FRONT LABEL

HYDROWORXX™ DISEASE CONTROL

Read and follow all applicable directions and precautions on the label before using.

Application Directions

For best results, apply HydroWorxx™ Disease Control Ready to Use. Apply at the start of flowering and continue every 7 to 10 days until harvest. Fungicidal sprays are especially recommended when weather forecasts predict a long period of wet weather.

DIRECTIONS FOR USE

1. For outdoor purposes:
   • Dilute 2 fluid ounces in 1 gallon (3.79 L) water. Apply products to a 100% wet canopy. Repeat at 7 to 10 day intervals for as long as needed.

2. For indoor purposes:
   • Dilute 2 fluid ounces in 1 gallon (3.79 L) water. Apply products to a 100% wet canopy. Repeat at 7 to 10 day intervals for as long as needed.

3. A minimum of 1 gallon (3.79 L) water is needed to dilute 2 fluid ounces of HydroWorxx™ Disease Control Ready to Use. It is best to spray the plants twice a week during the first 2 weeks after application. On plants that are very susceptible to powdery mildew, such as home-greenhouse-grown cucumbers, it is best to apply the products twice a week during the first 2 weeks after application. Stop when disease first appears, and repeat at 7 to 10 day intervals for as long as needed. Spray all plant surfaces (top and bottom of leaves) thoroughly with the spray and reapply if needed.

4. Use for outdoor purposes:
   • Dilute 2 fluid ounces in 1 gallon (3.79 L) water. Apply products to a 100% wet canopy. Repeat at 7 to 10 day intervals for as long as needed.

5. A minimum of 1 gallon (3.79 L) water is needed to dilute 2 fluid ounces of HydroWorxx™ Disease Control Ready to Use. It is best to spray the plants twice a week during the first 2 weeks after application. Stop when disease first appears, and repeat at 7 to 10 day intervals for as long as needed. Spray all plant surfaces (top and bottom of leaves) thoroughly with the spray and reapply if needed.

6. Use for indoor purposes:
   • Dilute 2 fluid ounces in 1 gallon (3.79 L) water. Apply products to a 100% wet canopy. Repeat at 7 to 10 day intervals for as long as needed. Spray all plant surfaces (top and bottom of leaves) thoroughly with the spray and reapply if needed.

7. On outdoor plants, re-apply after rain. On indoor plants, re-apply at least 2 hours after handling. Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Remove contaminated clothing and wash before reusing.

CAUTION

This product is toxic to fish and support populations and may contaminate water through spray. Do not apply directly to water. Do not contaminate water when disposing of equipment washwater.

KEEP OUT OF REACH OF CHILDREN

Caution:

Pesticides can be harmful if inhaled, swallowed, absorbed through skin or on contact with eyes. Wash thoroughly with soap and water after handling.

DISEASE CONTROL READY TO USE

Controls powdery mildew & other listed diseases

- Use up to day of harvest
- Dormant and growing season liquid copper fungicide
