**DIRECTIONS FOR USE:**

It is a violation of Federal law to use this product in a manner inconsistent with the labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

**WHY YOU SHOULD USE THIS PRODUCT:**

The hth® Floater makes pool treatment convenient and easy for the on-the-go pool owner. When used as directed, this Floater provides enough chlorine to last up to four weeks. For crystal clear pool water, follow our 4-step pool care program.

**HOW TO USE:**

This product is a single-use chlorine dispenser that treats up to 20,000 gallons of water for up to 4 weeks. It sanitizes, prevents algae and stabilizes pool water. Do not allow contents of Floater to get damp or wet before use. Do not allow contents of Floater to contact other water treatment products. SIMPLY:

1. **TEAR PERFORATED EDGE.**
2. **KEEP THE LABEL FOR FUTURE REFERENCE.**
3. **PLACE THE FLOATER IN YOUR POOL.**
4. **SHOCK YOUR POOL.**
5. **ADJUST DIAL UP OR DOWN DEPENDING ON CHLORINE LEVEL NEEDED.**
6. **REPLACE FLOATER WHEN IT HAS TIPPED ON ITS SIDE.**

**REGULAR WATER TESTING IS RECOMMENDED TO INSURE PROPER CHLORINE LEVELS ARE MAINTAINED.**

**NOTE:** Do not remove from pool until Floater is completely empty and residual water drains into the pool. Make Floater ready to contact contents of Floater have completely drained before removing from pool. Do not allow Floater to an open and well-ventilated area by itself. Flood with large amounts of water.

**IN CASE OF EMERGENCY CALL:** 1-800-654-6911

Have the product container or label with you when calling a poison control center or doctor, or tell them what product you are using. Call a poison control center or doctor for further treatment advice.

**EMERGENCY HANDLING:**

In case of contamination or decomposition:

- Do not allow contents of Floater to contact other water treatment products, including other water treatment products, to cause fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from contents of Floater.
- Do not allow this product to contact other water treatment products.
- Strong oxidizing agent. This product can increase fire intensity.
- Keep away from heat or from flame and burning material (like lit a match). If breathed, provide fresh air. If inhaled, move patient to fresh air. If not breathing, call 911 or an ambulance, then give artificial respiration. Gently mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.
- Observe coughing, check pupils, and otherwise check for injury.
- Do not give anything by mouth to an unconscious person.
- Induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
- Always check and adjust total alkalinity before adjusting pH levels. Always check and adjust total alkalinity before adjusting pH levels. Test free available chlorine residual with an hth test kit or test strips. Do not enter pool until the color and slimy feeling.
- Irritation occur, after heavy wind and rainstorms, or if algae does develop with resulting green discoloration.
- When used as directed, this Floater provides enough chlorine to last up to four weeks.
- Make Floater ready to contact contents of Floater have completely drained before removing from pool. Do not allow Floater to an open and well-ventilated area by itself. Flood with large amounts of water.
- Let contents of Floater to get damp or wet before use. Do not allow contents of Floater to contact other water treatment products.

**IN CASE OF PERTURBAÇÕES DE RECORRENTE:**

- Contamination or improper use may cause severe or explosive or the release of toxic gases. Do not allow contents of Floater to contact any foreign water, including other water treatment products, if contents of Floater are exposed to small amounts of water, it may not cause explosive or the release of toxic gases. Do not re-use or re-use contents of Floater.
- Floater will also oxidize other dispersing devices from water for more than five minutes. If it contains a tablet or tablet residue, you may have to flush the Floater before re-use. Do not re-use or re-use contents of Floater.
- Floater may be fatal if inhaled or absorbed through skin. Harmful if swallowed.
- Read all precautionary and first aid statements on side panel before use.

- Contamination or improper use may cause severe or explosive or the release of toxic gases. Do not allow contents of Floater to contact any foreign water, including other water treatment products, if contents of Floater are exposed to small amounts of water, it may not cause explosive or the release of toxic gases. Do not re-use or re-use contents of Floater.
- Floater will also oxidize other dispersing devices from water for more than five minutes. If it contains a tablet or tablet residue, you may have to flush the Floater before re-use. Do not re-use or re-use contents of Floater.
- Floater may be fatal if inhaled or absorbed through skin. Harmful if swallowed.
- Read all precautionary and first aid statements on side panel before use.
EMERGENCY HANDLING:

If swallowed, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if breathing, or perform CPR if necessary.

If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if breathing.

IF ON SKIN OR CLOTHING:

Take off contaminated clothing and wash skin thoroughly with soap and water.

IF IN EYES:

Hold eye open and rinse slowly and gently with water for 15-20 minutes.

IF INHALED:

Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if breathing.

Store in a well-ventilated area. Do not breathe dust or fumes. Do not get in eyes, on skin, or on clothing. Wear protective eyeglasses, rubber gloves, and, if necessary, a respiratory protection device. Do not enter area if odor is detected.

Hazardous materials: strong oxidizing agent.

Hazardous materials: strong oxidizing agent.

WARNING: Harmful if swallowed, inhaled, or absorbed through the skin. Harmful if swallowed.

Storage & Disposal:

Keep away from heat and from flame and burning material (like a lighted cigarette). Strong oxidizing agent. This product can increase fire intensity. Do not allow contents of floater to contact other materials.

