**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Harmful If Swallowed - Causes Moderate Eye Irritation

Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse. Wear protective eyewear, long sleeved shirt and long pants, socks and shoes.

**FIRST AID**

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-441-3637 for emergency medical treatment information.

**PERSONAL PROTECTIVE EQUIPMENT (PPE)**

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

**Engineering Controls**

When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240(d)(4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

**USER SAFETY RECOMMENDATIONS**

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

**ENVIRONMENTAL HAZARDS**

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinseate. This product may contaminate surface water due to runoff of rainwater. This is especially true for poorly draining soils and soils with shallow groundwater. This product is classified as having high potential for runoff for several days after application. A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential for contamination of water from runoff of rainwater. Runoff of this product will be reduced by avoiding applications when rainfall is forecasted to occur within 48 hours.

**AGRICULTURAL USE REQUIREMENTS**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. Refer to the label booklet under “Agricultural Use Requirements” in the Directions for Use section for information about this standard.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage: Store in original container only.

Pesticide Disposal: Wastes resulting from the use of this product must be disposed of on site according to label use directions or at an approved waste disposal facility.

Nonrefillable nonrigid containers 50 lb or less:

Container Handling: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling if available, or dispose in a sanitary landfill, or by incineration, or by other procedures allowed by state and local authorities.

Net 25 lb Nonrefillable Container

Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwater or rinsate. This product may contaminate surface water due to runoff of rainwater. This is especially true for poorly draining soils and soils with shallow groundwater. This product is classified as having high potential for runoff for several days after application. Avoiding applications when rainfall is forecasted to occur within 48 hours.

A level, well-maintained vegetative buffer strip between areas to which this product is applied and surface water features such as ponds, streams, and springs will reduce the potential for contamination of water from runoff of rainwater. Runoff of this product will be reduced by using of this product must be disposed of on site according to label use directions or at an approved waste disposal facility. Refillable rigid containers larger than 50 lb: Container Handling: Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning before refilling is the responsibility of the refiller. To clean the container before final disposal, empty the remaining contents from this container into application equipment or a mix tank. Fill the container about 10% full with water and, if practical, agitate vigorously or recirculate water with the pump for two minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times.

**AGRICULTURAL USE REQUIREMENTS**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. Refer to the label booklet under "Agricultural Use Requirements" in the Directions for Use section for information about this standard.
DuPont™ GR2 HERBICIDE

For postemergent control of annual grass and broadleaf weeds in spring and winter wheat (including durum), and triticale.

Active Ingredients
pyroxsulam: N-(5,7-dimethoxy[1,2,4]triazolo[1,5-a]pyrimidin-2-yl)-2-methoxy-4-(trifluoromethyl)-3-pyridinesulfonamide ................................................................. 21.5%
Other Ingredients .................................................................................................................................................................................................................. 78.5%
Contains 0.215 lb of active ingredient per pound of product.

E. I. du Pont de Nemours and Company, Chestnut Run Plaza, 974 Centre Road, Wilmington, DE 19805 U.S.A.
Made in U.S.A.
Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Onlyatsuicide-resistant crops or desirable plants including alfalfa, barley, canola, beans, cotton, flax, spring feed corn, sugarcane, sweet potatoes, tobacco, tomatoes, vegetables, winter wheat, and potatoes. Do not use this product in or around areas used for food or animal consumption unless the label so permits.

USE SAFETY RECOMMENDATIONS

USER SHOULD

• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as practical, wash thoroughly and dry hands before eating, drinking, chewing gum or using tobacco.
• Wash hands with soap and water before removing PPE or leaving the treatment area.
• Wash hands immediately after removing gloves or other PPE.
• Wear PPE as instructed on the label.

ENVIRONMENTAL HAZARDS

Do not apply to orchards, nurseries, or areas where pesticides from treated plants could enter water supplies. Do not apply to areas below the mean high water levels of lakes or ponds or the mean high tide mark of saltwater areas. Do not apply to riparian areas and areas through which surface water will pass. This product may contain surfactants that may affect aquatic life. This is especially true for poorly draining soils and areas near water bodies. Do not contaminate water, food, or feed by providing containers in or near only at the time of application.

A C T I O N S T T E P S T O T A K E TO M I N I M I Z E R O G U L A T I O N I M P A C T • Keep containers covered and do not mix with incompatible ingredients. • Do not apply to areas where pesticide drift will enter lakes, streams, or other water bodies. • Do not apply to ponds, ditches, or other water bodies used as wildlife habitat. • Do not use this product in or around areas used for food or animal consumption unless the label so permits.

USE SAFETY RECOMMENDATIONS

USER SHOULD

• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as practical, wash thoroughly and dry hands before eating, drinking, chewing gum or using tobacco.
• Wash hands with soap and water before removing PPE or leaving the treatment area.
• Wash hands immediately after removing gloves or other PPE.
• Wear PPE as instructed on the label.

ENVIRONMENTAL HAZARDS

Application Directions

Application Timing

To delay herbicide resistance:
- Apply the herbicide in a low-nutrient management system. It is recommended not to use GR2 herbicide in successive seasons.
- Where possible, rotate the use of GR2 herbicides over other ALS herbicides with different herbicide target sites that control the same weeds
- Use tank mixtures with herbicides from a different group where such use is permitted.
- Herbicide use should be part of an IPM program that includes scouting, technical information related to herbicide use and tank mixes and, constitutes tillage (or other mechanistic), cultural, biological and other chemical control practices.

Tank Mixing Precautions

For PHR, B.P. R7R and all applicable use directions, precautions, and limitations on the respective product labels.
- GR2 herbicide and other ALS herbicides must be compatible in tank mixes and/or formulated together with the exception of the following interactions:
- Do not apply Starane or bromoxynil+MCPA products, do not use an adjuvant.
- Do not apply a product containing organophosphates for five days before or five days after an application of GR2 herbicide. Do not add surfactants to the GR2 herbicide suspension tank mixture.
- Do not mix Starane or bromoxynil+MCPA products, do not use an adjuvant.

Application Precautions

Storage and Disposal

Dosage Reconciliation

Recommended rates are less than 2 inches tall. For control of lambsquarters over 2 inches tall, tank mix with 0.25 lb ae 2,4-D ester or MCPA ester. For

To delay herbicide resistance:
- Applications of GR2 herbicide are rainfast within 4 hours after application.

To delay herbicide resistance:
- Over 2 inches tall, apply MCPA ester.
- Over 2 inches tall, apply MCPA ester.
- Over 2 inches tall, apply MCPA ester.
