FIRST AID

IF ON SKIN OR CLOTHING:
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

Have the container or label with you when calling a poison control center or doctor, or going for treatment.

For information regarding medical emergencies or pesticide incidents, call 1-888-740-8712.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. Do not apply directly to or near water. Do not contaminate water when disposing of equipment, wastewater, or residue. Drift and runoff may be hazardous to fish in water adjacent to treated areas. See Directions for Use for additional precautions and requirements.

This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are foraging in the treated area.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL DIRECTIONS COMPLETELY BEFORE USE.

SHAKE WELL BEFORE EACH USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

For best results, follow directions for specific use areas. Do not use on animals. Avoid excessively wetting furniture and carpeting. Always last in an inconspicuous area before using. Local products may adversely affect some natural and synthetic fibers.

Avoid contamination of food and feedstuffs. DO NOT CONTAMINATE FOOD AREAS.

Do not apply this product in a way that will contact adults, children, or pets, directly or through drift. Remove pets, birds and cover fish aquariums before spraying. Do not apply when food is present. Remove or cover dishes, utensils, food processing equipment, and food storage bags, before using. Do not cover exposed food and drinking water before application.

OUTDOOR USE: All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted use: Applications to lawns, turf, and other vegetation. Do not water the treated area to the point of runoff.

Do not make applications during the rain. Do not use on edible crops. Take precautions to avoid spraying with wind conditions that could create a mist that may blow back to applicator. Do not apply this product in or around bodies of water.

FLIES, GNATS, MOSQUITOES, SMALL, 24-26 INCHES. Mites, Laid Small Flying Insects, Sand Flies, Black Flies, Biting Flies, Deer Flies, Face Flies, Horse Flies, Houseflies, Stable Flies, Vinegar Flies, Fruit Flies, and other listed flying insects: Hold container 18-24 inches from trees, bushes, grassy areas and other areas infested with these pests. Spray with a slow oscillating motion. To reduce annoyance from these pests, treat surfaces of open porches, patios, screens, window frames, doors, and other areas where these pests may congregate or congregate in a similar manner. Allow spray to dry before occupying treated area.

WASPS, HORNETS, BEES, YELLOW JACKETS, AND PAPER NEST WASPS: Hold container 18-24 inches away from these insects and spray them directly. Do not spray into nests or hives. Only use an EPA Registered product designed for use on nests and hives.

GARDEN PESTS: NOT FOR USE ON EDIBLE CROPS

WHEN SPRAYING, HOLD 20-26 INCHES FROM PLANT. Take precautions when spraying tender or new growth on young plants. First, spray these plants on a few leaves to ensure plant safety before spraying entire plant. For best results, apply in short bursts and spray in the evening or on a cloudy day when air is still.

Lightly mist plants. Use a slow oscillating motion. Avoid excessively wetting planting foliage with spray. Spray plants at the rate of 1 oz (0.5 liter) per second for heavy growth, spray both sides of plants. Do not spray when temperature exceeds 90°F.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

Pesticide Storage/Store in a cool, dry area. Always store pesticides in the original container.

Pesticide and Container Handling: Do Not puncture or incinerate! Nonflammable container. Do not reuse or refill this container. If empty, Place in trash or offer for recycling if available. PURIFY WATER: Call your local waste disposal agency for disposal instructions.

Note: Buyer assumes all risk of use, storage, handling, or disposing of this product not in accordance with directions.
