

**Sanitization of Porous Food Contact Surfaces**

- **Precautionary Statements**: Strong oxidizing agent. Corrosive; may cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated. This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

- **Physical or Chemical Hazards**: Strong oxidizing agent.

- **Environmental Hazards**: This product is toxic to fish and aquatic organisms.

- **Directions for Use**: Do not rinse and do not soak equipment overnight. Sanitizers used in automated systems may be used for general cleaning, but rinsing with a 200 ppm solution to control bacteriophage. Prepare a 200 ppm sanitizing solution of sufficient size by thoroughly mixing the product in a ratio of 7.7 oz. product with 10 gallons of water. Do not rinse equipment with water after treatment. Sanitizers used in automated systems may be used for general cleaning, but rinsing with a 200 ppm solution to control bacteriophage. Prepare a 200 ppm sanitizing solution of sufficient size by thoroughly mixing the product in a ratio of 7.7 oz. product with 10 gallons of water. Do not rinse equipment with water after treatment.

- **FIRST AID**

- If In Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

- If Swallowed: Immediately call a poison control center or doctor for treatment advice. Have person sip a glass of water unless persons are too ill to swallow liquids.

- Give anything by mouth to an unconscious person. If you give anything by mouth to an unconscious person, you may also contact 1-800-222-1222 for emergency medical treatment information.

- **Storage and Disposal**

- Do not contaminate food by feed by storage, disposal or cleaning of equipment.

- **Sanitizer Test Kit**: A sanitation test kit is available, prepared a sanitizing solution by thoroughly mixing 2.6 oz. of this product with 10 gallons of water to provide approximately 200 ppm available chlorine by weight. Clean equipment surfaces in the normal manner. Prior to use, thoroughly rinse all surfaces with the sanitizing solution, allowing excess sanitizer to drain. Thoroughly spray or fog all surfaces until wet, allowing excess sanitizer to drain. Vacate area for at least 2 hours. Prior to using equipment, rinse all surfaces with a 200 ppm solution available chlorine. Prepare a 200 ppm sanitizing solution by thoroughly mixing 0.2 oz. of this product with 10 gallons of water.

- **Active Ingredients**: Sodium hypochlorite 10%

- **Other Ingredients**: 90%

- **Total**: 100%

- **UNHTH**: Hypochlorite Solution, 8 Commercial, PG II

- **Net Contents**: 1 gallon (3.78 L)
