SUPPLEMENTAL LABEL

This supplemental label expires on 12/18/2018 and must not be used or distributed after this date.

Rancona® Summit
SEED PROTECTANT
EPA Reg. No. 400-570

For Use on Soybean, Beans (dried shelled and succulent / edible podded) and Peas (dried shelled and succulent / edible podded)

Active Ingredients: (% by weight)
- ipconazole (CAS No. 125225-28-7) .......................................................... 0.902%
- metalaxyl (CAS No. 57837-19-1) .............................................................. 1.443%

Other Ingredients: ....................................................................................... 97.655%
Total: ........................................................................................................... 100.000%

*Contains 0.080 lb ipconazole and 0.128 lb metalaxyl per gallon.
*Contains 9.6 grams ipconazole and 15.4 grams metalaxyl per liter.

KEEP OUT OF REACH OF CHILDREN
CAUTION

THIS LABEL IS IN ADDITION TO THE STANDARD FEDERAL LABEL ON THE CONTAINER

Follow all applicable directions, restrictions and precautions on this supplemental labeling and the main EPA registered label. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This label and the federal label for this product must be in the possession of the user at the time of the pesticide application.

Read the label affixed to the container for Rancona Summit before applying. Use of Rancona Summit according to this labeling is subject to the use precautions and limitations imposed on the label affixed to the container for Rancona Summit.

Manufactured for:
MacDermid Agricultural Solutions, Inc.
199 Benson Road
Middlebury, CT 06749
SEED TREATMENT EQUIPMENT

RANCONA Summit may be applied with mechanical, slurry, or mist-type seed treating equipment, provided that the equipment can be calibrated to accurately and uniformly apply the product to seed. Uniform application to seed is necessary to ensure best disease protection and optimum performance. Seed should be sound and well cured before treatment. Refer to the label rates below.

Equipment Cleaning: Following applications, thoroughly rinse seed treatment equipment with water. Do not contaminate water by disposal of equipment washwater or rinsate.

APPLICATION INSTRUCTIONS

FAILURE TO FOLLOW DIRECTIONS ON THIS LABEL MAY RESULT IN CROP INJURY OR POOR DISEASE CONTROL

* Partial control can either mean erratic control from good to poor, or consistent control at a level below that generally considered acceptable for commercial disease control.

** Delivers 0.04 oz. ipconazole plus 0.064 oz. metalaxyl per 100 pounds seed

### SEED BAG LABEL REQUIREMENTS
The Federal Seed Act requires that bags containing treated seeds shall be labeled with the following statements:

- This seed has been treated with ipconazole and metalaxyl.
- Do not use for feed, food, or oil purposes.
- User is responsible for ensuring that the seed bag meets all requirements under the Federal Seed Act.

In addition, the U.S. Environmental Protection Agency requires the following statements on bags containing seed treated with RANCONA Summit:

- Store away from food and feedstuffs.
- Do not allow children, pets, or livestock to have access to treated seeds.
- Wear long-sleeved shirt, long pants, and chemical resistant gloves such as barrier laminate, butyl rubber, neoprene or viton; shoes and socks.
- Treated seeds exposed on soil surface may be hazardous to wildlife. Cover or collect treated seeds spilled during loading.
- Dispose of all excess treated seed by double sowing around the headland or buried away from water sources in accordance with local requirements.
- Do not contaminate water bodies when disposing of planting equipment washwater.
- Dispose of seed packaging in accordance with local requirements.
- Excess treated seed may be used for ethanol production only if (1) by-products are not used for livestock feed and (2) no measurable residues of pesticide remain in ethanol by-products that are used for agronomic practice.

### USE RESTRICTIONS
IN CALIFORNIA: ONLY for use in commercial seed-treatment establishments. NOT allowed for “on-farm” use.
