• Not blended (no fillers)
• Eliminates chlorine odor
• Kills bacteria and controls algae

FOR SWIMMING POOL DISINFECTANT:
NOTE: When used as directed, this product kills algae and will rid your pool of unsightly algae spots. This product is ideal for use in vinyl lined, fiberglass or colored plaster surface pools. Ensure all pool equipment is working properly.

FOR SWIMMING POOL CHLORINATION:
• Broadcast one pound of this product per 10,000 gallons directly into the water in the deep end of the pool. To prevent damage to pool surface, use a pool brush to disperse any granules that may have settled to the bottom.
• When used as directed, this product kills algae and will rid your pool of unsightly algae spots. This product is ideal for use in vinyl lined, fiberglass or colored plaster surface pools. Ensure all pool equipment is working properly.

FOR SWIMMING POOL SUPERCHLORINATION:
• Broadcast one pound of this product per 10,000 gallons directly into the water in the deep end of the pool as an initial treatment. Repeat additions until a residual of 1-3 ppm chlorine is established as determined by the pool operator.

FOR SWIMMING POOL OXIDATION:
• Broadcast one pound of this product per 10,000 gallons directly into the water in the deep end of the pool as an initial treatment. Repeat additions until a residual of 3-5 ppm chlorine is established as determined by the pool operator.

FOR SWIMMING POOL WATER BALANCING:
• Check the water for metals and if present, add the appropriate product to remove metals from the water. Maintain the pH of the water at 7.2-7.6.
• When using other products as outlined in the directions for this product, always follow directions on those products. With pump running, broadcast 4 ounces of this product per 10,000 gallons directly into the water in the deep end of the pool.

STORAGE AND DISPOSAL
• It is the responsibility of the customer to review this proof for any possible errors or revisions pertaining to this job.
• See side panels for additional information.
