For use only on hard, non-porous surfaces

**DIRECTIONS:**

**Disinfection, Deodorization and Cleaning**

1. **Shake Can Well** before and during use.
2. For easy spraying, spray area until it is covered with a white foam. To disinfect, allow foam to penetrate and remain wet for 5 minutes. To only clean surface wipe foam away after 2 to 3 minutes.
3. Wipe-off with cloth or sponge.
4. For heavily soiled areas, remove heavy soil or gross filth before treatment.

**To Sanitize**

- Spray on non-porous surfaces until entire area is thoroughly covered with a white foam, allow foam to remain wet for 5 minutes before wiping. Remove heavy soil or gross filth prior to sanitation.

**Bathroom Cleaner**

- Apply bacteria on hard, non-porous surfaces, spray surface until it is completely covered in foam. Let stand for 5 minutes, then wipe clean.

**Metal and Mildewstat**

- To control mold and mildew on pre-cleaned, hard, non-porous surfaces, apply Mold and Mildewstat in a completely covered in foam. Let air dry. Repeat applications at weekly intervals or when mold growth reappears.
