Active Ingredient: benzyl ammonium chloride 8.90% 

Other Ingredients:

Disinfection (1:256)……………………..1/2 oz. per gallon of water

10 MINUTE CONTACT TIME: Legionella pneumophilia, *SARS Associated Coronavirus.

1 MINUTE CONTACT TIME: *HIV-1, *Influenza Type A / Hong Kong.

Q.T. 3 is a one-step, broad spectrum hospital surface disinfectant according to the AOAC Test/Method for use in institutional environments, surface method wet-test inoculated with the presence of 1000 CFU and tested plus its active minor

STORAGE AND DISPOSAL

Do not contaminate water sources during disposal. Place inside product box and dispose of according to local regulations for infectious waste disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Management Program for the proper method of disposal. See side panels for Precautionary Statements.

KEEP OUT OF REACH OF CHILDREN
