**HBV, HCV and HIV-1 Precautions:** This product effectively inactivates HBV, HCV and HIV-1 on pre-cleaned environmental surfaces. This product should not be used on invasive medical devices, if such use would result in contamination of the device. Precautions to follow when using the product:

1. **Isolation:** Isolate and contain the patient.
2. **PPE:** Wear appropriate barrier protection, including gloves, gowns, masks, and eye coverings.
3. **Clean:** Clean and decontaminate the surfaces/objects prior to disinfection.
4. **Disinfect:** Disinfect the surfaces/objects and allow to remain wet for 2 minutes prior to use.

**Hazards to Humans and Domestic Animals:**

- **Inhalation:** Inhalation of the product can cause irritation to the upper respiratory tract.
- **Skin Contact:** Skin contact can cause irritation. Avoid contact with eyes, mouth, and respiratory mucous membranes.
- **Eye Contact:** Avoid contact with eyes, mouth, and respiratory mucous membranes.
- **Ingestion:** Avoid swallowing the product. If swallowed, seek immediate medical attention.

**FIRST AID:**

- **Inhalation:** If inhaled, move to fresh air. If not breathing, provide artificial respiration. If consciousness is lost, do not give anything by mouth.
- **Skin Contact:** Wash skin with soap and water. If not breathing, provide artificial respiration. If consciousness is lost, do not give anything by mouth.
- **Eye Contact:** Flush eyes with large quantities of water for 15 minutes. If not breathing, provide artificial respiration. If consciousness is lost, do not give anything by mouth.
- **Ingestion:** Do not induce vomiting. Promptly call a poison control center or doctor for treatment.

**STORAGE AND DISPOSAL:**

- **Storage:** Store at room temperature.
- **Disposal:** Discard the product in accordance with local regulations.

**PRECAUTIONARY STATEMENTS:**

- **Keep out of reach of children.**
