READ THE ENTIRE LABEL FOR QUALI-PRO CHLORPYRIFOS 4E BEFORE PROCEEDING WITH THE USE DIRECTIONS CONTAINED IN THIS SUPPLEMENTAL LABELING.

"Label" as used in this supplemental labeling refers to the label booklet for Quali-Pro Chlorpyrifos 4E and this supplement.

ACTIVE INGREDIENT: % BY WT.
Chlorpyrifos: 0,0-diethyl-0-(3,5,6-trichloro-2-pyridinyl) phosphorothioate ........................................... 42.50%
INERT INGREDIENTS: ................................................................................................................... 57.50%
TOTAL:........................................................................................................................................ 100.00%

Revised Use Directions for Spray Drift Buffer Zones

KEEP OUT OF REACH OF CHILDREN
WARNING
Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

DIRECTIONS FOR USE

• It is a violation of Federal law to use this product inconsistent with its labeling.
• This supplemental labeling must be in the possession of the user at the time of pesticide application.
• Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.
• These directions can be found on the currently registered EPA Stamped Label.

Spray Drift Management

The buffer distances specified in the below table are the distances in feet that must exist to separate sensitive sites from the targeted application site. Buffers are measured from the edge of the sensitive site to the edge of the application site.

Sensitive sites are areas frequented by non-occupational bystanders (especially children). These include residential lawns, pedestrian sidewalks, outdoor recreational areas such as school grounds, athletic fields, parks and all property associated with buildings occupied by humans for residential or commercial purposes. Sensitive sites include homes, farm worker housing, or other residential buildings such as schools, daycare centers, nursing homes, and hospitals. Non-residential agricultural buildings, including barns, livestock facilities, sheds, and outhouses are not included in this prohibition.
