Natural FLEA & TICK CARPET POWDER

ALL NATURAL: TropicClean Powder kills fleas & ticks on carpets and upholstery. Over time, it is extremely long-lasting and reduces the infestation of fleas & ticks by up to 20 days. It is also suitable for use on pets and pet bedding.

DIRECTIONS FOR USE:
- Apply immediately after each use, and use only in accordance with the instructions. SHAKED WELL BEFORE USING. Apply powder lightly over the entire surface. Apply uniformly to the ground area where insects may be crawling or hiding. The amount to be applied will vary depending upon the severity of the infestation.
- Use 1000 teaspoons of TropicClean Powder to treat 6 rooms. Apply 5 ounces per 100 square feet for surface area. For maximum effectiveness, wait 24 hours before applying. Apply powder more heavily to areas of highest activity where pets spend most of their time. Apply to dry surfaces only. Do not wet powder. Do not apply to wet or damp carpet or upholstery. Overhead and under furniture shall be treated regularly.

CARPET: Shake powder evenly across carpet. Brush lightly with brush to force powder deep into carpet where fleas and their larvae exist. Wait at least 60 minutes before vacuuming to remove visible powder surface. For maximum effectiveness, repeat after an hour to 24 hours. Repeat every two weeks or as needed to prevent infestations. Treat pets with TropicClean Flea & Tick Shampoo prior to re-treatment.

UPHOLSTERY: Remove loose cushions, curtains, and other items. Use a brush to lightly powder work powder into folds and crevices. Remove or remove all pets powder on surfaces. The product is non-toxic in most household surfaces. Therefore, any surface can be highly effective in controlling or eliminating dust mites, but the effectiveness is not limited to environments where insects are not present. Use pallets with TropicClean Flea & Tick Shampoo prior to re-treatment.

DOGS: TropicClean Flea & Tick Powder can be used directly on dogs over 10 weeks. Apply lightly over the entire body, including the ears and tail. Rub powder into hair and around feet. Do not use powder in dog's eyes, nose, or mouth. Wash your hands with soap and water if necessary.

KEEP OUT OF REACH OF CHILDREN
PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND PET: ANIMALS:
- HUMANS: Causes moderate eye irritation. Wash hands thoroughly with soap and water after handling. Avoid exposure to眼睛 or nose or mouth. Ensure proper ventilation when using this product on pregnant or nursing dogs. Sensitization may occur after using this product. If signs of sensitivity occur, contact a veterinarian immediately.
- ANIMALS: Do not apply product into eyes, nose, or mouth of animals. Do not use on or cause exposure to puppies under 12 weeks old. Consult a veterinarian before using this product in pregnant or nursing dogs. Sensitization may occur after using Alfentanil for pets. If signs of sensitivity occur, consult a veterinarian immediately.

FIRST AID:
- IF IN EYES: Hold eyes open and rinse with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.
- IF INHALED: Remove the product container or label with you when calling a poison control center or doctor for treatment advice. You may also contact the Environmental Protection Agency at 1-800-322-3298.
- STORAGE: Store in a cool, dry place, away from children and pets.
- DISPOSAL: Place in trash or return for proper recycling if available.