Chemical Compatibility:

Do not store with other products.

Physical and Chemical Hazards:

Strong oxidizing agent. This product can increase fire intensity.

Fire/Firefighting:

Strong oxidizing agent. This product can increase fire intensity.

Health Hazards:

Strong oxidizing agent. This product can increase fire intensity.

First Aid:

Do not remove from pool until floater is completely empty and residual water is gone! Floater may be fatal if inhaled or absorbed through skin. Harmful if swallowed.

Read all precautionary and fatal statements on the side panel before use.

Precautionary Statements:

Hazards to humans and domestic animals:

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Irritating to eyes and other areas of exposed skin. Irritating to respiratory tract. Hazardous when splashed against eyes. Do not breathe dust or fumes. May cause allergic and/or irritant dermatitis. Do not inhale vapors or dusts. Avoid contact with eyes. Keep out of reach of children.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with the labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

 HOW TO USE:

This product is a single-use chlorine dispenser that treats up to 20,000 gallons of water for up to 4 weeks. It sanitizes, prevents algae and stabilizes pool water. Do not allow contents of floater to come in contact with other water treatment products. Simply:

1. TEAR PERFORATED EDGE.
2. PLACE THE FLOATER IN YOUR POOL.
3. SHOCK YOUR POOL.
4. REPLACE FLOATER WHEN IT HAS TIPPED ON ITS SIDE.

REGULAR WATER TESTING IS RECOMMENDED TO INSURE PROPER CHLORINE LEVELS ARE MAINTAINED.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with the labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

 WHY SHOULD I USE THIS PRODUCT?:

The hth® floater makes pool treatment convenient and easy for the on-the-go pool owner.

WHAT TO USE IT FOR:

This floater provides enough chlorine to last up to four weeks. For crystal clear pool water, follow our hth® step 4 pool care program:

Step 1: Test and adjust pool water balance.
Step 2: Sanitize.
Step 3: Shock.
Step 4: Add algicide regularly.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Harmful if swallowed. Irritating to eyes and other areas of exposed skin. Irritating to respiratory tract. Hazardous when splashed against eyes. Do not breathe dust or fumes. May cause allergic and/or irritant dermatitis. Do not inhale vapors or dusts. Avoid contact with eyes. Keep out of reach of children.

This product is a single-use chlorine dispenser that treats up to 20,000 gallons of water for up to 4 weeks. It sanitizes, prevents algae and stabilizes pool water. Do not allow contents of floater to come in contact with other water treatment products. Simply:

1. TEAR PERFORATED EDGE.
2. PLACE THE FLOATER IN YOUR POOL.
3. SHOCK YOUR POOL.
EMERGENCY HANDLING:

IF INHALED:
Do not remove the hth® floater or other dispensing device from water until the floater is completely empty and residual water drains into the pool. Shake the floater gently to ensure contents have completely drained into the pool. Call a poison control center or doctor for further treatment advice.

IF INGESTED:
Do not induce vomiting. Give 1-2 glasses of water. Call a poison control center or doctor for further treatment advice.

IF CONTACTED WITH THE SKIN:
Remove contaminated clothing. Wash skin with plenty of soap and water. Call a poison control center or doctor for further treatment advice.

IF CONTACTED WITH THE EYES:
Rinse eyes thoroughly with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

IF EXPOSED TO THE SKIN:
Wash skin with soap and water. Call a poison control center or doctor for further treatment advice.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

NOTE TO PHYSICIAN:
Probable mucosal damage may contradict the use of gastric lavage. 

NOTES:

CONTENTS OF THIS PRODUCT ARE COMBUSTIBLE.
Do not leave contents of floater exposed to external heat or open flame. Keep contents dry before use. 

STORAGE & DISPOSAL:

This pesticide is toxic to fish and aquatic organisms. Strong oxidizing agent. This product can increase fire intensity.

• Keep all foreign matter, including other water treatment products, away from contents of floater.
• Do not remove floater from pool water.
• Do not allow contents of floater to become wet or damp before use.
• Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS:

This pesticide is toxic to fish and aquatic organisms.

Single-Use Floater

Sanitizes for brilliantly clear water
Sun resistant for longer chlorine life
Adjustable dial to treat your pool size

ACTIVE INGREDIENT:
Trichloro-s-triazinetrione .................................... 99%

OTHER INGREDIENTS: ......................................... 1%

TOTAL: ...................................................................... 100%

Available Chlorine ............ 90%

HOW TO USE:

1. Test and adjust pool water balance, Step 2: Sanitize,
2. Apply shock treatment if necessary, Step 3: Balance
3.-shock and adjust pool water balance, Step 4: Add shock regularly

WHY YOU SHOULD USE THIS PRODUCT:
This product is a single-use chlorine dispenser that treats up to 20,000 gallons of water for up to 4 weeks. It sanitizes, prevents algae and stabilizes pool water. Do not allow contents of floater to get damp or wet before use. Do not allow contents of floater to contact other water treatment products.

DIRECTIONS FOR USE:
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

HOW TO USE:

1. Open in a well-ventilated area. Do not breathe dust or fumes. • Do not get in eyes, on skin, or on clothing. • Wear protective rubber gloves when handling this product. • Do not apply to swimming pool surface coating or pool lining. • Do not apply near to the pool's circulation and filtration system.
