For use as a precleaning decontaminant spray:

Place 3Z directly onto precleaned surface, thoroughly wetting area to be treated. Allow surface to remain visibly wet for 3 minutes at room temperature (68°F-70°F). For use as a disinfectant on non-instrument surfaces: Spray 3Z directly onto precleaned surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 3 minutes at room temperature (68°F-70°F) for Tuberculocidal activity and effectiveness against Staphylococcus aureus. Precautionary statements: 3Z effectively cleans and disinfects, when used as directed, the work surfaces, and use sites listed on this label consisting of non-porous vinyl, stainless steel, painted surfaces, Plexiglas, Formica® and glass.

CAUTION

This is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For precleanning non-instrument surfaces prior to disinfection: Remove gross filth and heavy soil loads. Spray 3Z directly onto surface. Allow to remain visibly wet for 30 seconds. Wipe surface using a towel. For precleanning instruments prior to disinfection: Remove gross filth and heavy soil loads. For use as a precleaning decontaminant spray: Place instruments in a container. Spray 3Z so as to thoroughly drench all instrument surfaces and allow to remain visibly wet for 30 seconds. Remove and rinse instruments. Follow with appropriate cleaning and disinfection process.

EFFECTIVE AGAINST:

Mycobacterium tuberculosis var.: bovis (BCG)**
Staphylococcus aureus
Pseudomonas aeruginosa
Salmonella enterica
Trichophyton mentagrophytes
Methodic Resistant Staphylococcus aureus (MRSA)
Vancomycin Resistant Enterococcus faecalis (VRE)
Hepatitis B Virus (HBV)*
Hepatitis C Virus (HCV)*
Hepatitis E Virus (HEV)*
Human Immunodeficiency Virus (HIV-1)**

description

3Z is a multi-purpose disinfectant/decontaminant cleaner for non-critical medical devices, instruments and implements including HIV-1, HBV and HCV applications. Instruments must be thoroughly cleaned to remove excess organic debris, rinsed and dried. Thoroughly clean and rinse lumens of hollow instruments. Using either a tray or an ultrasonic unit, immerse instruments in a container. Spray 3Z for 3 minutes at room temperature (68°F-70°F). For use as a disinfectant on non-instrument surfaces: Spray 3Z directly onto precleaned surface, thoroughly wetting area to be disinfection. Allow surface to remain visibly wet for 3 minutes at room temperature (68°F-70°F). For use as a disinfectant on non-instrument surfaces: Spray 3Z directly onto precleaned surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 3 minutes at room temperature (68°F-70°F). For use as a disinfectant on non-instrument surfaces: Spray 3Z directly onto precleaned surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 3 minutes at room temperature (68°F-70°F). For use as a disinfectant on non-instrument surfaces: Spray 3Z directly onto precleaned surface, thoroughly wetting area to be disinfected. Allow surface to remain visibly wet for 3 minutes at room temperature (68°F-70°F).

Infectious Materials Disposal:

Waste resulting from the use of this product may be disposed of according to applicable Federal, State, or local procedures.

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

For use as a precleaning decontaminant spray:

Place instruments in a container. Spray 3Z so as to thoroughly drench all instrument surfaces and allow to remain visibly wet for 30 seconds. Remove and rinse instruments. Follow with appropriate cleaning and disinfection process.

For use as a disinfectant on non-instrument surfaces, including HIV-1, HBV and HCV applications:

Surface Disinfectant/Decontaminant Cleaner

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION

Harmful if absorbed through skin. Causes moderate eye irritation.

Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse. See other panel for additional precautionary statements.
