The Protec Cleaning Ball features Aquastat®, which helps keep your humidifier cleaner, longer. Simply drop in the tank for fresh, clean mist!

Humidifier tanks hold water which is an ideal breeding ground for microorganisms. This can cause odor and buildup, and may require more frequent cleaning. The Protec Cleaning Ball:

- Offers continuous protection against slimy buildup in the humidifier
- Contains no harmful chemicals
- Keeps cleaning for 30 days

Why use a Protec Cleaning Ball?
- Reduces up to 99% of odor causing bacteria, unsightly mold and algae growth versus untreated humidifier surfaces.

Directions for Use:

1. Drop one (1) Protec Cleaning Ball into the humidifier tank. Use one ball for up to two (2) gallons of water.
2. Fill tank with fresh water.
3. Operate humidifier according to the manufacturer’s directions and replace the Protec Cleaning Ball after 30 days of use.

Storage & Disposal:
- Do not contaminate water, food or feed by storage and disposal. Nonrefillable container.
- Do not reuse or refill this container.
- Pesticide Storage: Do not store in areas accessible to children. Keep product dry during storage.
- Pesticide Disposal: Do not reuse empty cartridge. Securely wrap cartridge in several layers of newspaper and discard in trash. Container Disposal: Securely wrap outer carton in several layers of newspaper and discard in trash or offer for recycling, if available.
