First Aid

If in Eyes:
• Hold eye open and rinse slowly and gently with water for 15 to 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye.
• Call a poison control center or doctor for treatment advice.

If Swallowed:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything by mouth to an unconscious person.

If on Skin or Clothing:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of soap and water for 15 to 20 minutes.
• Call a poison control center or doctor for treatment advice.

Have a product container or label with you when calling a poison control center or doctor or going for treatment. In case of emergency, contact Prosar at 1-877-250-9291.

Note to Physician: No specific antidote is available. Treat the patient symptomatically.

For additional precautionary, handling, and use statements, see inside of this booklet.
**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear long-sleeved shirt and long pants, shoes, and socks.

---

**ENVIRONMENTAL HAZARDS**

This product is highly toxic to aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

This chemical demonstrates the properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination.

---

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not formulate this product into other end-use products.

**RESTRICTIONS:** Not for use in commercial greenhouses, nurseries, on sod farms, or on grass grown for seed. For use on plants intended for aesthetic purposes or climatic modification and being grown in interior plantscapes, ornamental gardens or parks, or on golf courses or lawns and grounds.

**TURFGRASS**

Quali-Pro® Imidacloprid 0.5G is for use on turfgrass in home lawns, business and office complexes, shopping complexes, multi-family residential complexes, golf courses, airports, cemeteries, parks, playgrounds, and athletic fields to control soil-inhabiting pests as listed in the table below. Quali-Pro Imidacloprid 0.5G can also be used for the suppression of cutworms and chinch bugs in turfgrass areas.

**Application Instructions**

Effective control can be achieved when applications are made before or during the egg-laying period. The timing of applications can be based on historical monitoring of the site, previous records or experiences, current season adult trapping, or other methods. For best control, apply prior to egg hatch of the target pests, followed by sufficient irrigation or rainfall to move the active ingredient through the thatch.

**RESTRICTIONS:** Follow treatment by rainfall or irrigation within 24 hours after application to move the active ingredient through the thatch. Do not make applications when turfgrass areas are water-logged or the soil is saturated with water. Adequate distribution of the active ingredient cannot be achieved when these conditions exist. The area to be treated must be able to accept vertical penetration of rainfall or irrigation water. Do not mow turf or lawn area until after sufficient irrigation or rainfall has occurred so that uniformity of application will not be affected.

Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

**Application Equipment**

Apply Quali-Pro Imidacloprid 0.5G uniformly over the area being treated with granular application equipment. Both drop-type and rotary-type spreaders may be used. Do not use spreaders which apply the material in narrow, concentrated bands. Calibrate application equipment prior to use according to the manufacturer’s directions. Check frequently to be sure equipment is working properly and distributing granules uniformly and accurately.

Consult your local State Agricultural Experiment Station or State Extension Turf Specialists for more specific information regarding timing of application.

ORNAMENTALS
Quali-Pro Imidacloprid 0.5G can be used as a broadcast application on ornamentals in commercial and residential landscapes.

Application Instructions
Quali-Pro Imidacloprid 0.5G is a systemic product which is translocated upward within the plant system. Follow applications with sufficient mechanical incorporation, irrigation, or rainfall to move the active ingredient into the soil. Irrigate within 24 hours after application if rainfall has not occurred. Apply prior to pest infestation to achieve optimum control.

Apply as a broadcast treatment. Prior to application, remove black plastic or other weed-barrier material that will not permit water permeability.

NOTES: Do not allow runoff or puddling of irrigation water following application. Do not apply Quali-Pro Imidacloprid 0.5G to areas which are waterlogged or saturated, which will not allow penetration into the root zone of the plant.

Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

Do not apply this product, by any application method, to linden, basswood or other Tilia species.

Application Equipment
Apply Quali-Pro Imidacloprid 0.5G uniformly over the area being treated with granular application equipment. Both drop-type and rotary-type spreaders may be used to apply Quali-Pro Imidacloprid 0.5G. Do not use the type of spreaders which would apply the material in narrow, concentrated bands. Calibrate application equipment prior to use according to the manufacturer’s directions. Check frequently to be sure equipment is working properly and distributing granules uniformly and accurately.

RESTRICTIONS
Treated areas may be replanted with any crop specified on an imidacloprid label or with any crop for which a tolerance exists for the active ingredient.

For crops not listed on an imidacloprid label or for crops for which no tolerances for the active ingredient have been established, a 12-month plant-back interval must be observed.
LIMITATION OF WARRANTY AND LIABILITY
Read the entire directions for use, conditions of warranties and limitations of liability before using this product. If terms are not acceptable, return the unopened product container at once.

By using this product, user or buyer accepts the following CONDITIONS, DISCLAIMER OF WARRANTIES, and LIMITATIONS OF LIABILITY.

CONDITIONS: The directions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Makhteshim Agan of North America, Inc. All such risks shall be assumed by the user or buyer.

DISCLAIMER OF WARRANTIES: To the extent consistent with applicable law, Makhteshim Agan of North America, Inc. makes no other warranties, express or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. No agent of Makhteshim Agan of North America, Inc. is authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. To the extent consistent with applicable law, Makhteshim Agan of North America, Inc. disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use or handling of this product.

LIMITATIONS OF LIABILITY: To the extent consistent with applicable law, the exclusive remedy of the user or buyer for any and all losses, injuries or damages resulting from the use or handling of this product, whether in contract, warranty, tort, negligence, strict liability or otherwise, shall not exceed the purchase price paid or at Makhteshim Agan of North America, Inc.’s election, the replacement of product.
Imidacloprid 0.5G
Insecticide

For systemic insect control in turfgrass and landscape ornamentals.
Contains imidacloprid, the active ingredient in MERIT® 0.5 G INSECTICIDE.
Quali-Pro® Imidacloprid 0.5G is not manufactured or distributed by Bayer.

ACTIVE INGREDIENT: % BY WT.
Imidacloprid, 1-[(6-Chloro-3-pyridinyl)methyl]-N-nitro-2-imidazolidinimine 0.5%
OTHER INGREDIENTS: 99.5%
TOTAL: 100.0%

EPA Reg. No. 66222-200
EPA Est. No. 5905-IA-001
