PRODUCT INFORMATION
Advecta®3 for Dogs kills existing fleas on dogs within 12 hours. Reinfesting fleas are killed within 2 hours with protection against further flea infestation lasting at least four (4) weeks. Under normal conditions the product remains effective for a month. In case of severe pest control, please return to a monthly schedule.

Pre-existing pupae in the environment may continue to emerge for six (6) weeks or longer. Advecta®3 for Dogs kills lice within 8 hours. For effective control of dog fleas, it is necessary to control and treat the environment. Under normal conditions, fleas and lice may reduce the incidence of this condition.

Under normal conditions the product remains effective for a month. In case of severe pest control, please return to a monthly schedule.

Do not allow your dog to ingest this product.
