
Kills over 99.99% of bacteria, germs, viruses* in 3 minutes on hard, nonporous surfaces including: • Staphylococcus aureus • Methicillin-Resistant Staphylococcus aureus (MRSA) • Salmonella enterica • Norovirus-Resistant Enteroviruses: E. coli • Pseudomonas aeruginosa • Listeria monocytogenes • Escherichia coli O157:H7 • Klebsiella pneumoniae NDM-1 • Streptococcus suis in 2 minutes on hard, nonporous surfaces • Trichophyton mentagrophytes (Athlete's Foot Fungus) • Candida albicans in 5 minutes on hard, nonporous surfaces. • Human Coronavirus, "H1N1" Flu Virus, in 1 minute on hard, nonporous surfaces. • Mycobacterium bovis BCG (TB) in 1 minutes on hard, nonporous surfaces. DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Heavily soiled or greasy surfaces require pre-cleaning.

TO DISINFECT: Spray to thoroughly wet the surface to be disinfected with Bioesque Botanical Disinfectant Solution. Spot test to check compatibility with the surface. Allow to stand 1 minute to eliminate viruses*, 2 minutes to eliminate bacteria, and 3 minutes to eliminate fungi, M. bovis BCG, TB. Allow to air dry. Do not wipe dry. No rinsing or wiping required on non-food contact surfaces except on direct food contact surfaces which require a potable water rinse after treatment. Food Products and packaging materials must be removed or carefully protected prior to using this product.

*KILLS HIV-1 ON PRECLEANEN ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate objects/surfaces with blood/body fluids and in which the surfaces/others likely to be soiled with blood/body fluids can be associated with the potential for transmission of HIV-1 (associated with AIDS). SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS. PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable protective latex gloves, gown, masks and eye protection. CLEANSING PROCEDURES: Blood/body fluids must be thoroughly cleaned from surfaces/others before application of Bioesque Botanical Disinfectant Solution. CONTACT TIME: Allow surface to remain wet for 1 minute. A 2 minute contact time is needed for bacteria and a 3 minute contact time for fungi.

DISPOSAL OF INFECTIOUS MATERIAL: Blood/body fluids should be autoclaved and disinfected according to local regulations for infectious waste disposal.

TO CLEAN AND DEODORIZE: Spray Bioesque Botanical Disinfectant Solution on the surface and let it sit. To remove stubborn stains, leave the product to stand for 5 minutes.

TO SANITIZE: Spray to thoroughly wet the surface to be sanitized with Bioesque Botanical Disinfectant Solution. Allow to stand 30 seconds. No rinsing required on non-food contact surfaces. On food contact surfaces a wipe with potable water is required. Food products and packaging materials must be removed or carefully protected prior to using this product. This product is effective as a Non-Food Contact Sanitizer on hard non-porous surfaces against Enterobacter aerogenes and Staphylococcus aureus in 30 seconds.

STORAGE AND DISPOSAL: Do not contaminate water, feed or food by storage or disposal.

PESTICIDE STORAGE: Store the product out of the reach of children.

PESTICIDE DISPOSAL: Use up product in accordance with local regulations. Wash your hands after handling the product. Wash clothing before reusing. The product is not considered a pesticide and is not part of the pesticide regulations. The product may be disposed of on site or on an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse or refill empty containers. Do not recontaminate containers. Do not reuse or refill empty containers. Do not contaminate water, food, or feed by improper disposal.

BIODEGRADABLE: Formulated with THYMOL Technology. 100% biodegradable and environmentally friendly.
