**KEEP OUT OF REACH OF CHILDREN**

DANGER

See inside panels for additional precautionary statements and first aid.

**NET CONTENTS:** 34.66 oz. (982.5g with each tablet weighing approx. 6.55g).

Kills HIV-1, Hepatitis A, and Hepatitis B viruses on TYPICALLY CLEAN ENVIRONMENTAL SURFACES and SURFACE OBJECTS PREVIOUSLY SOILED WITH BLOOD/ BODY FLUIDS. INFLAMMATORY BLOOD PLASMA in health care settings or other settings in which there is an expected high likelihood of soil contamination with infectious microorganisms (e.g., HIV or body fluids), and in which the surfaces most likely to be soiled with body fluids are expected to be frequently touched by hands and other body parts. The efficacy of this product against blood and body fluids may be impacted by blood contamination that is exposed to disinfectants that may be inactivated by chlorine. Blood and body fluids that are not completely cleaned from surfaces and substrates before application of the Disinfecting Disinfectant Tablets. This cleaning process may be accomplished by using a typical detergent cleanser that removes gross soil and biological fluids from the surface. Blood and body fluids that are not completely cleaned from surfaces and substrates before application of the Disinfecting Disinfectant Tablets. This cleaning process may be accomplished by using a typical detergent cleanser that removes gross soil and biological fluids from the surface.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by leakage or dispersal.

**WHY WE USE DISPOSABLE**:
Skin or clothing covers Dermal exposure to cleaning agents.**
