**Power Powder® Plus**

**Shock**

Fast Dissolving Shock Treatment and Superchlorinator for Swimming Pools
- Kills bacteria
- Controls algae
- Restores sparkle and clarity to pool water
- 1 pound treats 16,500 gallons

**Active Ingredient:**
- Total 100%

**Other Ingredients:**
- Calcium Hypochlorite, Hydrated UN2880 RQ

**Precautionary Statements**
- **Hazards to humans and domestic animals:**
  - **Danger:** May be fatal if swallowed. Irritating to nose and respiratory passages. May be fatal if inhaled.
  - **Caution:** May cause skin burns, may cause severe eye damage, severe systemic toxicity.

**Environmental Hazards:**
- **Hazardous to Water:** Toxic to fish and aquatic organisms.

**Domestic Animals:**
- **Danger:** May be fatal if swallowed. Irritating to nose and respiratory passages. May be fatal if inhaled.
- **Caution:** May cause skin burns, severe eye damage, severe systemic toxicity.

**Statement of Identity:**
- Calcium Hypochlorite, Hydrated UN2880 RQ

**Use Directions:**
- **For any application method you choose:** No one can be in the pool when chemicals are being added directly to the pool.

**Storage and Disposal:**
- **Safe Handling:** Nonrefillable container. Keep out of reach of children. Store in a place inaccessible to children.
- **Waste Treatment:** Spray mixture or rinsate is a violation of Federal law. Pesticide disposal, or cleaning of equipment.

**Limited Warranty:**
- The Manufacturer warrants, to the original consumer, compliance with label directions, it will be fit for its intended purpose. The Manufacturer expressly disclaims any warranties, express, statutory, or implied, including but not limited to any implied warranty of merchantability, fitness for a particular purpose or non-infringement of intellectual property.

**Remind:**
- Never add water to product. Always add product to large quantities of water to fully dissolve.

**Telephone Number:**
- 1-304-455-6882

**State of Wisconsin:**
- The Manufacturer warrants, to the original consumer, compliance with label directions, it will be fit for its intended purpose. The Manufacturer expressly disclaims any warranties, express, statutory, or implied, including but not limited to any implied warranty of merchantability, fitness for a particular purpose or non-infringement of intellectual property.

**Pesticide:**
- **Hazard:** May be fatal if swallowed. Irritating to nose and respiratory passages. May be fatal if inhaled.

**POISON CONTROL CENTER:**
- Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or emergency medical treatment information. Have the product container or label when calling a poison control center or doctor. Call 911 or an ambulance, then give artificial respiration, preferably by mouth.

**FIRST AID:**
- **For ingestion:** Do not induce vomiting unless told to do so by the poison control center or doctor. Call a poison control center or doctor for further treatment advice. Have person sip a glass of water if able to swallow. Call a poison control center or doctor if person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth. Move person to fresh air. If person is not breathing, call a poison control center or doctor, or emergency medical treatment information. Have the product container or label with you when calling a poison control center or doctor. Call 911 or an ambulance, then give artificial respiration, preferably by mouth.

**Shock Treatment/Superchlorination:**
- **DANGER:** May start a chemical reaction with generation of heat, violent reaction leading to fire or explosion. Always add this product into the pool downward so that it is between 7.2 to 7.4. This will help prevent shock reactions. For best results, test your pool water prior to addition of this product. If your pH measures 7.4 or higher, adjust it downward so that it is between 7.2 to 7.4 prior to shocking or superchlorination. **Caution:** May cause severe reaction leading to fire or explosion. Never add water to product. Always add product to large quantities of water to fully dissolve. Never add this product into the pool while the filter running during application and for at least 6 to 8 hours after the filter is turned off. **Caution:** May cause severe reaction leading to fire or explosion. Never add water to product. Always add product to large quantities of water to fully dissolve. **Caution:** May cause severe reaction leading to fire or explosion. Never add water to product. Always add product to large quantities of water to fully dissolve. **Caution:** May cause severe reaction leading to fire or explosion. Never add water to product. Always add product to large quantities of water to fully dissolve. **Caution:** May cause severe reaction leading to fire or explosion. Never add water to product. Always add product to large quantities of water to fully dissolve.

