DAC-QM
A Wood Treatment Preservative

ACTIVE INGREDIENT:
Didecyl Dimethyl Ammonium Chloride
50.0%
INERT INGREDIENTS: .................................. 50.0%
TOTAL ................................................. 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO
SEE LEFT PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

PELIGRO: SI NO PUEDE LEER EN INGLES, PREGUNTE A SU SUSPENDER SOBRE LAS INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCTO.

DANGER: IF YOU CANNOT READ ENGLISH, ASK YOUR SUPERVISOR TO EXPLAIN THE APPROPRIATE DIRECTIONS FOR USE BEFORE WORKING WITH THIS PRODUCT.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for at least 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison center control center or doctor immediately for treatment advice. Have the product container or label with you when calling a poison control center or doctor. Do not give anything by mouth to an unconscious person. If inhaled, move person to fresh air. If person is not breathing, call 911 or an ambulance, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contaminate the use of gastric lavage.

This product is a concentrated biocide for use as a wood preservative. When used as directed, this product will protect treated wood articles from the destructive attack of fungi, mold, mildew and both Reisicularies and Fomesanus species of termites. Treatment can be done by pressure. Wood articles that will be protected by these treatments would include millwork, construction timbers, decking, wood shingles, posts and other articles to be used in above ground applications.

DIRECTIONS FOR USE
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

This product can be used in combination with other EPA registered organic and inorganic wood preservatives or it can be used alone.

DAC-QM AND COPPER COMPOUNDS
Mix this product with water and either NW 100-C (EPA Reg. No. 3008-87), or NW 200-C (EPA Reg. No. 3008-89). Refer to the product labels for NW 100-C and NW 200-C for precise mixing instructions. This product is only for use in combination with copper compounds in pressure treatment applications.

PRESSURE TREATMENT
Place the wood article to be treated into the pressure cylinder and seal unit. Treat the wood articles using the pressure treatment procedures consistent with the equipment being used and standard treatment practices. Treatment conditions must be such as to produce a 0.6 lb./cu. foot retention in the treatment article. Such treated wood is to be used for above ground uses only.

PERSONAL PROTECTION EQUIPMENT FOR PRESSURE TREATMENT
Applicators must wear gloves, which are chemical-resistant such as nitrile or butyl in all situations where direct contact is expected i.e. handling freshly treated wood and manually opening cylinder doors. Individuals who enter pressure treatment cylinders and other related equipment that are contaminated with the wood treatment solution e.g. cylinders that are in operation or are not free of all treatment solution must wear coveralls, overalls, long pants and long sleeves, chemical-resistant footwear, and protective eyewear. Federal, State and local confined space entry programs must be taken.

Applicators must not eat, drink or use tobacco products during those parts of the applications that may expose them to the wood treatment formulation e.g. manually opening/closing cylinder doors, moving tanks out of cylinders, mixing chemicals, handling freshly treated wood. Wash thoroughly after skin contact and before eating, drinking, use of tobacco products or using restrooms.

Protective clothing must be changed when it shows signs of contamination. Applicators must leave protective clothing when entering showers or boots and equipment at the plant. Work such protective clothing and work shoes or boots must be left at the plant and disposed of in a manner approved for pesticide disposal and in accordance with State and Federal regulations.
