PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID

If in Eyes: • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

ROEBIC FOAMING ROOT KILLER contains Dichlobenil which kills the roots and prevents new growth. ROEBIC FOAMING ROOT KILLER can be used in toilets with septic systems.

Dichlobenil is readily absorbed on organic and inorganic colloids of sludge and clay in pipe joints providing residual control of root regrowth by inhibiting the development of actively dividing meristematic cells in root tips. New root growth is formed outside the pipe joints and are retarded or inhibited in growths when they come in contact with Dichlobenil inside the pipe. ROEBIC FOAMING ROOT KILLER self-foams on contact with water. The foam acts as a carrying agent, putting the active ingredient in contact with the tree roots above the film.

ROEBIC Foaming Root Killer is in 2 parts. Inside each container, Part A and Part B which contains the active ingredient Dichlobenil must both be mixed together as instructed under directions for use.

KEEP OUT OF REACH OF CHILDREN.

CAUTION

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

ACTIVE INGREDIENT: Dichlobenil (2,6 dichlorobenzonitrile) 0.56% OTHER INGREDIENTS: 99.45% TOTAL: 100.00%

NET WEIGHT 4 LBS

Personal Protective Equipment (PPE): Applications and other handlings, including meats and liquids, must wear long-sleeved shirts, long pants, shoes plus socks, and chemical-resistant gloves. Mixers and blenders must also wear a chemical-resistant apron.

Wearing garments can be found on page 1.

Follow manufacturer’s instructions for cleaning/maintaining PPE. If no such instructions are available, use detergent and hot water, soak and wash PPE separately from other laundry.

Physical and Chemical Hazards: Do not use with or store near oxidizing agents.

Environmental Hazards: For terrestrial uses, do not use near a well or where drinking water is stored. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water sources and waterways with this chemical. This chemical has properties and characteristics associated with chemicals detected in ground water. The use of this chemical in this area is subject to regulatory requirements.
