SureKill®
Dia-Py Insecticide Dust

PROVIDES QUICK KILL WITH PYRETHRINS AND RESIDUAL CONTROL WITH DIAZINON.

This insecticide is effective for the following species of insects:

- Ants
- Bees
- Bedbugs
- Cockroaches
- Firebrats
- Flies
- Fleas
- Gnats
- Lice
- Mosquitoes
- Spiders

**USER SAFETY INFORMATION**

**USER CLASSIFICATION:**

- Personal Protective Equipment (PPE): Wear gloves, long-sleeved shirt, long pants, and closed-toe shoes.
- Use in a well-ventilated area.
- Keep out of reach of children.

**PROVIDED INSTRUCTION:**

- Place the insecticide dust in a suitable container and apply as directed.
- Do not apply directly to crops or plants.
- Apply only as directed.

**PRECAUTIONS AND USE RESTRICTIONS:**

- Read the label before use.
- Applications to lawns, turf, and ornamental vegetation are not recommended.
- Do not apply within 10 feet of Entry Points for Honeybees and Bumblebees.

- **IMPORTANT:**

  - Equipment: Wear protective clothing, including long-sleeved shirts, long pants, gloves, and closed-toe shoes.
  - Do not apply to lawns or gardens.
  - Do not apply within 10 feet of Entry Points for Honeybees and Bumblebees.
  - Do not apply within 10 feet of Entry Points for Honeybees and Bumblebees.

**APPLICATION:**

- Apply to surfaces where insects are known to be present.
- Apply to areas where insects are likely to enter the structure.
- Apply to areas where insects are likely to enter the structure.

**KEEP OUT OF REACH OF CHILDREN:**

- neogen.com

**NET CONTENTS:**

- 8 ounces
STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in cool, dry place away from children, preferably a secure storage area.

PESTICIDE DISPOSAL: AGRICULTURAL USERS

Do not permit pesticides to enter or come in contact with: Drains, ditches, ponds, wells, septic tanks, watercourses, or any other water body. Inert material may be land disposed.

Do not dump into waterways.

DISPOSAL OF SURPLUS OR UNWANTED MATERIALS: Dispose of surplus or unwanted material by the following methods: Land Disposal, Composting, Incineration, or Disposal in a Landfill.

Biodegradable surfactants are used in this product.

Failure to follow instructions can result in property damage.

DISCLAIMER: The user is permitted to apply pesticide, subject to no representation or warranty, either express or implied, for results due to misuse, improper handling or improper storage of the material. Nor does the maker nor anyone responsible for its purchase, users, sale or property arising out of use, improper handling or improper storage of this material.

For non-emergency, call 410-279-1222.

FIRST AID

NAME LABEL WHEN CONTAINING TREATMENT DEVICE

If inhaled: • Remove person to fresh air. • If not breathing, call 9-1-1 or have person breathe artificial respiration, preferably mouth-to-mouth, if necessary. • Call poison control center or doctor; or 1-800-636-9077 immediately for treatment advice.

If swallowed: • Call a Poison Control Center; doctor; or 1-800-636-9077 immediately for treatment advice. • Have this product label with you. • Do not give anything by mouth. • Do not induce vomiting. • Get medical advice as necessary.

If in eyes: • Hold open eye and gently wipe with a cloth for 15-20 minutes. • Remove contact lenses, if present, after first 5 minutes, then continue wiping eye. • Call a poison control center or doctor; or 1-800-636-9077 immediately for treatment advice.

If on skin or on clothing: • Wash with soap and water. • Wash clothing separately. • Call a poison control center; doctor; or 1-800-636-9077 immediately for treatment advice.

NOTE TO PHYSICIAN: Certain pesticides are toxic. Nothing may cause unexpected reactions.

For 24 hour emergency information on this product, call 1-800-636-2742 (IN & Canada) or 1-601-629-9216.

PREFATORY STATEMENTS

NAME WEED: HERBICIDE TO KILL RESISTANT AND HERBICIDE-RESISTANT PLANTS

CAUTION: Harmful and hazardous to wildlife. Keep out of reach of children. Avoid contact with skin, eyes, or clothing. Wash hands after handling. Do not contaminate water, food, or feed by storage or disposal.

ENVIRONMENTAL HAZARD: This pesticide is toxic to aquatic organisms, including fish and invertibrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, ditches, ponds, wells, septic tanks, watercourses, or any other water body. Apply this product in calm weather when winds are not excessive and in non-misting conditions.

This product is highly toxic to bees exposed to treated or flowering crops or grasses. Do not apply this product to or allow it to drift into beehives or any area occupied by bees. Avoid contact with bees.

FIRE AND BURGLARY HAZARDS: Do not store or use near heat or open flame.

PERSONAL PROTECTIVE EQUIPMENT (PPE): Wear cotton or other long-sleeved, long pants, rubber boots, and gloves. Handle this product in a well-ventilated area.

User Safety Requirements: Follow manufacturer’s instructions for cleaning/neutralizing PPE if no such instructions are available. Wash clothes, shoes, and tools used in applicating pesticide. Follow directions and other treatment materials that have been received or previously communicated with this product’s container. Do not mix these items.

or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduit or hollow equipment legs where listed insects hide. Do not deposit this product onto exposed surfaces and do not introduce the material into the air. Do not combine food or food processing services.

