For Indoor Use in Restaurants, Food Processing Plants, Warehouses and Other Industrial Installations

- Dual Synergists
- Effective and Fast-Acting
- Provides Flushing Action and Quick Knockdown for Indoor Use as ULV, Space, Area, or Contact Spray.

Active Ingredients:
- Pyrethrins* ................................................................. 3.0%
- Piperonyl Butoxide** ............................................. 6.0%
- N-Octyl Bicycloheptene Dicarboximide*** .................. 10.0%

Other Ingredients****: ........................................ 81.0%
Total ................................................................. 100.0%

*One gallon contains 0.21 pounds Pyrethrins
**(Butylcarbityl)(6-propylpiperonyl) ether and related compounds
***MGK-264 Insecticide Synergist
****Contains Petroleum Distillates

KEEP OUT OF REACH OF CHILDREN

CAUTION

CAUTION

This product is intended for professional use by adults only.

DO NOT USE ON DOMESTIC (COMpanion) ANIMALS (dogs, cats, puppies, or kittens).

Do not use on or around domestic (companion) animals, food, or food processing equipment.

Avoid contamination of food or feedstuffs. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions. Hands thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco, or using the toilet.

EPA Reg. No. 47000-178                          EPA Est. No. 47000-IA-01

Exposure to this product or its vapors may cause irritation of the eyes, nose, throat, and respiratory tract. In case of irritation, obtain medical attention. In case of accidental exposure, avoid contamination of food or feedstuffs. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions. Hands thoroughly with soap and water after handling, and before eating, drinking, chewing gum, using tobacco, or using the toilet.

Chemical-resistant gloves made of barrier laminate, nitrile rubber, neoprene rubber, or Viton.

In some individuals, obtain medical attention if irritation persists. Avoid contamination of food or feedstuffs. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions.

PHYSICAL OR CHEMICAL HAZARDS

Combustible. Do not use or store near heat or open flame.

ENVIRONMENTAL HAZARDS

Combustible. Do not use or store near heat or open flame.

CAUTION

When used in dairy barns or facilities: Close milk bulk tanks lids to prevent contamination from spray and from dead or fallen insects. Remove or cover milking utensils before application.

When used in indoor food handling/processing facilities: Do not make space spray applications when facility is in operation. Prior to space spray applications, cover or remove food. Prior to space spray applications, cover food and change into clean clothing. Users should remove PPE and change into clean clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. When used in indoor food handling/processing facilities: Do not make space spray applications when facility is in operation. Prior to space spray applications, cover or remove food. Prior to space spray applications, cover food and change into clean clothing. Users should remove PPE and change into clean clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Do not use this product directly on domestic (companion) animals (dogs, cats, puppies, or kittens).

In health care facilities, remove patients prior to treatment and thoroughly ventilate treated area for at least 2 hours after application.

In spaces where food is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment. Do not apply to any area where water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment.

To kill Flies, Mosquitoes, Small Flying Moths, and Gnats:

Apply at a rate of 1 fluid ounce of undiluted concentrate per 1,000 cubic feet (1.04 ml/m³) of space. Direct spray toward upper corners of room and ceiling. Leave room closed for ½ hour and ventilate thoroughly before re-entry. Do not apply this undiluted as a ULV (ultra-low-volume) spray, but apply it in ULV sprayers as a fogging concentrate at the stated rate.

Application of this product is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewer or wash water or rinsate. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other bodies of water. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate. Do not discharge effluent containing this product to sewer or wash water or rinsate.
FIRST AID

If swallowed, do not induce vomiting unless told to do so by the poison control center or doctor.

Do not give anything by mouth to an unconscious person.

Rinse skin immediately with plenty of water for 15-20 minutes.

Note to Physician:

Contains petroleum distillates. Vomiting may cause aspiration pneumonia.

Note: Infested stored food products should be removed and destroyed or fumigated using an approved product intended for such use. Wash thoroughly with soap and water after handling or spraying live insects.

Sweep up and destroy fallen insects.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

WARNING:

In case of contact with eyes, flush eyes immediately and thoroughly with plenty of water for 15 minutes. If irritation persists, consult a physician. Do not use soap or android cleansers.

In case of contact with skin, wash skin immediately with plenty of water for 15-20 minutes. If irritation persists, consult a physician.

Note: Wear impervious gloves and avoid contact with eyes and skin. Do not inhale vapor.

STORAGE AND DISPOSAL

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet exposure. Follow all local, state, and Federal regulations for storage and disposal. Do not contaminate feed, food, or water by storage or disposal.

