WHERE TO USE:
- Roses and other ornamentals
- Listed vegetables and fruit trees
- Trees and shrubs
- Lawns
- Around house foundations, porches, patios and stored lumber

People & Pets: People and pets may enter treated areas after spray has dried.

ROSES, FLOWERS, SHRUBS & SMALL TREES

KILLS INSECTS
- Aphids, Armwaxes (including Bees, Fall, Southern, True, Yellow-striped)
- Bagworms: Borer (including Elm Leaf, Tha), Bagworm, Pine Check, Pine Shank, Salli (Campanula)
- Spiders: (including Lepidoptera, Tset, Gingers,<br> Eastern Spiny, Arachnids: Grasshoppers, Lace Bugs, Lymes Bugs, Meadow Bugs, Spiders (including Spiders, Two-Spotted Spiders), Scorpions, Kilns (including Scorpions, Smirnoff Pit), Peabody (Campanula), Plant Bugs (including Tarantula), Spiders (including Euphoryne, Euphanea), Spiders (including Brown, Harvester, Rats, Bugs), Spiders (including Harvester, Oak, Mole (including Harvester Pine, Orchard Pine), Whiteflies

HOW TO USE:
Connect:
1. Connect sprayer to hose.
2. Turn on water.
Spray:
1. To BEGIN spraying, slide lever to "OFF" position.
2. Spray only until the surface of the leaves are wet. Apply evenly.
Finish:
1. To STOP spraying, slide lever to "OFF" position.
2. Turn off water.
3. Mow or water pressure by sliding lever to "WATER" position.
4. After water slows to a drip, slide lever to "OFF" position.
5. Disconnect sprayer from hose.

HOW TO APPLY:
- Spray to uniformly cover upper and lower leaf surfaces, stems, and branches. When spraying potted plants also spray the soil surface.
- Spray when air is calm to avoid drift. Apply as necessary, waiting 7 to 14 days between each application. Hard to control insects may require 2 to 3 applications.
- If temperature is expected to exceed 85°F, spray is early morning or late afternoon when it is cooler.
- Mosquitoes coming to rest on treated areas will be killed for varying periods of time after application, depending on exposure of treated areas to weather conditions.
- Try to spray undere side of leaves and penetrate dense foliage. Bottle (32 fl oz) will treat 2,000 sq ft.

AROUND HOUSE FOUNDATIONS, PORCHES, PATIOS & STORED LUMBER

KILLS INSECTS
- Ants (including Argentine, Carpenter, Lasius, Ochraven, Pavement, Pharaoh, Puga, Pyramid, Red Harvester), Cockroaches: Roaches (including Anceps, Pavement, Wood), Asian (Oriental, German), Crickets, Earwigs: Flea, Mouse Flea, Millipedes, Moth: Pump, Leopards, Sawflies: Flea, Piper, Ladybeetle: Spider (including Black Widow, Brown Recluse, Hues), Spiders (including Brown, Harvester, Rats, Bugs), Spiders (including Harvester, Oak, Mole (including Harvester Pine, Orchard Pine), Whiteflies

HOW TO USE:
Connect:
1. Connect sprayer to hose.
2. Turn on water.
Spray:
1. To BEGIN spraying, slide lever to "OFF" position.
2. Spray as directed in the HOW TO APPLY Section.
Finish:
1. To STOP spraying, slide lever to "OFF" position.
2. Turn off water.
3. Refill water pressure by sliding lever to "WATER" position.
4. After water slows to a drip, slide lever to "OFF" position.
5. Disconnect sprayer from hose.

HOW TO APPLY:
- To keep insects from entering the house, spray a 2 foot band around the house next to the foundation. Also spray the foundation of the house to a height of 2 feet.
- Repeat application every 14 days if necessary.
- Bottle (32 fl oz) will treat 1,800 sq ft of foundation/ perimeter.
**HOME VEGETABLE GARDENS, MELONS AND FRUIT & NUT TREES (cont’d)**

**WHEN TO USE**
- Apply when insects first appear.
- Apply when necessary to maintain control at least 7 days between each application.
- Apply before spraying day of harvest.

**HOW TO USE**
1. Apply to at least 6 weeks before harvest.
2. Turn on water.
3. Spray 3 times during the growing season.

**HOW TO APPLY**
- Apply to entire garden area.
- Apply to individual plants as necessary.

**VEGETABLES AND FRUITS**

HIDRÁULICAS DE CESPED

CUANDO USARLO

- Aplique al césped cortado y seguro en las últimas 24 horas. Se puede volver a cortar el césped después de 2 a 3 días.
- Para el control de los grillos tapa, nieve de manera abundante inmediatamente después de la aplicación.

COMO USARLO

Conectar: 1. Conecte el rociador a la manguera. 2. Abra la llave del agua.
Recepción: 1. Para EMPEZAR a rociar, deslice la palanca hasta la posición de "ON" (abierto).
2. Sólo rociar hasta humedecer la superficie de las hojas del césped.
Terminación: 1. Para DETENER de rociar, deslice la palanca hasta la posición de "OFF" (cerrado).
2. Cierre la llave del agua.

INSECTOS DE CESPED

CUANDO APAGAR EL CESPED

- Aplique tan pronto como aparezcan los insectos.
- Espere de 4 a 6 semanas para aplicar nuevamente.

COMO APAGAR EL CESPED

Conectar: 1. Conecte el rociador a la manguera. 2. Abra la llave del agua.
Recepción: 1. Para EMPEZAR de rociar, deslice la palanca hasta la posición de "OFF" (cerrado).
2. Sólo rociar hasta humedecer la superficie de las hojas del césped.
Terminación: 1. Para DETENER de rociar, deslice la palanca hasta la posición de "OFF" (cerrado).
2. Cierre la llave del agua.
3. Libere la presión del agua deslizando la palanca hasta la posición de "WATER" (agua).
4. Una vez que el chorro del agua se reduzca a un goteo, deslice la palanca de regreso a la posición de "OFF" (cerrado).
5. Desconecte el rociador de la manguera.
