**WARNING:** Harmful if inhaled or absorbed through skin. Causes moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wear appropriate personal protective equipment based on safe work practices. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Pesticide drift is possible when spraying, so take steps to prevent contamination of people, pets and property. Cover appropriately sized container with a sufficient amount of this product to appropriately fill container. Do not use if container is damaged or tampered with. Do not contaminate soil, water, or surface or ground water sources. When cleaning or deodorizing equipment, do not mix with products containing chlorinated solvents or perchloroethylene (perc). These products may create toxic gases when mixed. Refer to label directions for additional disposal instructions specific to this product.

**PRECAUTIONARY STATEMENTS**

**Hazard to Humans and Domestic Animals**

This product kills the following bacteria in 3 minutes on pre-cleaned hard, non-porous surfaces at room temperature when used as directed:

- 

Streptococcus equi
- 

Bordetella bronchiseptica

This product kills the following viruses in 3 minutes on pre-cleaned hard, non-porous surfaces at room temperature when used as directed:

- 

Bovine Viral Diarrhea
- 

Hepatitis C Virus

Veterinary/Pet Care

Remove, rinse with clean, potable water and dry. Change solution daily or when it becomes visibly soiled or discolored.

Cleaning and Deodorizing Directions

For use as a pre-cleaning instrument device soak:

- Fill appropriately-sized container with a sufficient amount of this product to allow the complete immersion of items. Make sure to select a container that is large enough to accommodate the size of the item(s) being cleaned. Some items may require additional rinse water to achieve a clean end result. Prevent the excessive foaming of the entire container and provide for easy cleaning and deodorizing due to the potential for residue build-up in the container.

Disinfection Directions

For use as a non-critical medical item disinfection immersion solution:

- 

Thoroughly pre-clean items being sure to remove all gross soil or discolored areas. Rinse with clean, potable water, place items into the ultrasonic bath, activate unit and allow unit to operate until items are visibly clean.

Prepare the ultrasonic bath using a dilution ratio of 1 fl. oz. of this product with 1 quart of clean, potable water. Place items into the ultrasonic bath, activate unit and allow unit to operate until items are visibly clean.

directions: for use

- 

Examples of items that may be pre-cleaned and disinfected in the ultrasonic bath include but are not limited to: silicone tubing, syringe barrels, needle tips, filters, measuring cups, and other items that may have been pre-cleaned and disinfected in a separate environment such as the ultrasonic bath.
