DIRECTIONS FOR USE

TO USE THE LIGHT:

1. Place product upwind for maximum effectiveness, or use as a personal repellent. Do not use indoors, in air or in an enclosed area. Do not install anything other than the standard Thermacell® lantern. Do not mix with aerosol or repellant mats.

2. If there is still no orange light visible, make sure the fuel cartridge is completely inserted and replace with a new one. Repeat “Turn On” directions. Confirm the orange glow is visible.

3. Check the amount of fuel in the interior chamber. If empty or near empty, remove cartridge and replace with a new one. Repeat “Turn On” directions. Confirm the orange glow is visible.

4. If cartridge is partly filled, rotate the cartridge to the right until the indicator line points to “START”. You should hear a clicking noise. Pry battery with any instrument or tool or put in a new Thermacell® cartridge. Then repeat steps 3-5.

5. To verify that the mosquito repellent is activated, look at the oval view hole located on the lantern. An orange light will glow. If there is no orange light, look at the oval view hole and repeat “Turn On” directions. Confirm the orange glow is visible.

6. If there is still no orange light visible in the view hole, make sure the fuel cartridge is completely inserted and replace with a new Thermacell® lantern. Repeat steps 3-5.

7. When finished using the lantern, rotate the lantern counterclockwise to the left until the indicator line points to “OFF”. Allow lantern to cool before disposing of equipment. Store batteries in cool, dry place away from heat or open flame. Do not mix with aerosol or repellant mats.

8. Pour any remaining liquid to induce vomiting unless told to do so by a poison control center or doctor immediately for treatment advice. Do not give any solid food until vomiting has stopped. Call your poison control center or doctor for treatment advice.

9. If Swallowed: Call your poison control center or doctor immediately for treatment advice. Do not give any solid food until vomiting has stopped. Call your poison control center or doctor for treatment advice.

10. In Eyes: Hold open and rinse slowly and thoroughly with plenty of water for 15-20 minutes. Remove any contact lenses, if present after the first 5 minutes. Call your poison control center or doctor for treatment advice.

11. For unwanted mosquito repellent:

- Call customer service at 1-866-753-3837 or Email: Service@thermacell.com.
- To the extent applicable by law, seller will not be liable for damages or injuries caused by the misuse or abuse of this product.

12. If you do not see an orange glow through the view hole, make sure the fuel cartridge is completely inserted and replace with a new one. Repeat “Turn On” directions. Confirm the orange glow is visible.
