ENVIROMENTAL HAZARDS
Do not apply directly to water surface or areas where water surface is present or to intertidal areas below the mean high water mark. Do not discharge effluent containing this product into waters used as aquacultural habitat. If this product is discharged into the waters other than those listed above, consult your local environmental agency or your State Water Board prior to discharge. Do not discharge effluent containing this product to sewer systems without prior notification to the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

Physical or Chemical Hazards
Combustible. Do not use or store near heat or open flame.

DIRECTIONS FOR USE
It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Application Restrictions
Do not apply this product in a way that will contact workers or other persons. Only protected handlers may be in the area during application.

Residue Requirements
Entire contents of the container within 6 months after opening. Once opened, cabinet gradually degrades the product, which can then stain fruit upon application. Do not expose product to sunlight to prevent darkening, which may cause staining or fruit. Do not apply treated fruit to areas where ethoxyquin is prohibited. Avoid exposing product to sunlight to prevent darkening, which may cause staining or fruit.

Re-Entry
See the entire instructions of the container within 6 months after opening. Once opened, cabinet gradually degrades the product, which can then stain fruit upon application.

Precautionary Statements
Hazard to Humans and Domestic Animals:
Caution. Harmful if absorbed through skin. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wear protective eyewear. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals.

Personal Protective Equipment (PPE):
Some materials that are harmful to the product to this product are listed below:

• Handlers (including mixers, loaders, persons cleaning and monitoring the fogging equipment, and persons who have handled treated pear or pear containers still wet with ethoxyquin) must wear:
  - Long-sleeved shirt and long pants.
  - Chemical-resistant gloves made of any waterproof material such as polyvinyl chloride, nitrile rubber, or butyl rubber.
  - Shoes and socks.

• Protective eyewear (such as goggles, safety glasses, or a face shield).

Fogging equipment must wear:
• Full-face respirator with organic vapor filter pack.
• Long-sleeved shirt and long pants.
• Chemical-resistant gloves made of any waterproof material such as polyvinyl chloride before removing, or butyl rubber.
• Shoes and socks.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing / PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothes.

Re-Entry
Enter the treatment area by any other person than properly trained and equipped handlers is prohibited from the start of application until the treated area is ventilated as follows:
• 8 hours with no ventilation followed by 1 hour of mechanical ventilation
• 24 hours with no ventilation
In case it is necessary to enter the treatment area during treatment or before ventilation requirements have been met, handlers must wear chemical resistant headgear and a self-contained breathing apparatus (SCBA, MSHA/OSHA approval number TC-139) in addition to PPE listed for handlers under PRECAUTIONARY STATEMENTS:

LIMITED WARRANTY, TERMS OF SALE, AND LIMITATION OF LIABILITY
For best control of aphids, apply no later than one week before harvest. For advice on other pear varieties, consult your Pace Technical Representative.
