Inspire Super®

Fungicide

This supplemental label expires on April 6, 2019 and must not be used or distributed after this date.

Active Ingredients:
Difenoconazole* ................................................................. 8.4%
Cyprodinil** ................................................................. 24.1%
Other Ingredients: 67.5%
Total: 100.0%

*CAS No.119446-68-3
**CAS No. 121552-61-2

Contains 0.73 lb of difenoconazole active ingredient and 2.09 lb of cyprodinil active ingredient per gallon.

EPA Reg. 100-1317

KEEP OUT OF REACH OF CHILDREN.

CAUTION

All applicable directions, restrictions and precautions on the EPA-registered label are to be followed. Before using Inspire Super as permitted according to this supplemental label, read and follow all applicable directions, restrictions, and precautions on the EPA-registered label on or attached to the pesticide product container. This Supplemental Labeling contains revised use instructions and or restrictions that may be different from those that appear on the container label. This Supplemental Labeling supersedes the Directions for Use on the container label. This Supplemental Labeling must be in the possession of the user at the time of pesticide application. It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
SPECIFIC DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

<td>Filberts (Hazelnuts)</td>
<td>Eastern Filbert Blight (Anisogramma anomala)</td>
<td>16 - 20</td>
<td>Begin applications prior to disease onset when conditions are conducive for disease. Apply Inspire Super on a 14- to 21-day schedule making no more than 2 sequential applications before alternating to another fungicide with a different mode of action. If disease pressure is high, use the shortest interval and highest rate.</td>
</tr>
</tbody>
</table>

**Application:** Application may be made by ground or air. For best results, sufficient water volume must be used to provide thorough coverage. Use a minimum of 50 gal/A for ground applications. Use a minimum of 10 gal/A of water for aerial application. Use ground application for best results.

**Specific Use Restrictions:**
1) Make no more than two applications by air.
2) Do not apply more than 80 fl oz/A/year of Inspire Super.
3) Do not apply more than 0.46 lb ai/A/year of difenoconazole-containing products.
4) Do not apply more than 1.3 lb ai/A/year of cyprodinil-containing products.
5) Do not apply within 14 days of harvest (14-day PHI).
6) Do not apply more than 5 applications per year (air plus ground) or no more than 80 fl oz/A/year.
