**This product is designed, cleans, and deodorizes hard, nonporous environmental surfaces in one step with no rinsing required. This product is a one-step disinfectant, germicidal disinfectant and deodorizer designed for general cleaning, disinfecting and deodorizing of hard, nonporous surfaces.

This product can be used in the following areas: health care settings, long term care facilities, public care areas, waiting rooms, athletic facilities, day care centers, educational facilities, health labs, hotels, public areas, public restrooms, retail and wholesale establishments, schools, shopping centers, spas, sports facilities, and universities.

It is designed for use on hard, non-porous inanimate surfaces associated with high-touch including: bathroom fixtures, computer mouse, keyboards, peripherals, screens, stalls, countertops, door handles, hand, non-porous surfaces of furniture, lockers, mobile workstations, showers, sinks, tables, telephones, or any hard non-porous washable surfaces where disinfection is required. Compatible with chrome, ceramic, stainless steel, porcelain, laminate, and tile. Do not use on glass, onions, and adhesives.

In addition, this product will deodorize those areas that are generally hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and carts, and any other areas that are prone to odors caused by microorganisms.

Test: Prior to use on electrical equipment or components, please refer to manufacturer’s instructions for appropriate use.

**DIRECTIIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Not recommended for use on brass or copper.

When used as directed, this product is highly effective against a wide variety of pathogenic microorganisms. Using approved ABCR test methods, in the presence of 5% serum and 5 minute contact time, unless otherwise noted, this product kills the following on hard non-porous inanimate surfaces:

**Bacteria:** Pseudomonas aeruginosa (ATCC 15442), Staphylococcus aureus (ATCC 6538), Salmonella enterica formerly known as Salmonella typhimurium (ATCC 10315), Acinetobacter baumannii, Escherichia coli O157:H7, Pseudomonas aeruginosa, Listeria monocytogenes Antimicrobial-Resistant Bacteria:

Enterococcus faecalis, Vancomycin Resistant (VRE), Staphylococcus aureus, Methicillin Resistant (MRSA)<br>YEASTS:

"Albicans Type V**, *Cryptococcus neoformans*, *Candida albicans*, *Candida glabrata*, *Candida parapsilosis*, *Candida tropicalis*, *Saccharomyces cerevisiae*<br>

**Viruses:**

*Adenovirus Type 1**, *Hepatitis B Virus (HBV)*, *Hepatitis C Virus* (HCV), *HIV-1 Virus (HIV)*, *Hepatitis A Virus* (HAV), *Norovirus* Gastroenteritis Virus, *Rotavirus* (ATCC 33297), *Rhinovirus* Type 37, *Rhinovirus* Type 16

**Non-Food Contact Sanitizer for hard non-porous surfaces in the presence of use and 20 second contact times:**

*Acinetobacter baumanii, Escherichia coli O157:H7, Salmonella enterica formerly known as Salmonella typhimurium, Staphylococcus aureus, Pseudomonas aeruginosa*<br>

For use as a one-step Cleaner/Disinfectant:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from hard, non-porous surfaces until thoroughly wet.
3. Allow product to penetrate and remain wet for 5 minutes.
4. Wipe surfaces dry or rinse. If wiping is observed, wash with clean cloth or paper towel. Allow to air dry.

**CAUTION - HAZARDS:** This product is toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.

**PESTICIDE STORAGE:** Store in original container in areas inaccessible to children. Keep securely closed.

**PESTICIDE DISPOSAL:** Waste resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. For more information on the disposal of unused, unwanted product and the clean up of spills, contact the EPA Regional Office of the Manufacturer for guidance.

**CONTAINER HANDLING:** Non-refillable container. Do not reuse or refill empty container. Wash and put to trash or offer for recycling, if available.

**ENVIRONMENTAL HAZARDS:** This product is toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.

When used as directed, this product is highly effective against a wide variety of pathogenic microorganisms. Using approved AOAC test methods, in the presence of 5% serum load and 5 minute contact time, unless otherwise noted, this product kills the following on hard nonporous inanimate surfaces:

**Bacteria:**
- Pseudomonas aeruginosa (ATCC 15442)
- Staphylococcus aureus (ATCC 6538)
- Salmonella enterica (formerly known as Salmonella choleraesuis) (ATCC 10708)

**Antibiotic-Resistant Bacteria:**
- Enterococcus faecium, Vancomycin Resistant (VRE) (ATCC 51559)
- Staphylococcus aureus, Methicillin Resistant (MRSA) (ATCC 33591)

**Viruses (Virucidal against):**
- *Adenovirus Type 5 (ATCC VR-1)*
- *Human Immunodeficiency Virus Type 1 (HIV-1) (AIDS Virus)*
- *Influenza A Virus (H1N1)*
- *Respiratory Syncytial Virus (RSV) (ATCC VR-26)*
- *Norovirus (Feline Calicivirus, as the surrogate)*
- *Rotavirus (Strain NIH) (ATCC VR-2018)*

**Animal Viruses:**
- *Asian Influenza A Virus*
- *Marine Norovirus (MMV)*
- *Feline Calicivirus (ATCC VR-782)*

This product has demonstrated effectiveness against Influenza A virus and is expected to inactivate all Influenza A viruses including Pandemic 2009 H1N1.

**Animal Housing Facilities (Including Veterinary Clinics, Farms and Poultry Houses):**

For cleaning and disinfecting the following hard nonporous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all animals and feeds from premises, animal transportation vehicles, crates, etc.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including barns, pens, stalls, chutes, and barns) occupied or traversed by animals.
3. Empty (or cover) all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with potable water.
5. Saturate all surfaces (floors, walls, cages and other washable hard, non-porous environmental surfaces) by spraying with solution until (thoroughly) wet. To disinfect, all surfaces must remain wet for 5 minutes.
6. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure.
7. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.
8. For disinfection of feed racks, troughs, automatic feeders, fountains and water appliances (waterers) spray with solution (until completely wet) and let stand for 5 minutes. Then thoroughly scrub all treated surfaces with soap or detergent, and rinse with potable water before reuse.

See the container label for use directions and additional required information for use, storage and disposal.
