Hot Tub Water Care System
The Simple Maintenance Solution

Hot Tub Water Care System
Kit Contents:
- (2) 2 Liter bottles AquaFinesse® liquid
- Measurement Cup (for AquaFinesse® liquid)
- Slow release dispenser (for Mini Tab sanitizer)
- User Manual

Chlorinating Tablets - NET CONTENTS: 14oz
(EPA Reg. No. 69470-26-75217)

ACTIVE INGREDIENTS:

TRICHLOROETHYLENE .......................................................... 99%
OTHER INGREDIENTS: .......................................................... 1%
TOTAL..............................................................................100%

Available Chlorine: ......................................................... 90%

KEEP OUT OF REACH OF CHILDREN
DANGER

See back panel for additional precautionary statements and first aid. See back panel and individual containers for complete product labels. Read entire label of each product.
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER: CORROSIVE. CAUSES IRREVERSIBLE EYE DAMAGE. MAY BE FATAL IF INHALED. HARMFUL IF SWALLOWED.

Do not breathe dust or spray mist. Irritating to nose and throat. Do not get in eyes, on skin, or on clothing. Wear protective eye wear (goggles or face shield), protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or going to the toilet. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Do not mix with other chemicals. Mix with water only. Use only clear dry chlorine. Contact with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, evolution of toxic gases and possible generation of fire and explosion. Avoid any contact with plumbing or building material such as a lighted cigarette. Do not use this product in any chlorinating device which has been used with any inorganic or unactivated chlorine compounds (e.g. calcium hypochlorite). Such use may cause fire or explosion.

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

SPA AND HOT TUBS
This product is intended for use in controlling bacteria in spas, hot tubs, Hubbard, immersion and hyperthermic tanks. This product is also highly effective in controlling and destroying algae in outdoor spas and hot tubs. This slow dissolving product is to be used in a suitable chlorinating device. DO NOT add directly to the spa water.

STORAGE AND DISPOSAL:
Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a dry, cool and well-ventilated area. Avoid moisture getting into container. Keep off wet floors. In case of spillage, wash with large amounts of water. After each use, keep container tightly closed. Oxidizing material. Keep away from flames, sparks and all sources of heat. Avoid contact with organic material.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Nonmetallic container. Do not reseal or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling, if available. EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container. If possible, isolate Container in open, well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

SPLASH:
When handling or dealing with spills, use goggles, protective clothing, including chemical resistant gloves and boots; use a dust respirator if dusting occurs. Sweep up dry spills and dispose of as described for pesticide disposal. If contents are contaminated or decomposing, do not reseal container. Isolate sealed container in open, well-ventilated area. Flood with large volumes of water if necessary.

FIRST AID

IF IN EYES: Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance. If breathing is normal, give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call poison control center or doctor immediately for treatment advice. Give person a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center, doctor, or when going for treatment.

YOU MAY ALSO CONTACT 1-800-222-1222 FOR EMERGENCY MEDICAL TREATMENT INFORMATION.

NOTE TO PHYSICIAN:
Probable medical emergency may occur as a result of gastric lavage.

WARRANTY
Seller warrants that this product conforms to its written description and is reasonable fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use, but to the extent consistent with applicable law, neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal condition, or under conditions not reasonably foreseeable to Seller, and Buyer assumes the risk of any such use.

SPA AND HOT TUB DISINFECTION:
Start on: Before using this product, make sure that the filtration system is clean and operating properly. Adjust the pH of the water to the range of 7.2 – 7.6 and the alkalinity of the water to a minimum of 125 ppm (mg/L) using suitable test kit readings. For example, the addition of one ounce of sodium dichloro-triazinetrione per 1,000 gallons (17.5 grams per 100 liters) of water will increase the available chlorine by 5 ppm (mg/L).

Shock Treatment: After each use, the water must be shocked or superchlorinated. Add a sufficient amount of an appropriate shock product directly to the surface of circulating water to raise the available chlorine level 5-6 ppm (mg/L), based on test kit readings. For example, the addition of one ounce of sodium dichloro-triazinetrione per 1,000 gallons (0.75 grams per 100 liters) of water will increase the available chlorine by 5 ppm (mg/L). If the combined chlorine reading is not below 0.5 ppm (mg/L) and the water has not been shocked to its normal clarity level, the shock treatment described above. Combined chlorine is the difference between total and free chlorine as measured by a suitable test kit.

MAINTENANCE TREATMENT: Add this product to the feeder (or chlorinating device). Adjust the feeder to maintain the free available chlorine level in the water at 2-6 ppm (mg/L), as indicated by a reliable test kit. Periodically verify feeding device with enough tablets to assure a constant treatment level of 3-6 ppm (mg/L) available chlorine. Water and usage effect sanitizer levels. In addition, soap oils, lotions, fragrances, cleansers, etc. may cause foaming or cloudy water as well as reduce the efficiency of this product. Maintain the pH at 7.2-7.6 and the alkalinity at a minimum of 125 ppm (mg/L). When the total dissolved solid (TDS) reaches 3000 ppm (mg/L) or whenever the water becomes difficult to manage, the water should be drained and the spa/ht tub thoroughly cleaned before adding fresh water.
Clean and Simple Water Care

AquaFinesse® takes the work out of Spa Care leaving more time to enjoy the comfort and benefits of Spa Ownership.

- Keeps water levels balanced with no daily measuring and adjustments*
- One box contains everything you need for 3-5 months*
- AquaFinesse® liquid prolongs life of spa equipment
- AquaFinesse® liquid is an environmentally friendly formula

*(may vary in certain cases)
