Hartz® UltraGuard®

DUAL ACTION™

Topical for Dogs & Puppies

Precautionary Statements

Hazards to Humans

Caution: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using toilet. Remove and wash contaminated clothing before reuse.

Hazards to Domestic Animals

Do not use on other animals. For external use only. Do not use on dogs or puppies less than 12 weeks of age. Do not use on dogs or puppies weighing less than 61 lbs. Do not use this product on debilitated, aged, medicated, pregnant or nursing animals or on animals known to be sensitive to pesticide products without first consulting a veterinarian. Sensitivity, such as slight transitory redness of the skin at the site of application, may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap, rinse with large amounts of water, and consult a veterinarian immediately. This product is not a substitute for prescribed heartworm preventative.

Environmental Hazards

This product is toxic to fish. This pesticide is prescribed heartworm preventative. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down an indoor or outdoor drain. If empty: Offer for recycling, if available. Non-refillable container. Do not reuse or refill this container. If empty: Call your local solid waste agency for disposal instructions. Never place unused product down an indoor or outdoor drain.

Storage and Disposal

Pesticide Storage: Keep this product in its tightly closed original container, when not in use. Store in a cool, dry, preferably locked area that is inaccessible to children and animals. Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Container Handling: Non-refillable container. Do not use or refill this container. If empty: Offer for recycling, if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

For more information call our flea and tick experts at 1-800-275-1414 (weekdays, 9 am – 5 pm E.S.T.)

Side Effects: Monitor your dog after application. Side effects may include signs of skin irritation such as redness, scratching, or other signs of discomfort. Gastrointestinal signs such as vomiting or diarrhea have also been reported. If these or other side effects occur, consult your veterinarian or call 1-800-275-1414.

Directions for Use: It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Importantly: Read entire label before each use.

Restrictions

For use only on dogs or puppies 12 weeks of age or older weighing more than 61 lbs.

Do not allow your dog/puppy to ingest this product.

Do not exceed labeled dosage amount for dogs.

Do not apply more than one tube per treatment for one dog regardless of dog's weight.

Do not have contact or allow children to have contact with treated area until completely dry.

Do not allow children to apply product.

Do not allow children to apply product.

Do not bathe or allow your dog to swim for 48 hours after treatment has been applied.

Do not use on feline pets.

Do not use in a manner inconsistent with its labeling.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Directions for Use:

1. Remove one tube from the package and hold in an upright position.
2. Pull off cap. Turn the cap around and place on top of tube.
3. Simply press cap down to break the seal of the tube. Remove cap carefully.
4. Position the tip of the tube on the dog's back between the shoulder blades. Use the tip of the tube to part the dog's hair so that the product will be applied at skin level. Begin squeezing out the contents of the tube to form a stripe as you move from the shoulder blades along the dog's back to the base of the tail.
5. Repeat every month. Separate treated dog from other pets for 24 hours after treatment has been applied.