NON-FOODHANDLING AREAS:

Non food-handling areas such as garbage rooms, laundries, floor drains (in corners, entries and vestibules), office, locker rooms, machine rooms, boiler rooms, garages, mop-rooms and storage (after curing building).

Cross References: Grease and Grease Traps, Brooms, Dustpans, Fire Extinguishers, Cigarette and Litter Disposal, Kitchens, Pantries, Laundry Rooms, Break Rooms, Bathrooms, Cafeteria, Dining Areas, Garages, Garbage Areas, Maintenance Areas, Storage and other utility installations. Repeat as necessary.

FOR USE ON STORIED PRODUCTS:

EXPOSED SURFACES of Flour Beetles, Caddis, Rice Weevils, Fruit Grain Beetles, Oudjoubo Buttr, Yellow Grain Beetles, Merchant Grain Beetles, Gran Mites, Choice Mites, Granary Weevils and Mealworms. Find and destroy all viable product availability. Remove all other items from pantry, drawers, and storage. Thoroughly treat fillets, walls and other surfaces in bins, storage and handling areas, cabinets, drawers, cabinets, processing and handling equipment, around corners and cavities and other areas where these insects tend to congregate. Do not exceed two (2) ounces of product per 10 square feet of surface area. Repeat as necessary.

FOR USE IN STORAGE SITES:

This product can be used in warehouses, silos, trucks, large ships, mills, bin hoppers, elevators and conveyors equipment and other listed sites as a clean-up prior to using them for storage. In mills and elevators, remove all grain inflations accumulations from bin hoppers. Thoroughly clean all storage and conveyors equipment by sweeping off the wheat grain, seedfuts and other debris from the walls and rafters as well as on the floor and door frames with special attention to material lodged in the cracks and crevices. Remove as dispose of all of the debris in an outside trash. Repeat as necessary.

IN FRAMES:

Pay particular attention to rocking and such feed and grain bags, grain residue from the warehouse, harvesting equipment and feed byproducts. Do not place newly harvested grain in the same area with carry-over grain and livestock or carry over grain bags that are not treated with grain protectant. Perform three cleaning operations within two or three weeks before harvested.

After above sanitation measures have been completed, dust all areas prior to use for storage. Apply dust to feed, ceilings and periphery boards of bins, playing close attention to cracks and crevices. Do not exceed two (2) ounces of product per 100 square feet of surface area. Repeat as necessary.

FOR USE IN UNOCCUPIED ANIMALS QUARANTINE:

Barns, Silos, Milking Parlors, Milking Rooms, Poultry Houses, and other listed areas. Use in coops, closets, wells; joints between slats, doors and other areas where pests may hide. Do not use on feed, feeders, and milking equipment. Repeat as necessary.

PRECAUTIONS AND USE RESTRICTIONS:

For Residential Use:

Do not allow adults, children, or pets to enter the treated area until thirty minutes have passed. Except when applying to pets, do not apply this product in a way that will contact adults, children or pets, either directly or through drift.

For Industrial Residential Use:

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.

All outdoor applications must be limited to spot or crack and crevice treatments only, except for the following permitted uses:

1. Treatment to soil or vegetation around structures.
2. Applications to lawns, turf and other vegetation;
3. Application to building foundations, up to a maximum height of three (3) feet.

Other than these applications to building foundations, all outdoor applications to insecticidal surfaces such as oldweakness, paint, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack and crevice applications only.

Do not make multiple applications during use. Do not water the treated area to the point of run-off.

For Residential Use:

For listed insects and around the home.

Use a brush or mechanical duster apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduit or hollow equipment legs where listed insects hide. Do not water the treated area to the point of run-off.

For USE ON VEGETABLES AND ORNAMENTALS:

Surefire Dry-Fly Insecticide dust is intended for use as a contact insecticide during the growing season. Treat only when insects are present and repeat as required to maintain control. Apply dust uniformly to upper and lower leaf surfaces.

ON VEGETABLES:

Apples (Malus domestica), Bananas (Garcinia), Blueberries (Vaccinium), Cantaloupe (Cucumis), Carrots (Daucus), Cabbage (Brassica), Celery (Apium), Cherries (Prunus), Corn (Zea mays), Cucumber (Cucumis), Date Palm (Phoenix), Eggplant (Solanum), English (Lonicera), Fig (Ficus), Flour (Triticum), Fruits (Solanum), Garlic (Allium), Grapes (Vitis), Heirloom (Solanum), Horse-radish (Raphanus), Lettuce (Lactuca), Leaf (Lactuca), Lime (Citrus), Melon (Cucumis), Mistletoe (Viscum), Mint (Mentha), Mustard (Sinapis), Nectarine (Prunus), Onion (Allium), Oregano (Origanum), Orange (Citrus), Peppers (Capsicum), Pepper (Capsicum), Pickles (Cucumis), Plum (Prunus), Popcorn (Zea mays), Purslane (Portulaca), Radish (Raphanus), Spinach (Spinacia), Tobacco (Nicotiana), Tangerine (Citrus), Tomato (Lycopersicon), Tree (Pyrus), Turnip (Brassica), Violet (Viola), Watermelon (Citrullus), Zucchini (Cucurbita), and other legumes.
