**Hazards to Domestic Animals**

For external use on dogs only. Do not use on other animals. Do not use on puppies under 8 weeks of age or weighing less than 5 pounds. Do not use this product in dogs over 3 months. To avoid any adverse reactions to this product, consult your veterinarian before using this product in animals on the list of drugs, aged, pregnant or nursing animals, or animals with unusual sensitivity to insecticides. If your animal is an allergy or becomes more severe, consult a veterinarian immediately. Do not use in a carrier, wash or water the animal while using this product or any other product. Do not wash or washout water when disposing of product or packaging.

**Environmental Hazards**

This product is extremely toxic to aquatic organisms, including fish and invertebrates. Do not add directly to water. Do not contaminate water when disposing of product or packaging.

**Side Effects:**

Monitor your dog after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Sensitivity signs such as vomiting or diarrhea have also been reported. If these or other side effects (such as lethargy or agitation) occur, consult your veterinarian or call 1-800-846-4375.

**First Aid**

**If in Eyes:**
- Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

**If Swallowed:**
- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

**Hotline Number**

Call the product manufacturer or label them when calling a poison control center or doctor, or going for treatment. For medical emergencies call 1-855-846-4375. For consumer questions, call 1-800-846-4375.

**Note to Physician**

Treat the patient symptomatically.

**Directions for Use**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not contaminate food or food.

**How to Open**

Repeat steps 1 to 3 for each applicator:

1. Tear through perforation.
2. Fold back the safety seal.
3. Cut with scissors to open applicator.
HOW TO APPLY
1. Prepare applicator as shown in "How to Open."  
2. Apply the entire contents of the applicator onto three or four spots on the top of the back of the dog from the shoulder to the base of the tail as shown.

At each application site part the hair of the dog until the skin is visible. Place tip of the applicator on the skin and gently squeeze to apply solution on the skin. Do not apply an amount of solution at any one spot that could cause some of the solution to run off the sides of the dog. Keep solution out of your dog's eyes and do not allow your dog to ingest this product.

3. Oxendine®Max applicator and packaging as described in the Storage and Disposal section.
4. Under normal conditions, the product remains effective for a month. In case of severe flea infestations, retreatment may be necessary earlier than one month. Do not apply Oxendine®Max for dogs more often than once every seven (7) days. Once flea control is estimated, return to a monthly application schedule.