For control of exposed or accessible stages of ants, earwigs, flies, fruit flies, gnats, mosquitoes, silverfish, small flying moths, spiders, and waterbugs:

For control of Angoumois Grain Moths, Angoumois Moths, Black Meal Moths, Tobacco Moths, and Lesser Grain Moths:

Apply at the rate of one fluid ounce of concentrate per 1,000 cubic feet (0.74 ml/m^3) of space, fill the walls of grain bins, flooring, around bases of milling machinery, walls and baseboards, areas behind cabinets, around pipes, and corners of room and ceiling area. Do not remain in treated area. Exit treated area immediately and leave room closed off for at least three (3) hours before returning.

To control accessible stages of listed insects, clean and spray truck beds, boxcars, ship holds, and other listed transit equipment before loading. Dilute 2 fluid ounces of concentrate into 1 gallon of suitable diluent, mix well, and apply as a coarse wetting spray to the surface of binned grain at a rate of 1 gallon of diluted product per 1,000 square feet (40 ml/m^2) of space. Apply no more than 6 fluid ounces of the diluted product per 1,000 cubic feet (2.08 ml/m^3) of space. Apply at monthly intervals as needed.

For control of accessible stages of listed insects:

Dilute one part concentrate with 3 parts base oil (refined kerosene) and use with a ULV spraying device at the application rate of 4 fluid ounces per 1,000 square feet (16 ml/m^2) of space. Do not remain in treated areas. Do not remain in treated areas for at least three (3) hours before returning.

Diluted for Ordinary Mechanical Fogging Equipment

In either case, after the treated area is vacated, ventilate the area thoroughly before re-entry.

Note: It is recommended that the rate of application be reduced for direct application to food products or food processing equipment.

Surface Spray

Using no more than 10 fluid ounces per 1,000 square feet in an appropriate ULV spraying device, inject the aerosol spray directly into cracks and crevices to completely fill walls, equipment, and other small structural void areas. Leave room ventilation or air conditioning on for at least three (3) hours before returning.

For control of Confused Flour Beetles, Dried Fruit Beetles, Indian Meal Moths, and Saw-Toothed Grain Beetles:

Dilute to use with sprayers that give large, wetting spray particles - such as Cadelles, Confused Flour Beetles, Grain Mites, Granary Weevils, Meal Moth Larvae and Adults, Red Flour Beetles, Rice Weevils, and Saw-Toothed Grain Beetles.

Diluted for Ordinary Mechanical Fogging Equipment

To the extent permitted by applicable law, Seller makes no representation or warranty, either express or implied, for results obtained from the use of any product and for products used in connection with food or environmental control applications. Additionally, when diluted and used according to label directions, this spray may adversely affect certain components of the environment.

PRODUCT REMARKS

This product is intended for professional use. It is a concentrated aerosol designed for use with mechanical foggers and ULV devices. It is not intended for hand or auto-sprayer applications. Do not use on live insects as it is a synergistic concentrate.

It is safe for use on any animal or animal product. It does not contain any compounds which may affect the growth of food or food-related applications. It is recommended that the rate of application be reduced when used on exposed or accessible stages of insects.

Do not contaminate feed, food, or water by storage or disposal. Do not contaminate feed, food, or water by storage or disposal. Do not contaminate feed, food, or water by storage or disposal. Do not contaminate feed, food, or water by storage or disposal.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Mixers, loaders, applicators, and other handlers must wear the following:
- Long-sleeved shirt,
- Long pants,
- Shoes and socks,
- Chemical-resistant gloves made of barrier laminate, nitrile rubber, neoprene rubber, or Viton.

In addition to the above PPE, applicators using a high-pressure hand wand in an enclosed area must wear at least a half face, NIOSH-approved respirator with:
- Any R or P filter with a NIOSH approval number prefix TC-84A

In addition to the above PPE, applicators using hand-held foggers in an enclosed area must wear at least a half face, NIOSH-approved respirator with:
- A NIOSH-approved particulate filter with any R or P filter with NIOSH approval number prefix TC-84A
- A NIOSH-approved canister for pesticides with NIOSH approval number prefix TC-14G;
- A NIOSH-approved powered air purifying respirator with an HE filter with NIOSH approval number prefix TC-21C.

Pesticide Storage: Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with appropriate spray oil and recap. Shake for 10 seconds. Pour rinsate into application equipment or mix tank and drain for 10 seconds after emptying. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
