NoMate® LRX Spiral is a pheromone communication disruptant for control of obliquebanded and Pandemis leafrollers

Active Ingredients:
- Z-11-Tetradecen-yl Acetate .................................. 9.00%
- Other Ingredients ........................................... 91.00%
- Total ......................................................... 100.00%

CAUTION
KEEP OUT OF REACH OF CHILDREN

FIRST AID

IF ON SKIN OR CLOTHING
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF IN EYES
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses if present after the first 5 minutes then continue rinsing.
- Call a poison control center or doctor for treatment advice.

IF INHALED
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

IF SWALLOWED
- Call the poison control center or doctor immediately for treatment advice.
- Have the person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

HOTLINE NUMBER
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact the National Pesticide Information Center (NPIC) at 1-800-858-7378 for emergency treatment.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
Caution: Harmful if absorbed through skin, inhaled, or swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Avoid breathing vapor. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tabacco or using the toilet. Remove contaminated clothing and wash before reuse. Wear the appropriate Personal Protective Equipment (PPE).

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers must wear:
- Wear long sleeved shirt, and long pants
- Chemical resistant gloves
- Protective eyewear
- Shoes and socks

Follow the manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. Wash gloves with detergent and hot water before removing. Keep gloves separate from other apparel.
ENVIRONMENTAL HAZARDS
For terrestrial uses: Do not apply directly to water, areas where surface water is present, or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

METHOD OF APPLICATION
NoMate® LRX Spiral is applied directly by wrapping the spiral around the stems or branches. Open the container just prior to application. Apply the product to the upper 1/3 portion of the canopy whenever possible. Also, the spirals should be placed at least 1 to 2 feet within the radius of the canopy. For maximum effectiveness, it may be necessary to increase the density of dispenser placement around the orchard perimeter.

Unpackage and use only the amount of spirals to be used immediately. Reseal partially used bags and return them to cold storage while awaiting later use.

TIMING OF APPLICATION
1. Monitor, using Scentry® “Wing Style” or “Large Plastic Delta Style” traps and Scentry® LRX pheromone lures to determine the time of application. Trap placement should begin early March/April to determine first flight and should continue throughout the season to help assess treatment effectiveness. Change lures every 3 to 4 weeks.
2. Make the first application of NoMate® LRX within 2 to 4 days after the first male moth is captured in a trap (biofix). Prediction Degree Day Models can provide assistance in determining application timing. Model information and economic thresholds that may vary according to geographical regions are available from your county Farm Advisor.
3. Second and any subsequent application should be timed such that the new application is made before the effect of the previous application significantly diminishes. Leafroller life cycle models, diligent trapping and field checking are all important considerations in the proper timing of an additional spiral application. Check orchards soon after inclement weather to determine if another application is needed.

INSTRUCTIONS FOR USE
NoMate® LRX Spiral is applied directly by wrapping the spiral around the stems or branches. Open the container just prior to application. Apply the Spirals should be placed at least 1 to 2 feet within the radius of the canopy. For maximum effectiveness, it may be necessary to increase the density of dispenser placement around the orchard perimeter.

User safety recommendations
• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
• Remove clothing/PPE immediately if pesticide gets inside, then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product.
• Wash the outside of gloves before removing as soon as possible.

Storage and disposal
Do not contaminate water, food or feed through storage or disposal. Pesticide Storage: Store in a cool place until used. Prolonged storage should be at or less than 45º F (8º C). Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility. Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by fuming. If burned stay out of smoke.

Warranty statement
Scentry Biologicals warrants that this product conforms to the description of this label and is reasonably fit for the purposes stated on this label when used in accordance with directions on this label under normal conditions of use, to the extent consistent with applicable law. If this product is defective, Buyer’s exclusive remedy, as permitted by law, shall be the replacement of the product, or if replacement is impracticable refund of the purchase price.

Scentry Biologicals makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