**Stability & Reactivity:**
- **Unstable chemicals and other pool chemicals), petroleum or other easily combustible materials or oxidizing agent! Mix only with water. Do not mix with other chemicals, including any chemicals of any kind. Mixing with other chemicals could cause violent reaction leading to fire or explosion.**

**Compatibility:**
- **Not for use:** With any other product or pool chemical. Such use may cause violent reaction leading to fire or explosion. Always add this product into the pool downward so that it is between 7.2 to 7.4. This will help prevent shock reactions. For best results, test your pool water prior to addition of this product. If your pH measures 7.4 or higher, adjust it downward so that it is between 7.2 to 7.4 prior to shocking or superchlorination.
POWER POWDER PLUS

Fast Dissolving Shock Treatment and Superchlorinator for Swimming Pools

• Kills bacteria • Controls algae • Restores sparkle and clarity to pool water • 1 pound treats 16,500 gallons

Active Ingredient:
Calcium Hypochlorite 73%

Other Ingredients:
27%

Total 100%

Minimum 70% Available Chlorine

Keep Out of Reach of Children

DANGER
Do not mix with any other chemicals, including any other pool chemicals of any kind. Mixing with other chemicals could cause a fire or explosion. Always add product to large quantities of water to fully dissolve product. Do not pour water into product, always add product to water. See additional precautionary statements on back label.

PMS Colors: Reflex Blue - 109 C - 199 C
DIRECTIONS FOR USE:

This pesticide is toxic to fish and aquatic organisms. Keep out of reach of Children. Danger: Highly Corrosive. Causes irreversible eye damage and death. Do not mix with or pour into swimming pool water. This product is not to be used in public swimming pools. Use only as directed in label instructions. Read all label instructions carefully before use. Avoid contact with eyes, mouth, and skin. Avoid breathing dust. Wear goggles or face shield and rubber gloves when handling. Never add water to product. Always add product to large quantities of water to fully dissolve. Never add water into product. Do not mix with any other chemicals, including any other pool chemicals of any kind, such as other disinfection or “shock” pool products. Always add product when water temperatures are above 80°F and once every two weeks in residential pools receiving normal usage. Maintain operation of your pump and filter. Treatment should be done at night or during a period when the pool is not in use. Shock Treatment Superchlorination: Adjust pH between 7.2-7.4 prior to shocking or superchlorination. Add this product at a rate of 1 oz per 1,000 gallons of pool water. When using this product, it is recommended that the filter be run for at least 1-2 hours before using the pool.

STORAGE AND DISPOSAL:

The unopened container should be disposed of in a sanitary landfill. Do not pour any chemical into the public swimming pool or into any water supply. Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse or pressure rinse container. Flood with large volumes of water. Isolate the container in an open area away from heat or open flame. For disposal, contact the local EPA Regional Office for guidance. If these wastes cannot be disposed of by use according to label instructions, amount of water to dissolve all materials before discarding the container. Pesticide Disposal: Never mix with or pour into swimming pool water containing remnants of any other product or pool chemical. Add this product at a rate of 1 oz per 1,000 gallons of pool water. When using this product, it is recommended that the filter be run for at least 1-2 hours before using the pool.

PRECAUTIONARY STATEMENTS

HANDLING AND DOMESTIC ANIMALS

WARNING:

The Pond Chemicals are to be used for the maintenance and treatment of outdoor swimming pools only. Use in any other aquatic environments is not recommended. For industrial or commercial use, please contact the manufacturer.

INDUSTRIAL USERS: Contact Leslie's Poolmart, Inc. at 1-800-4-Leslie (1-800-453-7463) for general use of this chemical on a large scale. If you wish to purchase in bulk quantities, please contact your local retailer for availability.

It is the responsibility of the user to ensure the safe use and handling of this product. The user shall take all necessary precautions to prevent any adverse health or environmental consequences. It is the user's responsibility to follow all instructions and warnings provided by Leslie's Poolmart, Inc. and any other governing authorities.

STATEMENTS

PRECAUTIONARY STATEMENTS

KEEP OUT OF REACH OF CHILDREN

DANGEROUS MATERIALS:

This product contains calcium hypochlorite, hydrate UN2860 RQ, which is a hazardous material. It is important to follow all safety precautions and handling instructions provided by Leslie's Poolmart, Inc. Failure to do so may result in injury or property damage.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

This product is not intended for use with aquatic animals. It is recommended to consult with a veterinarian before using this product near aquatic animals. In case of accidental exposure, call your local animal control or local veterinarian.

