PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes substantial but temporary eye injury. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing dust or fumes. Seek immediate medical attention if eye, skin, or clothing contact occurs. Never apply this product to any object or area intended for use by humans.

Do not apply directly to foliage or shrubs or to ornamental, soft-bodied plants.

DIRECTIONS FOR USE:

PHYSICAL OR CHEMICAL HAZARDS:

Keep from freezing.

IN CASE OF INGESTION:

Do not induce vomiting. Give 1-2 glasses of milk or water. Call a poison control center or doctor for treatment advice.

IN CASE OF INHALATION:

Move person to fresh air. If person is not breathing, call 911 or an ambulance. If person is breathing, give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.

IF ON SKIN:

Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for further treatment advice.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED:

Hold person in a comfortable position. Call a poison control center or doctor for treatment advice.

FIRST AID

IF INHALED:

• Move person to fresh air. • If person is not breathing, call 911 or an ambulance. Then give artificial respiration, preferably mouth-to-mouth if possible. • Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING:

• Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

IF IN EYES:

• Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

IN CASE OF CONTACT WITH EYES:

• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for further treatment advice.

STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage and disposal. Position Storage: Store in a cool, dry area. Always store pesticides in their original container. Store away from food and pet food. Pesticide Disposal and Container Handling: Nonrefillable container. Do not mix or reuse this container. As a precautionary measure: Place in trash or offer for recycling if available. (See back panel for further instructions.) Call your local health, labor and safety emergency response agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

APPLICATION INSTRUCTIONS

GENERAL:

For both indoor and outdoor situations, the most effective control for a pet is the sharply spoken word backed up with disciplinary action. This repellent product should be used in conjunction with training.

WARNING:

To break your pet of undesirable habits (such as sleeping on furniture, rugs, and other forbidden areas in your home). Spray the articles of furniture, rugs, etc. lightly with this product so that the area or object is slightly moistened. Before spraying the object, test the effect of this product by first spraying a small, inconspicuous area. This product may stain or soften some fabrics or plastics. An alternative method to avoid possible damage is to spray a piece of cloth lightly and place it on the object or area in your home to be protected. Repeat daily, or as necessary, until undesirable habits are broken.

OUTDOORS:

To prevent your pet, or stray animals, from soiling flower beds, areas of soil, trees, bushes, shrubs, and evergreens. Spray the edges of flower beds, trunks of trees, the bases of shrubbery and evergreens, patches of lawns, etc., lightly every day, or every other day with this product. Stray animals are frequently attracted to areas where urine or feces have been deposited. First, remove any droppings, then spray the spot with this masking color. Repetition as necessary until undesirable habits of your pet or stray animals are changed.

Garbage and Garbage Cans: Treat bags of garbage and garbage cans on all surfaces until wet. Allow drying before handling. Repetition as necessary.

Application of this repellent product reduces undesirable habits by covering the areas your pet frequents. It is a misapplication of the product to spray this product on the pet. The pet should not be present when spraying. It is effective for a period of 10-20 minutes before the treated area is reoccupied by your pet or by stray animals. To maintain control, spray daily, or at least every other day, depending on the frequency of your pet or stray animals in the area.

To break your pet of eating or chewing undesirable objects, such as shoes, toys, or furniture. Spray the object with this repellent product. Repeat daily until undesirable habits are broken.

To prevent the pet of undesirable habits (such as sleeping on furniture, rugs, and other forbidden areas in your home).
