DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Application Directions: Shake well before use. Spray weeds until foliage is wet. Thorough coverage is important. For spot treatment of individual weeds, apply the solution to the center of plant. Repeat the application to control newly emerged weeds growing from seed and growth from biennial and perennial weeds. Avoid spraying desirable plants. Contents of this container will cover 32-48 square feet.

Use Sites: Use on weeds, grass, moss, algae, brush, vines, and in areas where tough weeds are invading your yard including around and on buildings, and other structures, around sidewalks, fences, driveways, patios, foundations, gravel, flower gardens, landscaped areas, trees, shrubs, wooded and vacant lots, fields, trails, garden plot preparation, and other areas of your yard.

Preventative Measures:
- Do not sprayブランド (Brand) or Duranil (Duranil)
- Do not spray Brandname or Duranil on Brandname or Duranil
- Do not spray Brandname or Duranil on Brandname or Duranil
- Do not spray Brandname or Duranil on Brandname or Duranil
- Do not spray Brandname or Duranil on Brandname or Duranil
- Do not spray Brandname or Duranil on Brandname or Duranil
- Do not spray Brandname or Duranil on Brandname or Duranil

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

Environmental Hazards
This product may be hazardous to aquatic invertebrates. Do not apply directly to water. To protect the environment, do not allow pesticides to enter or run off into storm drains, septic systems, or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

Surface Water Advisory: Under some conditions, maleic hydrazide may be a significant potential for runoff into surface waters. For several days post-application, conditions favoring runoff include poorly drained soils or wet soils with readily visible slopes, frequently flooded areas, areas where intense or sustained rainfall is forecast to occur within 48 hours, areas of existing shallow ground water, and areas overlying tile drainage systems that flow to surface water.

Warranty
The product is warranted to the extent consistent with applicable law. If the product conforms to the chemical description on the label and is reasonably fit for purposes stated on the label only when used in accordance with directions under normal use conditions. This warranty does not extend to use of this product contrary to label directions, or under abnormal use conditions, or under conditions not reasonably foreseeable to seller. Buyer assumes all risk of any loss. To the extent consistent with applicable law, seller makes no other warranties, either expressed or implied.
