### EFFITIX® Plus

**Topical Solution for Dogs**

Applied topically on a monthly basis, EFFITIX® Plus Topical Solution for Dogs repels and kills fleas, ticks and mosquitoes, kills flea eggs, flea larvae, lice, and repels and inhibits blood feeding by biting flies and mosquitoes.

**Read Entire Label Before Each Use**

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed or absorbed through the skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse.

HAZARDS TO DOMESTIC ANIMALS

For external use on dogs ONLY. Do not use on cats, dogs, or puppies less than 10 weeks of age, weighing less than 5 lbs. Individual sensitivities, while rare, may occur after using ANY pesticide product. Dogs may experience some temporary irritation at the site of product application. If signs of sensitivity occur, bathe your pet with mild soap or shampoo and rinse with large amounts of water. If signs of sensitivity occur and persist, consult a veterinarian immediately. If your dog has an unusual reaction to the initial application, consult a veterinarian before repeating application. Certain medications can interact with pesticides. Consult a veterinarian before using on medicated, debilitated, aged, pregnant or nursing dogs, or dogs known to be sensitive to pesticide products.

**Side Effects**

Monitor your dog after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian immediately.

**Do Not Use on Cats - May Be Fatal**

Keep cats away from treated dogs for 24 hours. If applied to a cat or ingested by a cat, contact your veterinarian immediately.
EFFITIX® Plus
Topical Solution for Dogs

FOR THE ONLY ON DOGS AND PUPPIES 8 WEEKS OF AGE OR OLDER WEIGHING AT LEAST 5 LBS.

For convenient, quick-applying, long-lasting, effective control of fleas, ticks, flea larvae, lice, and ear mites. Easy and convenient application. Stops existing infestations and prevents establishment of new infestations for 8 weeks. Safe, starts working on contact. Kills fleas and ticks for up to 4 weeks. Long-lasting flea, tick, louse, and ear mite control for your dog. Prevents re-infestation for 8 weeks. Kills effective against flea Allergy Dermatitis (FAD) in flea bite areas. Repels and inhibits blood-feeding by lice and ear mites. Kills and repels all stages of Brown dog ticks, American dog ticks, Lone Star ticks, and Deer ticks that may transmit Lyme disease, Rocky Mountain Spotted Fever, babesiosis, anaplasmosis, and ehrlichiosis. Kills mites that may cause fur mites disease. Kills lice and ticks in the control of mites that may cause scabetic mange. Prevents and controls flea infestations. Quick-drying, non-sticky.

EFFITIX® Plus Topical Solution for Dogs consists of the active ingredients pyriproxyfen, permethrin, and pyriproxyfen which control infestations caused by ticks, fleas, lice, mites, and ear mites. Contains fipronil, a highly active pyrethroid insecticide. Contains an active ingredient that may cause fur mites disease.
