WOOD DESTROYING PEST TREATMENTS – INDOORS

TERMITES: Use this product in areas where termites are known or suspected. Apply Ready-to-Use® FOAM to termite galleries, channels, damaged wood, harborage or voids associated with termite damage, in and around commercial and residential structures as well as structural and non-structural elements that can potentially be attacked by subterranean termites. Interior and exterior application is not for use as a substitute for soil applied termiticide treatment(s) beneath slabs or foundations.

• Do not make direct applications, nor any application of this product to the ground within the drip line of any trees or shrubs used for growing fruits, nuts, vegetables or other foods. Do not apply to soil near electrical hazards.

PESTICIDE DISPOSAL AND CONTAINER HANDLING:

If empty:
• Do not puncture or incinerate! Non-refillable container. Place empty container in trash. Dispose of properly. Seeacci

STORAGE AND DISPOSAL

Do not consume unopened, partially opened or exposed Ready-to-Use® FOAM without taking the protective mask before using it. Securely close the protective mask when it is not in use.

STORAGE PESTICIDES: Store in original container. Keep away from food, spices, heated surfaces, and avoid excessive heat (>70°F). Store in a cool, dry place inaccessible to children and pets.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

Read the entire Directions for Use and Warranty before using this product. By using this product, user or buyer accepts the following warranty. The directions for use of this product are believed to be adequate for the intended use. The user or buyer must be familiar with the potential hazards and must be familiar with the control measures that may be necessary to reduce the hazards. The user or buyer is responsible for the proper use and handling of this material. Use only as directed in the Directions for Use. For a complete listing of hazards, refer to the Material Safety Data Sheet (MSDS) located on the product label and/or available from Insecticide/Insecticide

• Kills termites, wood-boring beetles, ants, and other listed pests
• Expands to a 30:1 ratio to cover those tough to reach areas
• For indoor and outdoor spot and crack and crevice treatments

ACTIVE INGREDIENTS:

Figure 1: ready-to-Use® FOAM can be used in a variety of pest control applications for subterranean termites. Interior applications to harborage areas are only for localized areas of existing or potential termite damage and must not be applied to indoor surfaces for the purposes of general pest control. Ready-to-Use® FOAM is not for use as a substitute for soil applied termite control(s) beneath slabs or foundations.

TARGETED INDOOR APPLICATIONS:

Ready-to-Use® FOAM can be made to target areas such as voids associated with termite galleries, channels, damaged wood, or exposed surfaces of structures. This is not suitable for moisture control or soil termite treatment. Ready-to-Use® FOAM is not for use as a substitute for soil applied termite control(s) beneath slabs or foundations.

NON-WOOD DESTROYING PEST TREATMENTS:

CRACKING PESTS - Ants (Including Fire Ants, Harvester, Leaf Cutters, and Millipede): To kill ants in homes or buildings, use Ready-to-Use® FOAM to fill cracks, crevices into which ants might enter, such as around floor and baseboard cavities, door and window joints, and around pipes or conduits. Ready-to-Use® FOAM can be used to target areas such as voids associated with termite galleries, channels, damaged wood, or exposed surfaces of structures. This is not suitable for moisture control or soil termite treatment. Ready-to-Use® FOAM is not for use as a substitute for soil applied termite control(s) beneath slabs or foundations.

WOOD DESTROYING PEST TREATMENTS – OUTDOORS

Exterior perimeter/localized interior

• For use in and around structures and limited outdoor spot treatments: Trees Surrounding Structures, Trees and Shrub Shaps, Landscaping Firms, Apartments, Hotels, Food/Handle Establishment (non-food/feed areas), Restaurants, Hospital and Nursing Homes (Non-patient Areas), Airports, Hotels, Motels, Hobby Greenhouses, Interiors, Offices, Buildings, Schools, Transportation Equipment (convoits, Train, Trains, Trailways), Office Buildings and Commercial Buildings. This product is for use in and around residential structures subject to termite or wood destroying insect attack.

STORING PESTICIDES: Store in original container. Keep away from food, spices, heated surfaces, and avoid excessive heat (>70°F). Store in a cool, dry place inaccessible to children and pets.