INHALATION:

If inhaled, move the person to fresh air. If breathing is difficult, call your local poison control center or doctor immediately. Avoid breathing the dust or spray generated during use. Use proper respiratory protection when handling this product. Do not allow children to play with or around this product.

INGESTION:

If swallowed, do not induce vomiting. Give at least 1 gallon of water. If the symptoms of ingestion persist, call your local poison control center or doctor immediately. Avoid getting this product on the skin or in the eyes. Wash your hands thoroughly with soap and water after handling this product.

SKIN:

Avoid contact with skin, eyes, and clothing. Wash contaminated clothing and shoes before reuse. Use gloves when handling this product. Wash thoroughly with soap and water after contact with skin. If skin irritation occurs, call your local poison control center or doctor immediately.

EYE:

If in the eyes, rinse immediately with plenty of water for at least 15 minutes. If irritation persists, call your local poison control center or doctor immediately. Avoid getting this product in the eyes. Use proper eye protection when handling this product.

HAZARDOUS WASTES:

This product is a hazardous waste and should be disposed of properly. Consult with local authorities for proper disposal methods. Do not dispose of this product in drains or other water bodies. Do not mix this product with other chemicals or products.

Safe storage:

Store this product in a cool, dry place away from children and pets. Keep out of direct sunlight. Keep away from food, feed, and other consumables. Do not use or store this product in the vicinity of food, feed, or other consumables.

STORAGE AND DISPOSAL:

Dangerous and hazardous materials must be disposed of properly. Consult with local authorities for proper disposal methods. Do not dispose of this product in drains or other water bodies. Do not mix with other chemicals or products. Keep out of reach of children.

LEND AND DISPOSAL:

This product contains hazardous materials and must be disposed of properly. Consult with local authorities for proper disposal methods. Do not dispose of this product in drains or other water bodies. Do not mix with other chemicals or products. Keep out of reach of children.

STORAGE:

Store this product in a cool, dry place away from children and pets. Keep out of direct sunlight. Keep away from food, feed, and other consumables.

Do not store this product in the vicinity of food, feed, or other consumables.

HANDLE WITH CARE:

This product contains hazardous materials and must be handled with care. Follow all safety precautions and handling instructions provided by Leslie's Poolmart, Inc. Failure to do so may result in injury or property damage.

SUFFOCATION HAZARD:

This product contains a chemical that may cause suffocation if inhaled. Avoid breathing the dust or spray generated during use. Use proper respiratory protection when handling this product.

COMMENTS:

This product is designed for use in outdoor swimming pools only. It is not recommended for use in indoor swimming pools or other aquatic environments. It is important to follow all instructions and warnings provided by Leslie's Poolmart, Inc. Failure to do so may result in injury or property damage.

IN CASE OF ACCIDENT:

If an accident occurs, call your local poison control center or doctor immediately. Avoid breathing the dust or spray generated during use. Use proper respiratory protection when handling this product. Do not allow children to play with or around this product.

INSTRUCTIONS FOR USE:

Follow all instructions and warnings provided by Leslie's Poolmart, Inc. Failure to do so may result in injury or property damage. Use this product in a manner consistent with its labeling. Do not use this product in a manner inconsistent with its labeling.

Never add this product to any dispensing device containing other chemicals (including, but not limited to cleaning treatments with this product, continue to maintain the parameters in the ranges noted below.

Shock Treatment/Superchlorination:

To do this, use Shock Treatment/Superchlorination: Add this product to the pool according to the instructions provided by Leslie's Poolmart, Inc. If your pH measures 7.4 or higher, adjust it to 7.2 and 7.4 prior to shocking or superchlorination. Add this product to the pool at night or during a period when the pool is not in use. This will help prevent the build-up of noxious odors, irritating water, and unsightly wastes, such as perspiration, ammonia compounds, and body wastes, such as perspiration, ammonia compounds, and body.

Keep Out of Reach of Children

DANGER
Do not mix with any other chemicals, including any other pool chemicals of any kind. Mixing with other chemicals could cause a fire or explosion. Always add product to large quantities of water to fully dissolve product. Do not pour water into product, always add product to water. See additional precautionary statements on back label.

