Woodtreat® P-50L

PRESERVATIVE FOR INDUSTRIAL AND COMMERCIAL USES

KEEP OUT OF REACH OF CHILDREN

CAUTION

EPA Reg. No. 39667-121-0001
EPA Est. No. 60061-MO

Woodtreat® P-50L dilution is not required, treatment strength is varied by number of application cycles used and live speed. Rates, for all applications, vary depending on temperature, humidity, wood moisture conditions, etc. Contact your local Woodtreat® P-50L, product representative for application advice.

GENERAL USE DIRECTIONS

Woodtreat® P-50L is used in the following applications and techniques for Woodtreat® P-50L.

Sufficient mixing to ensure adequate dispersion is required. Woodtreat® P-50L, unless otherwise stated as active ingredient level, to determine in the most effective use level in a given use, is flake and tablet grades.

SAPSTAIN AND MOLD CONTROL — Woodtreat® P-50L is used to control sapstain and mold in freshly debarked logs used for log home construction, export, yarding prior to sawing a

- Woodtreat® P-50L is applied by dipping or spraying the wood until complete surface wetting is achieved. For bulk dips Woodtreat® P-50L is diluted in 100 gallons of water. Agitate vigorously until completely dispersed. For conventional sprayer systems a 2.5% to 2.75% Woodtreat® P-50L spray solution is used. For example, in a 100 gallon day tank, 0.12 to 1 gallons of Woodtreat® P-50L is added to the day tank and this mixture is applied to the total volume up to 100 gallons of solution. In electrostatic spray applications Woodtreat® P-50L dilution is not required, treatment strength is varied by number of application cycles used and live speed. Rates, for all applications, vary depending on temperature, humidity, wood moisture conditions, etc. Contact your local Woodtreat® P-50L, product representative for application advice.

Further information on safety precautions can be obtained from the Material Safety Data Sheet. Woodtreat® P-50L is not intended for application to human skin.

IF INhaled:
- Move person to fresh air.
- Call a poison control center or doctor for further information.

IF SWALLOWED:
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if mouth-to-mouth is possible. Have person sip a glass of water if able to swallow.
- Take off contaminated clothing.
- Call poison control center or label with you when calling a poison control center or doctor, or going for treatment.

NOTICE TO PHYSICIANS:
- There is no specific antidote. Induce emesis or lavage stomach. Give a saline lavative and supportive therapy.

IN CASE OF EMERGENCY:
- In case of emergency, call: Chemtrec 800-424-9300; International 703-527-3887. For pesticide-related emergencies, call your local or state Poison Control Center.

USER SAFETY REQUIREMENTS

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

This product is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, or other waters unless in accordance with all applicable Federal, State, and local regulations. Pesticide Discharge Elimination System (IPM) permit and the permitting authority has been notified in writing prior to the discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

STORAGE AND DISPOSAL

Do not contaminate water, food, or by feed storage or disposal.

PESTICIDE STORAGE: Store in original container in a cool, dry place.

PESTICIDE DISPOSAL: Pesticide wastes may be acutely hazardous. Improper disposal is a violation of federal and state laws.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment. Rinse the container with 1 US q with water. Replace and tighten closures. Tip container on its side and roll it back and forth, scrapping at least one complete revolution, for 50 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its side and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank to store rinsate for later use or disposal. Repeat this procedure two more times.

Then offer for recycling if available or put equipment and disposal of in a sanitary landfill, or by other procedures approved by state and local authorities.

Net Contents: Gallons
