DIRECTIONS FOR USE:

1. Always use personal protective equipment.*
2. Remove lid from canister.
3. Take the next wipe, twist to a point and thread through the opening.
4. Apply towelette and wipe desired surface to be disinfected.
5. Pull up corner of center wipe, snap off, and discard.
6. Do not push finger through opening.
7. Replace lid. Pull out exposed wipe and snap off.
8. Lay flat 209.5 mm (+/- 0.5 mm)
9. TO OPEN CANISTER: Avoid contact with eyes and clothing. Wash thoroughly with soap and water after handling.

SUGGESTED AREAS OF USAGE:

• Blood/body fluids must be thoroughly cleaned from surfaces/objects before disinfection by application of Microdot® Bleach Wipe.

CONSULTING PHYSICIAN or other responsible person must be consulted prior to the use of any bleach/disinfectant on skin or mucous membranes but which does not ordinarily penetrate the blood barriers or otherwise enter normally sterile areas of the body. This product is not indicated for use on or around any surgical incision or in any wound. Microdot® Bleach Wipe is not an antibiotic and should not be considered as such. It is a disinfectant and is not a drug. It is not recommended for use on mucous membranes or skin lesions and must not be used on any part of the body except as directed.

斎 medications and/or other substances that are highly reactive with bleach, such as chloride and ethylene oxide derivatives, should be rinsed off prior to application of Microdot® Bleach Wipe.

SPECIAL INSTRUCTIONS FOR CLEANING PRIOR TO DISINFECTION AGAINST HIV-1, HBV & HCV:

• Personal Protection: Wear appropriate barrier protection such as gloves, apron, masks and eye protection.

CLEANING PROCEDURE: Blood/body fluids must be thoroughly cleaned from skin/body wounds before application of Microdot® Bleach Wipe.

CONTACT TIME: Allow the bleach to remain contact with the blood/body fluids for at least 3 minutes. If the surface is soiled with blood/body fluids, a 3 minute contact time is required to kill +HIV, +HBV, +HCV and P. aeruginosa in 30 seconds. After killing +HIV, +HBV, +HCV and P. aeruginosa in 30 seconds, blood/body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal.

STORAGE AND DISPOSAL: Read all directions on container and information available by calling 877.374.4062.

PRECAUTIONARY STATEMENTS:

Hazards to humans and domestic animals:

CAUTION: Contains corrosive agent. Avoid contact with eyes and clothing. Wash thoroughly with soap and water after handling. Do not contaminate water, food or feed by storage or disposal. Storage: Keep these wipes in a tightly closed canister, when not in use. Store canister in cool, dry, and well-ventilated areas. Dispose of used wipes in a sanitary landfill or incineration. If, after incineration, any residues remain, dispose of residues by burial or incineration.

PHYSICAL AND CHEMICAL HAZARDS:

This product contains bleach. Do not use this product with other chemicals such as ammonia, bleach cleaners, sanitizers, or acids, as a mixture introduces toxic fumes.

MODE OF ACTION:

The Ready to Use EPA registered bleach wipe disinfects hard, non-porous healthcare and environmental surfaces. Aids in reducing cross contamination between treated surfaces. Satisfies EPA guidelines for spores*.

\[ \text{Total:} \quad \text{99.35\%} \text{~of \text{~{+HIV}}} \]
\[ \text{HIV-1, HBV, HCV in 30 seconds} \]
\[ \text{CAN BE USED ON BLOOD GLUCOSE METERS} \]

SPORES:

+ Clostridium difficile spores*.
+ M. phaffii spores*. 
+ P. aeruginosa spores*.
+ B. subtilis spores*.

† A precleaning step is required for efficacy against +HIV, +HBV, +HCV and P. aeruginosa in 30 seconds.

‡ A precleaning step is required for efficacy against +HIV, +HBV, +HCV and P. aeruginosa in 30 seconds.

REPLACE LID. Pull out wipe and snap off.

2. Remove lid from canister.

5. Pull up corner of center wipe, snap off, and discard.

6. DO NOT PUSH FINGER THROUGH OPENING.

9. TO OPEN CANISTER:

Feces must be cleaned from surface/objects before disinfection by application of Microdot® Bleach Wipe.

SPECIAL INSTRUCTIONS FOR CLEANING PRIOR TO DISINFECTION AGAINST +HIV, +HBV, +HCV and P. aeruginosa in 30 seconds.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal. Disposal: Do not re-use or refill this canister. Triple rinse (or equivalent) and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.