First Aid
CONTACT 1-304-455-6882 or your poison control center for 24-hour emergency medical treatment information. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If In Eyes:
Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing:
Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Swallowed:
Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled:
Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN:
Probable mucosal damage may contraindicate the use of gastric lavage.
**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

DANGER: Highly Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Wear goggles, face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or going to the toilet. Remove and wash contaminated clothing and shoes before reuse. May be fatal if swallowed. Avoid inhaling irritating fumes. Avoid exposure to nose and throat. Avoid breathing dust.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

**PHYSICAL AND CHEMICAL HAZARDS:** Strong oxidizing agent! Mix only with water. Do not mix this product with any other chemicals, including any other pool chemicals of any kind, such as other disinfection or "shock" pool products. Always add product to large quantities of water to dissolve product. Do not pour water into product. Do not add this product to any dispersing device containing remnants of any other product or pool chemical. Such use may cause violent reaction leading to fire or explosion. Contamination with moisture, acids, organic matter, other chemicals (including, but not limited to, cleaning chemicals and other pool chemicals), petroleum or packaging materials or other easily combustible materials may start a fire or support combustion with generation of heat, liberation of hazardous gases and possible violent reaction leading to fire or explosion. If product becomes contaminated or decomposes do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary, to fully dissolve product.

**USE ENTIRE BAG IN ONE APPLICATION**

**DIRECTIONS FOR USE:** It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**SWIMMING POOL USE:** Pool water is subject to a build-up of a wide variety of organic contaminants including swimmer wastes, such as perspiration, amino acids, and natural and synthetic oils and lotions. If left untreated, the build-up of these contaminants can lead to the development of noxious odors, irritating water, unsightly water clarity, and may also cause the growth of algae and other organisms, and should be removed from the pool on a regular basis to prevent their build up. This product will effectively reduce organic contamination in swimming pool water resulting in increased water clarity. Pool water is subject to a build-up of a wide variety of organic contaminants including swimmer wastes, such as perspiration, amino acids, and natural and synthetic oils and lotions. If left untreated, the build-up of these contaminants can lead to the development of noxious odors, irritating water, unsightly water clarity, and may also cause the growth of algae and other organisms, and should be removed from the pool on a regular basis to prevent their build up. This product will effectively reduce organic contamination in swimming pool water resulting in increased water clarity.

**HOW TO APPLY TO POOLS:**

**REMINDER:** Never add water to product. Always add product to large quantities of water to fully dissolve. Maintain operation of your pump and filter. Treatment should be done at night or during a period when the pool is not in use. To prevent pool water problems, shock at least once per week during periods of heavy use or when water temperature is above 80°F and once every two weeks in residential pools receiving normal usage. Maintenance operation of the pump and filter. Do not enter the pool until the free chlorine residual has dropped to 4.0 ppm or less as measured using a suitable test kit. Between treatments with this product, continue to maintain the proper water balance and sanitizer level in your pool as recommended on the label of your normal pool sanitizer.

**STORAGE AND DISPOSAL:**

- Do not contaminate food or feed by storage, disposal, or cleaning of equipment.
- PESTICIDE STORAGE: Keep this product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of der莫ption, isolate container (if possible) and flood pool with large area of water to dissolve all materials before discarding this container.
- PESTICIDE DISPOSAL: Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.
- CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse or pressure rinse container (or equivalent) promptly after emptying. Completely empty bag into pool by shaking and tapping sides and bottom to loosen clinging particles. Submerse empty bag in pool to eliminate any residue, then place bag in trash for disposal.

**LIMITED WARRANTY:** The Manufacturer warrants, for a period of 1 year from purchase, that when this Product is stored and used, all in accordance with label directions, it will be fit for its intended purpose. THE MANUFACTURER DISCLAIMS ALL OTHER EXPRESS OR IMPLIED WARRANTIES TO THE EXTENT THIS DISCLAIMER IS PROHIBITED BY APPLICABLE LAW, ANY IMPLIED WARRANTIES ON THIS PRODUCT ARE LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. If this Product fails to conform to this Limited Warranty, the Manufacturer will refund your purchase price or furnish you with replacement product, at Manufacturer’s option. This is the Manufacturer’s sole liability and in no event will Manufacturer be liable for direct, indirect, special, incidental or consequential damages. To make a claim under this Limited Warranty, contact the store/dealership where you purchased this Product. This Limited Warranty gives you specific legal rights, and you may also have other legal rights which vary from state to state.
