STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage or disposal.
For Industrial and Commercial Use Packages:

Pesticide Storage: Store in a closed dark place; container in a cool, dry area away from heat and sunlight. Do not store near easily oxidizable materials, seeds and reducers. In case of spill, water container if possible and flood area with water to dissolve all material before discarding the container in trash.

Emergency Handling: In case of contamination or dermal contact, do not wash container, rinse in water, well ventilated area. Flood with large amounts of water. Cool Unbioaccumulative container in water, by water flow.

Pesticide Disposal: Pesticide wastes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility. Improper disposal of excess pesticide, spray mixture or waste is a violation of Federal Law. If these wastes cannot be disposed of by use, according to label instructions, contact your State Pesticide or Environment Control Agency, or the Hazardous Waste Representative at the EPA Region Office for guidance.

Container Handling: Non-refillable rigid container. Do not reuse or refill this container. Triple rinse container at least 3 times, or equivalent, promptly after emptying. Triple rinse as follows: Empty the remaining contents into the application equipment or a 55-gal drum and drain for 10 seconds after the flow begins to drip. Fill the container with water and recap. Shake for 10 seconds. Pour rinsate containing into the application equipment or a 55-gal drum or other rinse material for use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure 5 times. Then turn to recycle or recondition it available for sale, if conditionally available for sale and capable of being sold in the ordinary market. If available, it can be sold for use as an ordinary market.

Dosage

PEHUR® DISINFECTANT

ACTIVE INGREDIENT
Hypochlorous Acid 100,000,000% OTHER INGREDIENTS
TOTAL

Content: >275ppm Free Available Chlorine (FAC)
Net Content: 2, 16, 32 FL Ounces

KEEP OUT OF REACH OF CHILDREN
CAUTION
SEE PRECAUTIONARY STATEMENTS

PRECAUTIONARY STATEMENTS
Physical or Chemical Hazards: pHur® Disinfector is not compatible with other chemicals such as acids and hydrogen peroxide.

Hazards to Humans and Domestic Animals
CAUTION
Causes moderate eye irritation. Avoid contact with eyes. When handling this product, wear safety glasses or goggles. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

FIRST AID Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center, doctor or going for treatment. You may also contact the National Poison Information Center (NPRC) 1-800-658-0778 for emergency medical treatment information.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.

PHUR® DISINFECTANT

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Hard, Non-Porous Surface Disinfection

To clean, disinfect and deodorize hard, non-porous surfaces for heavily soiled areas, a preliminary cleaning is required. "Wipe, spray or dip pHur® Disinfector to hard, non-porous surfaces with a cloth, wipe, mop, squeegee or sponge. Treated surfaces must remain wet for 10 minutes. Allow surfaces to air dry. Do not use on attics, gleams or dishes.

This product is not to be used in a manner that will cause a high level of disinfectant on any surface or instrument that is introduced directly into the human body or at contact. This product may cause mercuric which does not only interfere with the absorption or absorption of normally sterile areas of the body. This product may be used to clean and deodorize or prevent the spread of germs or objects (e.g. hands, tools, or other contact devices) prior to sterilization or high level disinfection.

Pathogen
Pseudomonas aeruginosa
Staphylococcus aureus
Salmonella enterica

pHUR® Disinfector is a Hypochlorous Acid solution produced by passive means using chlorine dioxide through ferrocyanide, a yellow, dry, non-hazardous reagent. pHUR® Disinfector is a powerful oxidizing agent suitable for disinfecting most surfaces.

pHUR® Disinfector is produced at a neutral pH (approximately 5.5) through the use of a proprietary process. It is a colorless, odorless solution with a slight chlorine or ozone odor.

After production, pHUR® Disinfector must be used within 30 days after production. OR must be kept with Chlorine Test Kit, provided by Aquadix, Inc. pHUR® Disinfector must be kept in a cool and dark area away from direct sunlight.
